# Airfish 0501 Dressing Table with LED Mirror and Stool User Manual

Model: 0501

## 1. PRODUCT OVERVIEW

---

The Airfish 0501 Dressing Table is designed to provide a functional and stylish space for personal care. It features an integrated LED mirror with adjustable lighting, ample storage, and a matching stool.

*Figure 1: Airfish 0501 Dressing Table with LED Mirror and Stool. This image displays the fully assembled black dressing table, featuring a rectangular mirror with integrated LED lighting, two spacious drawers, and open shelves on either side of the mirror. A matching upholstered stool is positioned in front of the table.*

**Key Features:**

- Concealed LED strip on the 45 x 60 cm mirror with 3 brightness levels and 3 color temperatures.
- Two main drawers for organized storage.

- Four open shelves on both sides of the mirror for cosmetics and skincare.
- Additional side storage cabinets (60 x 40 x 13 cm) located under the main drawers.
- Coordinated design with a matching make-up stool.

## 2. ASSEMBLY INSTRUCTIONS

---

This dressing table requires assembly. Detailed instructions and clearly labeled parts are included in the package. Please follow the steps carefully to ensure correct and stable construction.

**Estimated Assembly Time:** Approximately 2 hours for two people.

**Recommended Tools:** Standard household tools (e.g., screwdriver, hammer) may be required. Please refer to the included instruction manual for a complete list.

1. Unpack all components and verify against the parts list provided in the manual.
2. Identify each part using the labels.
3. Follow the step-by-step diagrams and instructions for assembling the main table structure.
4. Attach the mirror unit, ensuring all electrical connections for the LED lighting are secure.
5. Install the drawers and test their smooth operation.
6. Assemble the matching stool.
7. Ensure all screws and fasteners are tightened securely before use.

**Important Note:** Some users have reported challenges with aligning holes or drawer mechanisms. If you encounter difficulties, double-check the orientation of parts and ensure all components are correctly identified before proceeding. Do not force parts together.

## 3. OPERATING THE LED MIRROR

---

The integrated LED mirror provides adjustable lighting for various needs. The controls are typically located on the mirror surface itself, often indicated by a touch sensor.

- **Power On/Off:** Lightly touch the designated sensor on the mirror to turn the LED lighting on or off.
- **Adjust Brightness:** With the light on, press and hold the sensor to cycle through the 3 available brightness levels. Release when the desired brightness is achieved.
- **Change Color Temperature:** Briefly touch the sensor repeatedly (without holding) to switch between the 3 color temperature settings (e.g., warm white, natural white, cool white).

Refer to the specific instructions included with your product for exact control mechanisms, as these may vary slightly.

## 4. MAINTENANCE AND CARE

---

Proper care will extend the life and appearance of your Airfish Dressing Table.

- **Cleaning the Surface:** Wipe the engineered wood surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cleaning the Mirror:** Use a standard glass cleaner and a lint-free cloth for the mirror surface. Do not spray cleaner directly onto the LED strip or electrical components.
- **Spills:** Immediately wipe up any spills to prevent staining or damage to the wood.
- **Drawer Maintenance:** If drawers become stiff or sticky, check for obstructions. Lubricate drawer slides with a silicone-based spray if necessary, ensuring not to over-apply.

- **LED Lighting:** The LED strip is designed for long-term use. If the lighting malfunctions, ensure the power connection is secure. Do not attempt to repair the LED strip yourself; contact customer support.

## 5. TROUBLESHOOTING

This section addresses common issues you might encounter with your dressing table.

Problem	Possible Cause	Solution
LED mirror not turning on.	Power cable not connected; loose connection; faulty sensor.	Ensure the power cable is securely plugged into an outlet and the mirror unit. Check for any loose wires. If the issue persists, contact customer support.
Drawers are stiff or do not close flush.	Misaligned drawer slides; obstruction in the drawer track; incorrect assembly.	Remove the drawer and inspect the slides for any obstructions or damage. Re-check assembly steps for drawer slide installation, ensuring they are level and correctly oriented. Lubricate slides with a silicone spray if needed.
Table feels wobbly after assembly.	Loose fasteners; uneven floor.	Check and tighten all screws and bolts. Ensure the table is on a level surface. If necessary, use furniture pads under the legs to stabilize.
Parts do not align during assembly.	Incorrect part orientation; manufacturing tolerance.	Carefully review the instruction manual and diagrams to confirm correct part orientation. Do not force parts. If a part appears defective or significantly misaligned, contact customer support for assistance or replacement.

## 6. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Airfish
Model Number	0501
Overall Product Dimensions (L x W x H)	35.43" x 15.75" x 53.15" (90 cm x 40 cm x 135 cm)
