1. INTRODUCTION

Thank you for choosing the Homary 70.8" Whirlpool Bathtub. This manual provides essential information for the safe installation, operation, and maintenance of your new bathtub. Please read this manual thoroughly before installation and use, and retain it for future reference. Proper installation and care will ensure optimal performance and longevity of your product.

2. IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of injury, do not permit children to use this product unless they are closely supervised at all times. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- **Electrical Safety:** All electrical connections must be performed by a qualified electrician in accordance with local and national electrical codes. Ensure the bathtub is connected to a dedicated, grounded circuit protected by a Ground Fault Circuit Interrupter (GFCI). Do not use extension cords.
- **Water Temperature:** The built-in thermostat maintains water temperature. Always test the water temperature before entering the bathtub to avoid scalding. Prolonged immersion in hot water may cause hyperthermia.
- **Chemicals:** Use only recommended cleaning agents. Avoid abrasive cleaners or harsh chemicals that can damage the acrylic surface or internal components.
- **Installation:** Professional installation is highly recommended. Ensure the floor can support the weight of the filled bathtub and occupants.
- **Supervision:** Never leave children or individuals with limited physical capabilities unattended in or near the bathtub.
- **Medical Conditions:** Consult a physician before use if you have any medical conditions, including but not limited to heart disease, high blood pressure, diabetes, or pregnancy.

3. PRODUCT FEATURES

The Homary 70.8" Whirlpool Bathtub is designed to provide a luxurious and relaxing bathing experience with advanced features:

- **Thermostatic Water Temperature Control:** A built-in thermostat maintains a consistent water temperature, eliminating the need for frequent adjustments and ensuring a comfortable soak.
- **Smart Water Level Sensing Technology:** Advanced sensors automatically detect the water level, ensuring safe operation and preventing overfilling.
- **Soothing Hydro Surf Bubbles:** Integrated air bubble jets deliver gentle, full-body hydrotherapy to help relieve muscle tension and improve circulation.
- **Relaxing Waterfall Feature:** A wide, smooth waterfall spout creates a tranquil ambiance and enhances the aesthetic appeal of the bathtub.
- **Contemporary Acrylic Design for Two:** Crafted from high-quality acrylic, this two-person bathtub features sleek curves, ergonomic depth, and lumbar support for enhanced comfort.
- **Chromatherapy LED Lighting:** Integrated LED lights offer chromatherapy, allowing you to choose various colors to create a desired mood and enhance relaxation.

4. SETUP & INSTALLATION

Installation of the Homary Whirlpool Bathtub requires professional plumbing and electrical expertise. Incorrect installation can lead to product damage, personal injury, or void the warranty. Always consult a licensed professional.

4.1 Pre-Installation Checklist

- Verify all components are present and undamaged.
- Ensure the installation area is level and structurally sound to support the bathtub's weight when filled with water and occupants.
- Confirm access to appropriate hot and cold water supply lines.
- Ensure a properly grounded electrical outlet (GFCI protected) is available within reach of the bathtub's power cord, as per local codes.
- Confirm adequate drainage is available.

4.2 Installation Steps (Overview)

1. **Positioning:** Carefully move the bathtub to its desired location. Ensure sufficient clearance for maintenance and access.
2. **Leveling:** Adjust the bathtub's feet to ensure it is perfectly level.
3. **Plumbing Connections:** Connect the hot and cold water supply lines to the bathtub's inlets. Connect the drain assembly to your home's drainage system. Ensure all connections are watertight.
4. **Electrical Connections:** A qualified electrician must connect the bathtub's power supply to a dedicated, GFCI-protected circuit.
5. **Water Test:** Fill the bathtub with water and check for any leaks in the plumbing connections. Test all functions (jets, thermostat, lights, waterfall) to ensure proper operation.
6. **Sealing:** Apply a waterproof sealant around the edges of the bathtub where it meets the wall or floor, if applicable, to prevent water damage.

5. OPERATING INSTRUCTIONS

Familiarize yourself with the control panel before operating the bathtub.

5.1 Control Panel Functions

The control panel typically includes buttons for power, jet activation, temperature adjustment, chromatherapy lighting, and the waterfall feature. Refer to the specific icons on your control panel for exact functions.

- **Power On/Off:** Press the power button to turn the bathtub system on or off.
- **Filling the Bathtub:** Open the water faucets to fill the bathtub. The smart water level sensor will prevent overfilling.
- **Thermostat Control:** Use the temperature adjustment buttons (e.g., '+' and '-') to set your desired water temperature. The system will maintain this temperature automatically.
- **Hydro Jets:** Press the jet button to activate the hydrotherapy air bubbles. Press again to turn off.
- **Chromatherapy LED:** Press the light button to cycle through different LED colors or modes.
- **Waterfall:** Press the waterfall button to activate or deactivate the waterfall spout.

5.2 General Operation Tips

- Always ensure the water level is above the jets before activating them to prevent damage to the pump.
- Do not operate the jets or heater if the bathtub is empty.
- Avoid using bath oils, salts, or foaming agents that are not compatible with whirlpool systems, as they can clog jets or damage components.

6. MAINTENANCE

Regular cleaning and maintenance will keep your Homary Whirlpool Bathtub in excellent condition.

6.1 Cleaning the Bathtub Surface

- Clean the acrylic surface with a soft cloth or sponge and a non-abrasive, mild bathroom cleaner.
- Rinse thoroughly with clean water after cleaning.
- Avoid using abrasive pads, harsh chemicals, or solvents, as these can scratch or dull the acrylic finish.

6.2 Cleaning the Jet System

- Periodically fill the bathtub with warm water above the jets.
- Add a small amount of whirlpool system cleaner or a few tablespoons of white vinegar.

- Run the jets for 10-15 minutes.
- Drain the bathtub and refill with clean water. Run the jets again for a few minutes to rinse the system.

6.3 Drain Cleaning

- Regularly remove and clean the drain stopper to prevent hair and debris buildup.
- Use a drain cleaner specifically designed for bathtubs if clogs occur, following the product instructions carefully.
