## 2. SAFETY INFORMATION

Please read and understand all safety warnings and instructions before assembly and use of this product. Failure to follow these instructions can result in serious injury.

- **Maximum Load Capacity:** The maximum weight capacity for the bed is 136 kg (approximately 300 lbs). Do not exceed this limit.
- **Assembly:** Assemble the product with care. Ensure all components are correctly aligned and securely fastened.
- **Sharp Edges:** Exercise caution during assembly and use to avoid contact with potentially sharp edges.
- **Guardrails:** Ensure all guardrails are properly installed and secured to prevent falls.
- **Mattress Size:** Use only a mattress of the specified size (90 x 200 cm) to ensure proper fit and safety. The mattress thickness should not exceed the maximum recommended height to maintain guardrail effectiveness.
- **Children's Safety:** This bed is intended for children. Supervise young children to prevent accidents.
- **Ventilation:** Ensure adequate ventilation around the bed.

### 3. SETUP AND ASSEMBLY

Assembly of the Merax Loft Bed is required. Detailed step-by-step instructions and hardware are included in the product packaging. Please refer to the separate assembly manual for specific instructions, diagrams, and part identification.

#### 3.1 Pre-Assembly Checklist

- Verify all parts are present and undamaged before beginning assembly.
- Ensure you have the necessary tools (e.g., screwdriver, hammer, Allen wrench - usually provided).
- Assemble on a soft, clean surface to prevent scratching the furniture.
- It is recommended that two adults assemble this product.

#### 3.2 Key Assembly Considerations

- **Staircase Orientation:** The staircase can be assembled on either the left or right side of the bed to suit your room layout. Refer to the assembly manual for instructions on reversing the orientation.
- **Secure Fasteners:** Ensure all screws, bolts, and connectors are tightened securely. Periodically check and re-tighten fasteners to maintain stability.

## 5. MAINTENANCE

Proper care and maintenance will extend the life and appearance of your Merax Loft Bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Dusting:** Regularly dust the bed frame and storage areas with a dry, soft cloth.
- **Fastener Checks:** Periodically inspect all screws, bolts, and connections to ensure they remain tight. Retighten as necessary to maintain structural integrity.
- **Avoid Excessive Moisture:** Protect the bed from prolonged exposure to moisture or direct sunlight, which can cause warping or fading.
- **Weight Distribution:** Distribute weight evenly in storage compartments and avoid overloading drawers or shelves.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your Merax Loft Bed.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose fasteners or incorrect assembly.	Check all screws, bolts, and connections. Tighten any loose fasteners. Review the assembly manual to ensure all parts are correctly installed.
Drawers or doors do not close smoothly.	Misaligned runners/hinges or obstruction.	Ensure drawers are not overloaded. Check that runners and hinges are properly aligned and free of debris. Adjust as per assembly manual if necessary.

Problem	Possible Cause	Solution
Missing or damaged parts during assembly.	Packaging error or transit damage.	Contact Merax customer support immediately with your purchase details and a description of the missing/damaged parts. Do not proceed with assembly if critical parts are missing.
Squeaking noises from the bed.	Loose connections or friction between wood parts.	Tighten all fasteners. If squeaking persists, apply a small amount of furniture wax or silicone spray to contact points between wooden components (avoiding areas that bear weight directly).
