HolaiNail Electric Massage Table US860601 Instruction Manual

Model: US860601 | Brand: HolaiNail

Introduction

This manual provides detailed instructions for the safe and efficient use of your HolaiNail Electric Massage Table, Model US860601. Please read this manual thoroughly before assembly and operation to ensure proper function and longevity of the product. Keep this manual for future reference.

Safety Information

WARNING:

- Do not exceed the maximum weight capacity of 250kg (550 lbs).
- To clean, use a damp cloth and avoid harsh chemicals.
- Keep away from heat sources and sharp objects to prevent damage to the chair.
- Ensure all electrical connections are secure and follow local electrical safety guidelines.
- Do not operate the table if any part is damaged or malfunctioning. Contact customer support immediately.

Package Contents

Verify that all components are present before beginning assembly:

- Box 1: Top Cushion Assembly (includes main bed cushion, headrest, and armrests)
- Box 2: Electric Frame Assembly (includes base, motor, and control mechanisms)
- Hand Remote Control
- Power Cord
- Instruction Manual (this document)

Setup Instructions

Follow these steps to assemble your electric massage table:

1. **Unpack Components:** Carefully remove all parts from both boxes. Place them on a clean, flat, and stable surface. Retain all packaging materials until assembly is complete and the unit is tested.
2. **Attach Top Cushion to Frame:** Align the mounting points on the underside of the top cushion with the corresponding points on the electric frame. Securely fasten the cushion to the frame using the provided hardware. Ensure the connection is stable and tight. The base features a button for easy directional installation, allowing the top cushion to be oriented as needed.
3. **Install Headrest and Armrests:** Insert the detachable headrest into the designated slot at the top of the cushion. Attach the removable armrests to the sides of the cushion. These components are designed for tool-free removal and installation.
4. **Connect Power:** Plug the power cord into the electric frame and then into a grounded electrical outlet (110V-220V).
5. **Initial Test:** Before use, perform a brief test of all functions using the hand remote and foot control to ensure proper operation.

Operating Instructions

The HolaiNail Electric Massage Table offers versatile adjustments for various treatments. It features both a hand remote control and a foot control for convenient operation.

Adjusting Height, Backrest, and Leg Rest

The table's height, backrest angle (up to 90°), and leg rest angle (up to 90°) can be adjusted using the controls.

- **Hand Remote Control:** Use the buttons on the wired hand remote to precisely adjust each section. The remote is connected via a coiled cable, allowing for flexible positioning.
- **Foot Control:** The base of the table features foot-operated buttons for hands-free adjustment of the leg rest, backrest, and height. Press the "Up" or "Down" buttons for the desired section.

Maintenance

Proper maintenance ensures the longevity and hygiene of your HolaiNail Electric Massage Table.

- **Cleaning:** Wipe the PU leather surfaces with a damp cloth. For stubborn stains, use a mild, non-abrasive cleaner. Avoid harsh chemicals, solvents, or abrasive materials that can damage the upholstery. The material is water and oil-resistant for easy cleaning.
- **Frame Care:** Periodically inspect the metal frame for any signs of wear or damage. Keep the frame clean and dry.
- **Motor and Controls:** Ensure the motor and control mechanisms are free from dust and debris. Do not attempt to lubricate internal components unless specified by the manufacturer.

- **Storage:** When not in use for extended periods, store the table in a clean, dry environment away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter issues with your massage table, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Table does not power on.	Power cord not securely plugged in; power outlet malfunction; internal fuse blown.	Check power cord connections at both the table and the wall outlet. Test the outlet with another device. If the issue persists, contact customer support.

Problem	Possible Cause	Solution
Foot pedal or hand remote controls are unresponsive.	Control cable loose or damaged; motor malfunction; control unit issue.	Ensure the control cables are securely connected. If only one control method (e.g., foot pedal) is unresponsive while the other works, the specific control unit may be faulty. Contact customer support for diagnosis and replacement parts.
Table movement is jerky or noisy.	Obstruction in moving parts; motor issue; worn components.	Inspect for any obstructions under the table or in the moving mechanisms. Ensure the weight capacity is not exceeded. If the problem continues, discontinue use and contact customer support.
LED lights are not working.	Loose connection; LED strip damage; control issue.	Check for any visible loose connections. If the table functions otherwise, the LED component may require service. Contact customer support.
