## Maintenance

- **Cleaning the Surface:** Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Mirror Care:** Clean the mirror with a glass cleaner and a lint-free cloth. Do not spray cleaner directly onto the mirror; apply it to the cloth first.
- **Electrical Components:** Ensure the vanity is unplugged before cleaning near electrical outlets or lights. Do not attempt to disassemble electrical parts.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten as needed to maintain stability.

## Troubleshooting

- **Assembly Difficulties:** If you encounter issues during assembly, such as misaligned parts or difficulty fitting components, double-check the part numbers against the manual's diagrams. Ensure you are using the correct hardware for each step. Sometimes, parts may appear similar but have subtle differences (e.g., left vs. right drawer sides).
- **LED Lights Not Working:** Check if the vanity's main power cord is securely plugged into a working wall outlet. Ensure all light connections are firm. If individual bulbs are replaceable, check if any need replacement (refer to the specific assembly manual for bulb type).
- **Power Outlet/USB Ports Not Functioning:** Verify the main power cord is plugged in. Test the wall outlet with another device to ensure it is functional. If the issue persists, ensure all internal wiring connections for the power unit are secure (only if accessible and safe to check per manual).
- **Wobbly Desk/Stool:** Ensure all screws and bolts are fully tightened. If the floor is uneven, use furniture pads or shims under the legs to stabilize.
