› SpringFlower Christmas Tree Building Block Set with Rotating Music Box (Model SZ-25XM-BuildingTree-G) - Instruction Manual

## SpringFlower SZ-25XM-BuildingTree-G

# SpringFlower Christmas Tree Building Block Set

MODEL: SZ-25XM-BUILDINGTREE-G

## Introduction

Thank you for choosing the SpringFlower Christmas Tree Building Block Set. This set provides a fun and engaging building experience, culminating in a beautiful, rotating musical Christmas tree decoration. With 594 pieces, it offers a rewarding challenge for builders aged 6 and up. Please read these instructions carefully before beginning assembly to ensure a smooth and enjoyable process.

## Setup and Assembly

**1. Unboxing:** Carefully open the product packaging. The set includes 594 building block pieces, organized into numbered bags, along with an instruction manual. Ensure all components are present before starting.

**2. Following Instructions:** Refer to the included step-by-step instruction manual. The pieces are typically grouped in bags corresponding to different stages of the build, making the process more manageable.

Image: A child carefully placing building blocks to construct the Christmas tree.

**3. Base Assembly:** Begin by assembling the music box base. This forms the foundation for the rotating Christmas tree structure.

**4. Tree Construction:** Proceed with building the inner and outer layers of the Christmas tree, attaching decorative elements such as bells, gifts, and a small train that circles the base.

**5. Final Touches:** Once the tree structure is complete, attach the star topper to the peak of the tree. For a visual guide on the assembly process, please watch the following video:

## Operating Instructions

The SpringFlower Christmas Tree features a rotating base and plays Christmas music.

**1. Activating Music and Rotation:** Locate the winding key on the side of the music box base. Gently turn the key clockwise to wind the mechanism. The tree will begin to rotate, and the music will play automatically.

Image: A detailed view of the Christmas tree's rotating base, highlighting the music box mechanism and overall dimensions.

**2. Stopping Operation:** The music and rotation will gradually slow down and stop as the mechanism unwinds. To stop it sooner, you may gently hold the rotating part, though it is designed to run its course.

## Maintenance

To ensure the longevity and appearance of your Christmas tree building block set, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently dust the assembled tree. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture, especially near the music box mechanism.
- **Storage:** When not in use, store the set in a cool, dry place away from direct sunlight and extreme temperatures. Keeping it in its original box or a sealed container can prevent dust accumulation and loss of pieces.
- **Handling:** Handle the assembled tree with care to prevent pieces from detaching. Avoid dropping or applying excessive force.

## Troubleshooting

If you encounter any issues with your SpringFlower Christmas Tree Building Block Set, please consider the following:

- **Pieces Not Fitting:** Ensure you are using the correct pieces as indicated in the instruction manual. Sometimes, a slight adjustment or firm press is needed to secure blocks.
- **Music Box Not Playing/Rotating:** Check if the winding key has been fully turned. If the mechanism feels stuck or does not respond, do not force it.
- **Missing Pieces:** Double-check all packaging and work area. If a piece is genuinely missing, please contact customer support.

For further assistance, refer to the Customer Support section below.

## Specifications

Feature	Detail
Brand Name	SpringFlower
Model Number	SZ-25XM-BuildingTree-G
Number of Pieces	594
Assembled Dimensions	12 x 7 x 7 inches
Material Type	Plastic
Color	Green
Recommended Age	6+ years
Educational Objective	Construction Skills, Creative Thinking, Problem Solving Skills
Additional Features	Non-Toxic, Rotating Music Box
Assembly Required	Yes
Operation Mode	Automatic (for music and rotation)
