

PAKASEPT TTB1055

PAKASEPT Corner Display Cabinet

MODEL: TTB1055 - INSTRUCTION MANUAL

Important Safety Information

Please read and understand all instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always assemble according to the provided instructions.
- Keep the cabinet away from heat sources and direct sunlight to prevent material degradation.
- Do not place heavy objects on the top shelf to prevent tip-over.
- Be cautious when handling glass doors and shelves to avoid breakage and injury.
- Use appropriate safety gear, such as gloves, when assembling.
- Ensure the cabinet is placed on a stable, level surface.
- For added stability, consider anchoring the cabinet to a wall, especially in homes with children or pets.

Package Contents

Before beginning assembly, ensure all parts listed in the included detailed manual are present and undamaged. If any parts are missing or damaged, please contact customer support for replacements.

- Engineered Wood Panels (various sizes for base, shelves, and frame)
- Tempered Glass Doors (3 units)
- Glass Shelves (4 units)
- LED Light Strips with integrated control panel and human body sensor
- Magnetic Door Catches and Hinges

- Assembly Hardware (screws, dowels, connectors)
- Detailed Instruction Manual

Assembly Instructions

Assembly is required for this product. It is recommended to follow the step-by-step instructions provided in the accompanying detailed manual. Lay out all parts by their corresponding numbers before starting. Two people are recommended for assembly.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Verify that all parts and hardware are present by comparing them with the parts list in the manual.
2. **Assemble the Base:** Begin by attaching the side panels to the bottom panel using the provided hardware. Ensure all connections are secure.
3. **Install Back Panels:** Slide the back panels into their designated grooves on the assembled base.
4. **Attach Shelves:** Secure the internal shelves to the side panels at the specified heights.
5. **Connect LED Wiring:** Carefully route and connect the LED light strip wiring according to the manual. The lights are pre-attached to the shelves.
6. **Install Glass Doors:** Attach the hinges to the glass doors and then secure the doors to the cabinet frame. Ensure the magnetic catches align properly for smooth opening and closing.
7. **Final Placement:** Once fully assembled, carefully move the cabinet to its desired corner location.

Operating Instructions

Glass Door Operation

The cabinet features three clear tempered glass doors with a pop-open design. To open, gently press the door. The magnetic catch will release, allowing the door to swing open. To close, push the door back until the magnetic catch engages.

PRESS TO OPEN THE DOOR

Easy to operate, clean and tidy.

LED Lighting and Motion Sensor

The cabinet is equipped with 3-color adjustable LED lights and a smart human body motion sensor. The control panel is located on the side of the cabinet.

- **Adjusting Colors:** Single press the light control button on the panel to cycle through the three available light colors: warm, cool, and blue.
- **Adjusting Brightness:** Long press the light control button to adjust the brightness of the selected color.
- **Motion Sensor:** The built-in human body sensor will automatically turn the lights on when it detects movement within a sensing range of 1-3 meters. The lights will turn off after a period of inactivity.

SMART HUMAN SENSOR

The light will automatically turn on/off when detects people approach.

Care and Maintenance

To ensure the longevity and appearance of your display cabinet, follow these care guidelines:

- **Cleaning:** Use a soft, damp cloth to wipe down wood surfaces. For glass, use a non-abrasive glass cleaner and a microfiber cloth to avoid streaks.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or ammonia-based products, as they can damage the finish and glass.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth to prevent dust buildup.
- **Placement:** Avoid placing the cabinet in direct sunlight or near heat sources, which can cause fading or warping.
- **Weight Distribution:** Distribute items evenly across the shelves to prevent undue stress on the structure.

Troubleshooting

If you encounter any issues with your PAKASEPT Corner Display Cabinet, please refer to the following common solutions:

- **Lights Not Working:** Check if the power adapter is securely plugged into both the cabinet and a working wall outlet. Ensure all internal wiring connections are firm.
- **Motion Sensor Malfunction:** Verify that the motion sensor is not obstructed. Ensure the sensor is enabled via the control panel.
- **Doors Not Closing Properly:** Check for any obstructions in the door path or around the magnetic catches. Ensure hinges are properly aligned and tightened.
- **Cabinet Wobbles:** Ensure the cabinet is on a level surface. Adjust any leveling feet if present. If necessary, re-tighten all assembly hardware.

For further assistance, please contact PAKASEPT customer support.
