3. SETUP AND ASSEMBLY INSTRUCTIONS

Your SERWALL patio furniture set is designed for quick and straightforward assembly. Most pieces are 80% pre-assembled, and all necessary tools are included. Each piece can typically be assembled by one person in under 20 minutes.

General Assembly Tips:

- Unpack all components and verify against the parts list.
- Lay out all hardware (screws, washers) for easy access.
- Do not fully tighten screws until all components are loosely assembled. This allows for minor adjustments.
- Use the provided hex wrench. An electric drill with a hex head can expedite the process, but exercise caution to avoid overtightening.

Assembly Steps for Individual Components:

The following diagrams illustrate the assembly process for each type of furniture piece:

4. OPERATING INSTRUCTIONS (USAGE)

The modular design of your SERWALL patio furniture set allows for versatile arrangements to suit various outdoor spaces and occasions.

Modular Configuration:

Each seating unit is independent, enabling you to rearrange them into different layouts such as a straight sofa, L-shaped sectional, U-shaped configuration, or individual seating areas. Experiment with different arrangements to find the best fit for your deck, lawn, or patio.

Cushion Use:

The high-density foam cushions provide comfort and support. Place them on the seating units as desired. For prolonged periods of non-use or during inclement weather, it is recommended to store cushions indoors to maintain their condition.

5. MAINTENANCE

Proper care will ensure the longevity and appearance of your SERWALL patio furniture set.

Frame Maintenance:

- The HDPE frame and stainless steel hardware are designed for all-weather durability and low maintenance.
- Clean the frame periodically with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners.
- Rinse thoroughly with water after cleaning.
- The material is resistant to fading, cracking, and corrosion, but regular cleaning helps maintain its aesthetic.

Cushion Maintenance:

- The cushion covers are made from breathable fabric and are fully removable for easy cleaning.
- Unzip and remove the covers for washing. Follow the care instructions on the cushion label. Typically, machine wash cold on a gentle cycle and air dry.
- Do not bleach or iron the cushion covers.
- Ensure cushions are completely dry before storing or placing back on the furniture to prevent mildew.

6. TROUBLESHOOTING

If you encounter any issues with your furniture set, please refer to the following common solutions:

Missing Parts:

- Carefully check all packaging materials. Small parts may be tucked into crevices or wrapped separately.
- Refer to the parts list in your assembly guide to confirm all components are present.
- If parts are genuinely missing, contact SERWALL customer support for assistance.

Assembly Difficulties:

- Ensure all screws are only hand-tightened initially. This allows for flexibility to align holes.

- Once all components are in place, gradually tighten all screws evenly.
- If a hole does not align, slightly loosen adjacent screws and gently adjust the position of the components.

Stability Issues:

- Verify that all screws are fully tightened.
- Ensure the furniture is placed on a flat, level surface. Uneven surfaces can cause wobbling.
