

ARENTE Pet Feeder 1 Kit-MRHK

ARENTE Smart Automatic Cat Feeder and Water Fountain

Model: Pet Feeder 1 Kit-MRHK

1. PRODUCT OVERVIEW

The ARENTE Smart Automatic Cat Feeder and Water Fountain is designed to provide automated feeding and hydration for your pets. This integrated system features a 4L dry food dispenser and a hygienic water fountain, both controllable via a smartphone application. It includes a 2K HD camera for real-time monitoring and two-way audio communication.

Key Features:

- **Smart Feeding & Hydration:** Unlimited meal scheduling and adjustable portions via app. Flowing water encourages pet hydration.
- **2K HD Camera & Real-Time Monitoring:** Live view with 130° wide-angle lens and 4:3 aspect ratio for comprehensive pet monitoring.
- **Meal Call & Two-Way Talk:** Interact with your pet using built-in two-way audio and custom meal calls.
- **Large 4L Capacity & Battery Backup:** Holds up to 17 cups of dry food, with AC power and optional D-cell battery backup for power outages.
- **Easy to Clean & Pet-Safe Materials:** Food-grade, detachable components for easy cleaning.
- **Smart Alerts & Notifications:** Motion detection and app notifications for pet activity and low food levels.

3. SETUP INSTRUCTIONS

Follow these steps to set up your ARENTI Smart Automatic Cat Feeder and Water Fountain:

1. **Unpack Components:** Carefully remove all items from the packaging and ensure all listed components are present.
2. **Assemble Feeder Base:** Place the main body of the feeder on a stable, flat surface.
3. **Install Food Bowl:** Insert the stainless steel food bowl into the designated slot at the front of the feeder base.
4. **Fill Food Hopper:** Open the top lid of the food hopper and pour dry pet food (recommended kibble size: 5-15 mm) into the container. Ensure the desiccant bag is placed in the lid to maintain food freshness. Close the lid securely.
5. **Assemble Water Fountain:** Assemble the water fountain components including the drinking tray, tube, filter element, and pump. Fill the water reservoir with fresh water.
6. **Connect Power:** Connect the power adapter to the feeder and plug it into a wall outlet. For battery backup, insert 4 D-cell batteries (not included) into the battery compartment at the bottom of the unit.
7. **Download App:** Download the ARENTI app from your smartphone's app store.
8. **Connect to Wi-Fi:** Follow the in-app instructions to connect your feeder to your home's 2.4 GHz or 5 GHz Wi-Fi network.

Customize *Feeding Schedule*

Be the perfect nutrition planner for your fur baby. Make your pet's daily meal plan by setting the number of feedings and portion sizes.

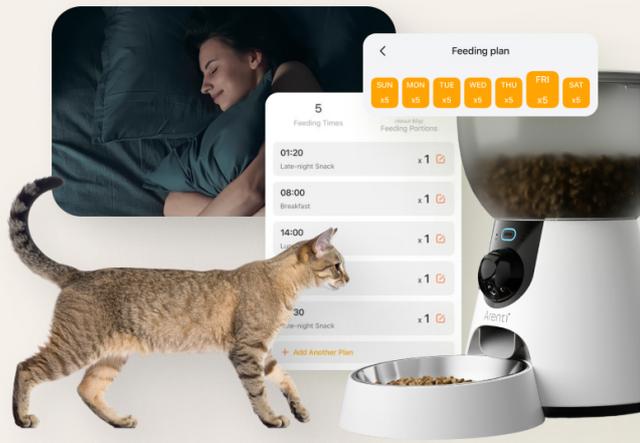

Image 3.2: The integrated drinking fountain accessory.

4. OPERATING INSTRUCTIONS

Operate your smart feeder using the ARENTI app or manual controls.

4.1. Scheduled Feeding

Use the ARENTI app to set up a customized feeding schedule for your pet. You can specify feeding times, days of the week, and portion sizes. The feeder will automatically dispense food according to your programmed schedule.

Image 4.1: Customize your pet's feeding schedule via the app.

4.2. Manual Feeding

To dispense food manually, either press the feed button on the device or use the 'Feed Now' option in the ARENTI app. You can select the desired portion size before manual dispensing via the app.

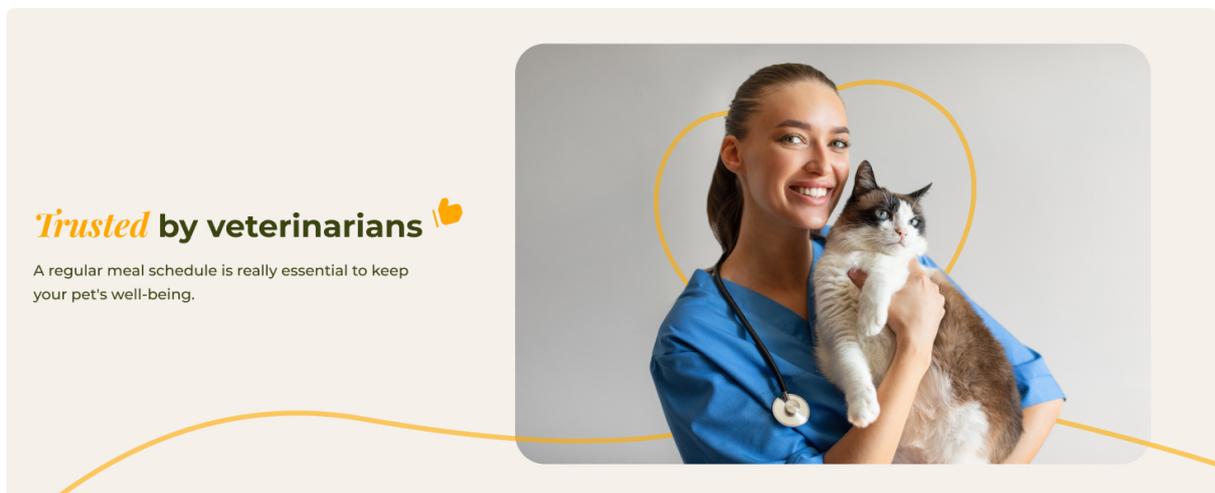

Image 4.2: Remote feeding via the Arenti App.

4.3. Camera Monitoring & Two-Way Talk

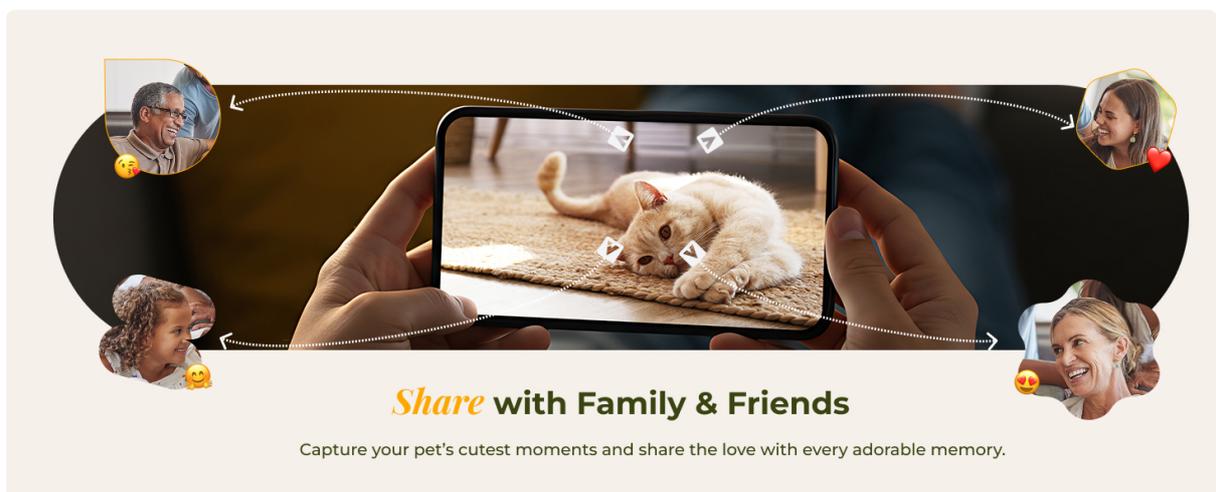

Access the 2K HD camera via the app for a live view of your pet. The 130° wide-angle lens and 4:3 aspect ratio provide extensive coverage. Use the two-way audio feature to speak to your pet or listen to them. You can also record custom meal calls to attract your pet at feeding times.

2-Way Audio

Stay close to your pet anytime and anywhere

Image 4.3: Two-way audio feature for interacting with your pet.

Share with Family & Friends

Capture your pet's cutest moments and share the love with every adorable memory.

Image 4.4: The 3MP/2K wide-angle view provides extensive monitoring.

4.4. Laser Play

Some models may include a laser pointer for interactive play. Control the laser's movement via the app to engage your pet, even when you're away.

4.5. Smart Alerts & Notifications

The feeder features built-in motion detection. You will receive real-time app push notifications when your pet is active or when the food level is low.

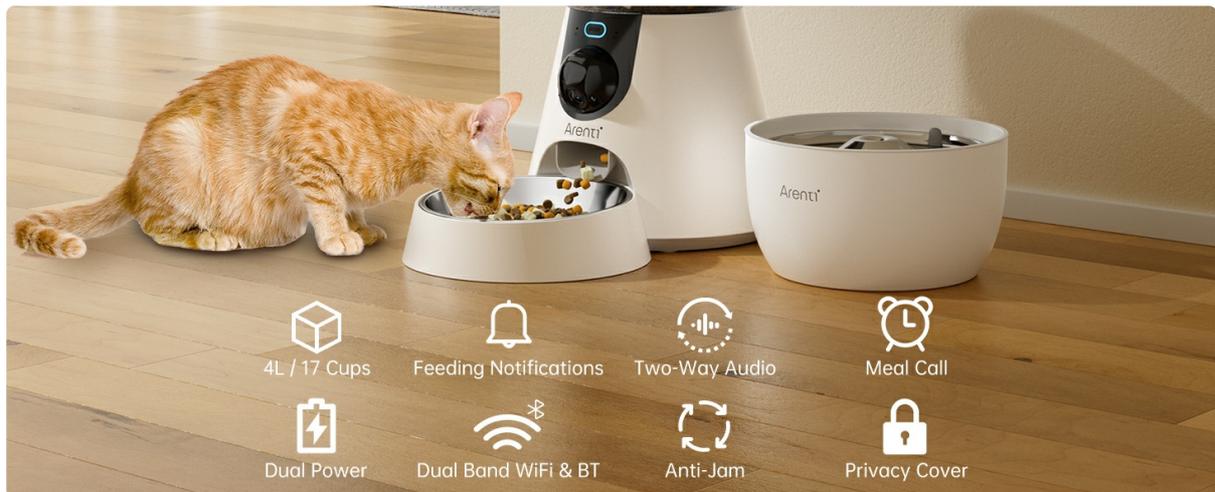

Image 4.5: Intelligent Capture feature auto-detects and records pet motion.

4.6. Dual Power / Battery Backup

The feeder operates on AC power for full functionality. In case of a power outage, the optional D-cell batteries (not included) provide up to 6 days of low-power feeding, ensuring your pet is fed even without electricity. App control, live view, and Wi-Fi features require AC power and network connection.

Video 4.6: Demonstrates scheduled feeding with battery backup during a power outage.

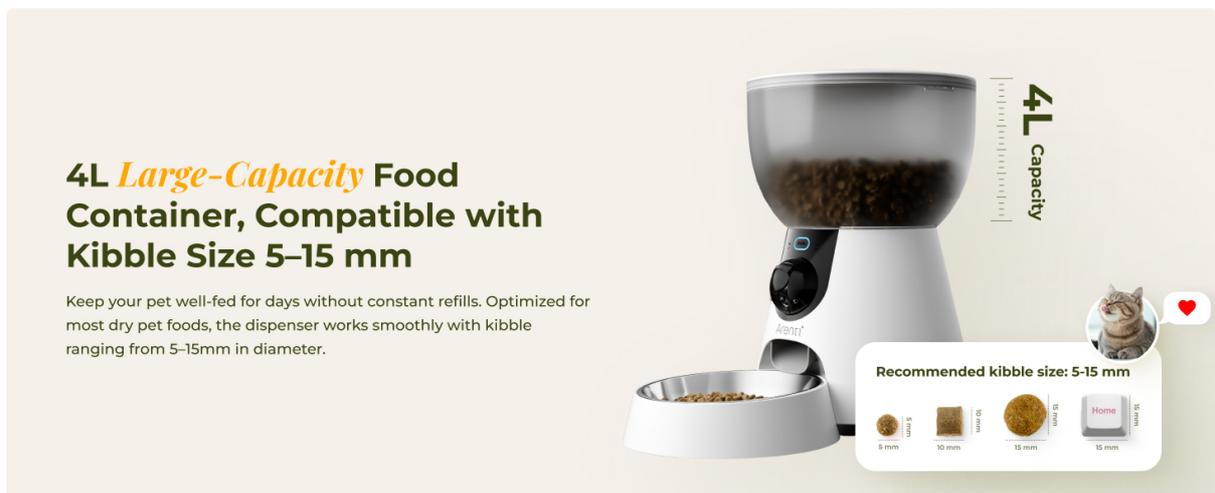

Image 4.7: Power Outage Feeding Protection with optional battery backup.

4.7. Wi-Fi Connectivity

The feeder supports both 2.4 GHz and 5 GHz Wi-Fi for reliable and smooth monitoring. Ensure your device is connected to the internet for full app functionality.

Image 4.8: The feeder supports both 2.4 GHz and 5 GHz Wi-Fi networks.

4.8. Camera Privacy Cover

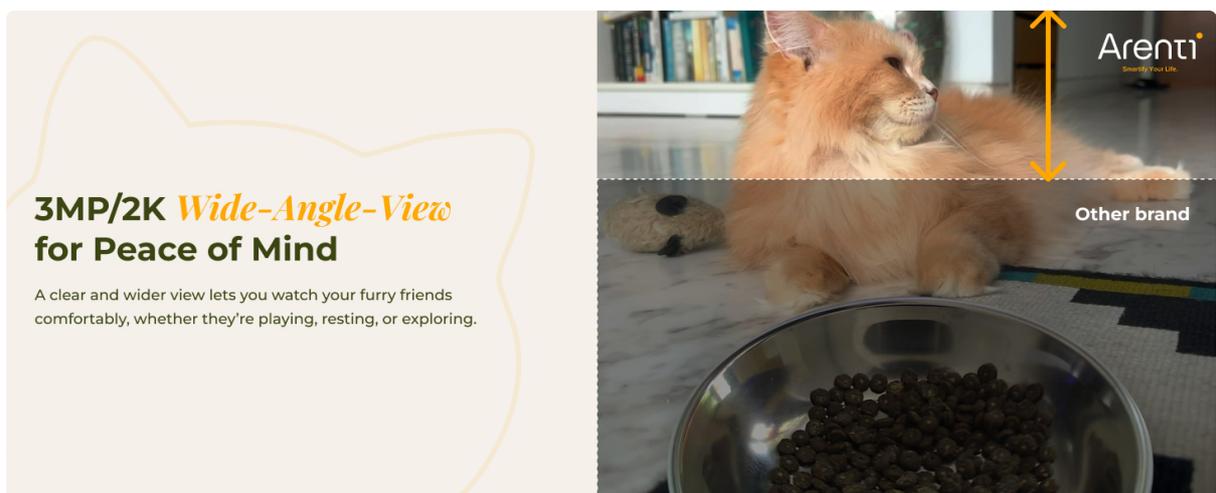

The camera features a manually operated privacy cover, allowing you to close the lens for privacy when needed.

Image 4.9: Manually operated camera privacy cover for enhanced privacy.

4.9. Anti-Jam Design

The feeder incorporates a Smart Anti-Jam Design with reverse rotation technology. This prevents food from getting stuck, ensuring smooth and consistent feeding.

5. MAINTENANCE

Regular cleaning is essential to ensure the hygiene and proper functioning of your pet feeder and water fountain.

- **Detachable Components:** The food bowl, stainless steel bowl, water fountain components, and food hopper are designed to be easily detachable for cleaning.
- **Cleaning Instructions:** Hand wash all detachable components with mild soap and water. Rinse thoroughly.
- **Main Unit:** The main unit of the feeder is not washable. Wipe it clean with a damp cloth.
- **Desiccant Bag:** Replace the desiccant bag monthly to keep dry food fresh and prevent moisture. Update the desiccant status in the app.

6. TROUBLESHOOTING

If you encounter any issues with your ARENTI Smart Automatic Cat Feeder and Water Fountain, refer to the following common solutions:

- **Feeder Not Dispensing Food:**
 - Check if the food hopper is empty.
 - Ensure the feeder is powered on and connected to Wi-Fi.
 - Verify that the kibble size is within the recommended 5-15 mm range to prevent jams.
 - Check for any obstructions in the dispensing mechanism.
- **Water Fountain Not Flowing:**
 - Ensure the water reservoir is filled.
 - Check if the pump is properly installed and free from debris.
 - Clean the filter element regularly.
- **App Connectivity Issues:**
 - Confirm your Wi-Fi network is active and stable (supports 2.4 GHz and 5 GHz).
 - Restart your router and the feeder.
 - Ensure the app is updated to the latest version.
- **Camera Not Working:**
 - Check Wi-Fi connection.
 - Ensure the camera privacy cover is open.
 - Restart the feeder.
