KAFF ASF 784

KAFF ASF 784 Built-In Hob Instruction Manual

Model: ASF 784

1. INTRODUCTION

This manual provides essential information for the safe and efficient installation, operation, and maintenance of your KAFF ASF 784 Built-In Hob. Please read these instructions carefully before using the appliance and retain them for future reference.

Important Safety Information

- Ensure the appliance is installed by a qualified technician in accordance with local regulations.
- Do not store flammable materials near the hob.
- Always supervise cooking and never leave the hob unattended when in use.
- Keep children away from the appliance during operation.
- In case of a gas leak, turn off the gas supply immediately, ventilate the area, and do not operate any electrical switches.
- Use only stable cookware appropriate for the burner size.

2. PRODUCT OVERVIEW

The KAFF ASF 784 is a 4-burner built-in gas hob designed for modern kitchens. It features a black tempered glass top, brass burners, and integrated safety features.

Key Components and Features:

- **Tempered Glass Top:** Durable and easy to clean black tempered glass surface.
- **Brass Burners:** Four high-efficiency brass burners for optimal heat distribution and durability.
- **Heavy Duty Cast Iron Pan Supports:** Provides stable support for various cookware sizes.
- **Metal Control Knobs:** Ergonomically designed for precise flame adjustment.
- **Auto Electric Ignition:** Integrated ignition system for convenient startup.
- **Flame Failure Safety Device (FFD):** Automatically cuts off gas supply if the flame extinguishes, enhancing safety.

3. SETUP AND INSTALLATION

3.1. What's in the Box

Upon unpacking, ensure all components are present and undamaged:

- KAFF ASF 784 Gas Hob Unit
- User Manual (this document)
- Installation Kit
- Warranty Card

3.2. Installation Requirements

The KAFF ASF 784 is a drop-in type built-in hob. Professional installation is highly recommended to ensure proper gas connection and safe operation.

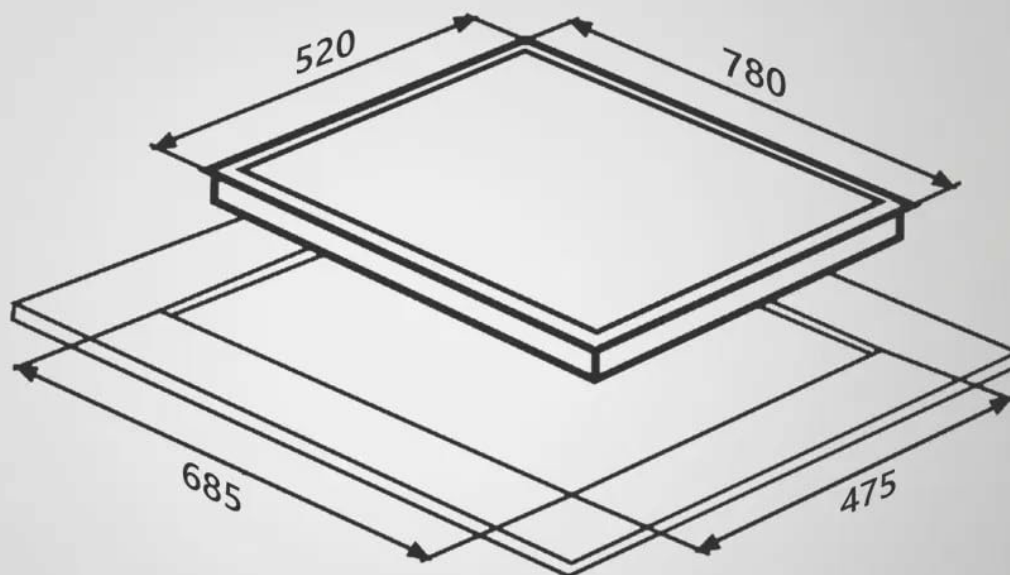

- **Power Source:** Gas Powered (Unspecified Gas).
- **Voltage:** 220 Volts (for auto-ignition).
- **Ventilation:** Ensure adequate ventilation in the kitchen area.

3.3. Product Dimensions and Cutting Size

Refer to the diagrams below for precise measurements required for countertop cutting.

Image 3.1: Overall dimensions of the hob unit. Width: 780 mm, Depth: 520 mm.

Product Dimensions

Inner Cutting Size: 685 x 475 mm (L x D)

Outer Size: 780 x 520 mm (L x D)

Image 3.2: Required inner cutting size for countertop installation. Length: 685 mm, Depth: 475 mm.

- **Item Dimensions (D x W x H):** 52D x 75W x 5.5H Centimeters
- **Inner Cutting Size (L x D):** 685 mm x 475 mm
- **Outer Size (L x D):** 780 mm x 520 mm

4. OPERATING INSTRUCTIONS

4.1. Using the Burners

1. Ensure the gas supply to the hob is open.
2. Place your cookware centrally on the pan support over the desired burner.
3. Push down and turn the corresponding control knob counter-clockwise to the "High" flame position. The auto-electric ignition will spark, igniting the gas.
4. Hold the knob down for a few seconds after ignition to allow the flame failure device to activate. Release the knob; the flame should remain lit.

- 5. Adjust the flame intensity by turning the knob between the "High" and "Low" positions.
- 6. To turn off the burner, turn the control knob clockwise to the "Off" position.

4.2. Flame Failure Safety Device (FFD)

The FFD is a safety feature that automatically cuts off the gas supply to a burner if its flame accidentally extinguishes (e.g., due to a draft or liquid spillage). This prevents unburnt gas from accumulating. If a flame goes out, the FFD will activate within a few seconds. To re-ignite, wait for a moment, then repeat the ignition process.

5. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your hob.

5.1. General Cleaning

- Always ensure the hob is cool and the gas supply is turned off before cleaning.
- Use a soft cloth and mild detergent for the tempered glass surface. Avoid abrasive cleaners or scouring pads.
- For stubborn stains, use a specialized glass hob cleaner.

5.2. Burners and Pan Supports

- Remove the pan supports and burner caps/crowns when cool.
- Wash them with warm soapy water. For heavy grease, a degreaser may be used.
- Ensure all parts are completely dry before reassembling them. Blocked burner holes can affect flame quality.
- Periodically check the ignition pins and FFD sensors for any food residue and clean gently with a soft brush if necessary.

6. TROUBLESHOOTING

If you encounter issues with your hob, refer to the following common troubleshooting steps before contacting customer service.

Problem	Possible Cause	Solution
Burner does not ignite.	No gas supply, ignition pin dirty, power outage (for auto-ignition), burner parts incorrectly assembled.	Check gas valve. Clean ignition pin. Check power supply. Reassemble burner parts correctly.
Flame goes out after releasing knob.	Flame Failure Device (FFD) not activated, FFD sensor dirty.	Hold knob down longer (3-5 seconds) after ignition. Clean FFD sensor.
Uneven or yellow flame.	Burner holes blocked, incorrect gas pressure.	Clean burner holes. Contact a qualified technician to check gas pressure.

7. SPECIFICATIONS

Feature	Detail
Brand	KAFF
Model Number	ASF 784

Feature	Detail
Heating Elements	4 Burners
Colour	Black
Power Source	Gas Powered
Fuel Type	Unspecified Gas
Special Features	Automatic Ignition, Flame Failure Safety Device, Heavy Duty Brass Burners, Toughened Glass Top
Burner Type	Gas
Control Type	Knob
Installation Type	Drop-In
Voltage	220 Volts
Smart Home Compatibility	Not Smart Home Compatible
Item Dimensions (D x W x H)	52D x 75W x 5.5H Centimeters
Item Weight	8.5 Kilograms
Heater Surface Material Type	Tempered Glass
Material Type	Stainless Steel, Tempered Glass

8. WARRANTY INFORMATION

Your KAFF ASF 784 Built-In Hob comes with the following warranty:

- **Burners:** 5 Years warranty
- **Comprehensive Warranty:** 2 Years

Please refer to the included Warranty Card for detailed terms and conditions.
