## 5. MAINTENANCE AND CARE

---

Proper care will extend the life and appearance of your sofa bed.

- **Regular Cleaning:** Vacuum the velvet upholstery regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, as this can spread the stain and damage the velvet pile. For stubborn stains, use a mild, water-free solvent or dry-cleaning product specifically designed for velvet. Always test on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa bed away from direct sunlight or use curtains/blinds.
- **Prevent Scratches:** Be mindful of sharp objects that could snag or tear the velvet fabric.

- **Mechanism Care:** Periodically check the pull-out mechanism for smooth operation. Keep the area around the rollers clear of obstructions.

## 6. TROUBLESHOOTING

If you encounter any issues with your sofa bed, please refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Sofa bed mechanism is stiff or difficult to pull out.	Obstruction in the mechanism; rollers need lubrication; components misaligned.	Check for any objects blocking the rollers. Clean any debris. Apply a silicone-based lubricant to the moving parts if necessary. Ensure the sofa is on a level surface.
Backrest does not lock into position.	Mechanism not fully engaged; debris in the locking mechanism.	Push the backrest fully forward until it clicks, then recline to the desired position. Check for any foreign objects in the locking mechanism.
Sofa feels unstable or wobbly.	Loose connections; uneven floor.	Verify all assembly bolts and screws are tightened. Ensure the sofa is placed on a flat, even surface. Adjust leg levelers if applicable.
Fabric appears matted or crushed.	Velvet pile has been compressed.	Gently brush the affected area with a soft-bristled brush or a damp cloth to lift the pile. Avoid excessive moisture.

If these steps do not resolve the issue, please contact customer support.
