

AIYAPLAY 370-395V00BU

AIYAPLAY Pedal Go-Kart Model 370-395V00BU User Manual

For Models: 370-395V00BU

IMPORTANT SAFETY INFORMATION

WARNING: Use this product only under direct adult supervision. Failure to follow these safety instructions may result in serious injury.

- Always ensure the child wears appropriate safety gear, including a helmet, knee pads, and elbow pads.
- Do not use the go-kart near stairs, on steep slopes, or near public roads.
- Ensure all nuts and bolts are securely tightened before each use.
- The maximum weight capacity for this go-kart is 50 kg (110 lbs).
- Recommended age for use is 3-6 years. Recommended height is 110-135 cm.
- Only one rider at a time.
- Keep hands and feet away from moving parts.

PRODUCT OVERVIEW

The AIYAPLAY Pedal Go-Kart is designed to provide an engaging and safe riding experience for children. It features an automatic clutch system for smooth starts and stops, allowing children to control their movement with ease. The go-kart supports both forward and reverse motion, operated by pedals, and includes a reliable brake system for secure stopping. Its durable construction with a metal frame and anti-slip EVA wheels ensures stability and a quiet ride on various surfaces.

Key Features:

- **Automatic Clutch System:** Facilitates easy and safe operation for young riders.
- **Forward and Reverse Functions:** Allows movement in both directions without complex controls.
- **Pedal-Powered:** No batteries or charging required; simply pedal to move.
- **Anti-slip EVA Wheels:** Provides smooth, quiet, and stable rides on diverse terrains.
- **Shock-Absorbing Tires:** Designed to reduce noise during operation.

- **Robust Construction:** Features a strong metal frame and plastic components, supporting up to 50 kg.
- **Comfortable Seating:** Wide seat and high backrest for rider comfort.

PACKAGE CONTENTS

Please check the package carefully to ensure all components are present and undamaged before assembly.

- 1 x AIYAPLAY Pedal Go-Kart (unassembled)
- 1 x Instruction Manual
- Necessary assembly hardware (nuts, bolts, washers)

ASSEMBLY INSTRUCTIONS

Assembly is required for this product. It is recommended to have an adult perform the assembly. Clear instructions are provided to guide you through the process. Please follow the steps carefully.

1. Unpack all components and verify against the package contents list.
2. Attach the front axle assembly to the main frame. Ensure all bolts are tightened securely.
3. Install the steering column and connect it to the front wheel mechanism.
4. Mount the seat onto the frame, adjusting its position if necessary for the rider's comfort.
5. Attach the rear axle and wheels.
6. Install the pedals and connect them to the drive mechanism.

7. Perform a final check to ensure all parts are correctly assembled and all fasteners are tight.

OPERATING INSTRUCTIONS

The AIYAPLAY Pedal Go-Kart is designed for intuitive operation, making it easy for children to learn and enjoy.

Starting and Moving:

- **Seating:** Ensure the child is seated comfortably with their feet able to reach the pedals.
- **Steering:** Hold the steering wheel firmly with both hands.
- **Pedaling Forward:** To move forward, pedal in a continuous forward motion. The automatic clutch system allows for smooth acceleration.
- **Pedaling Backward (Reverse):** To move backward, pedal in a continuous backward motion.

Figure 3: Easy operation of the go-kart. This image illustrates how to operate the go-kart, showing the actions for braking, reversing, and moving forward by pedaling.

Braking:

- The go-kart is equipped with a hand brake. Locate the brake lever, typically near the steering wheel or seat.
- To slow down or stop, gently squeeze the brake lever. Apply steady pressure until the desired speed reduction or stop is achieved.

Automatic Clutch System:

The automatic clutch system allows the go-kart to continue moving even if the child stops pedaling, similar to a bicycle's freewheel. This provides a smoother and more natural riding experience, especially for beginners.

AUTOMATIC CLUTCH

More suitable for little ones who are driving for the first time

Freewheel System

Like a bicycle, even kids stop pedalling while still moving forward

Figure 4: Automatic clutch system. This image highlights the automatic clutch feature, explaining how it allows the go-kart to freewheel when pedaling stops.

Terrain Use:

The anti-slip EVA wheels are designed for smooth operation on various hard surfaces such as asphalt roads, brick paths, and cement roads. Avoid using on uneven, soft, or slippery surfaces.

CONQUER ANY TERRAIN

Figure 5: Go-kart suitable for various terrains. This image shows the go-kart being used on asphalt, brick, and cement roads, emphasizing the versatility of its EVA wheels.

MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your AIYAPLAY Pedal Go-Kart.

- **Cleaning:** Wipe down the go-kart with a damp cloth and mild soap. Avoid harsh chemicals that may damage the plastic or paint.
- **Inspection:** Periodically check all nuts, bolts, and fasteners to ensure they are tight. Re-tighten if necessary.
- **Wheels:** Inspect the EVA wheels for any signs of wear or damage. While EVA wheels do not require air, ensure they are free from debris.
- **Moving Parts:** Keep the pedal and chain mechanisms clean and free of dirt or obstructions. Lubricate moving parts with a suitable lubricant if they become stiff.
- **Storage:** Store the go-kart in a dry, covered area away from direct sunlight and extreme temperatures to prevent material degradation.

TROUBLESHOOTING

If you encounter issues with your AIYAPLAY Pedal Go-Kart, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Go-kart does not move when pedaling.	Pedal mechanism disconnected or jammed.	Check the pedal and chain connections. Clear any obstructions. Ensure pedals are correctly installed.
Brake is not effective.	Brake cable loose or worn.	Inspect the brake cable and lever. Adjust or replace if necessary. Ensure brake pads are making proper contact.
Go-kart makes unusual noises.	Loose parts or debris in moving components.	Inspect all connections for tightness. Check wheels and pedal mechanism for foreign objects. Lubricate moving parts.
Steering is stiff or difficult.	Steering mechanism obstructed or dry.	Check for obstructions around the steering column. Apply lubricant to steering pivot points.

If the problem persists after attempting these solutions, please contact customer support.

SPECIFICATIONS

Feature	Detail
Model Number	370-395V00BU
Overall Dimensions (L x W x H)	100 cm x 59 cm x 60.5 cm (39.4" x 23.2" x 23.8")
Seat Dimensions	23 cm (width) x 34.5 cm (depth)
Seat Height	31.5 cm (12.4")
Backrest Dimensions	32 cm (width) x 34 cm (height)
Wheel Diameter	24 cm (9.4")
Recommended Age	3-6 years
Recommended Height	110-135 cm (43.3"-53.1")
Maximum Load Capacity	50 kg (110 lbs)
Materials	Metal frame, Plastic, EVA wheels
Product Weight	11 kg (24.2 lbs)
Safety Standard	EN71-1-2-3
