Key Components:

- **Handle:** Foldable for portability and smooth grinding.
- **Hopper:** For loading coffee beans. Features an XL funnel design for easy dosing.
- **Adjustment Dial:** Numbered dial for precise grind size selection.
- **S2C-042-III Conical Burrs:** High-precision stainless steel burrs for efficient and uniform grinding.
- **Catch Cup:** Collects ground coffee.
- **Anti-Slip Silicone Base:** Provides stability during grinding and reduces noise.

WHAT IS THE DIFFERENCE BETWEEN THE C5 ESP PRO AND THE C3 ESP PRO?

C3 Esp Pro Classic Stepped Dial

Delivers 0.0233 mm per click, giving home brewers access to espresso grind precision at an approachable price point.

C5 Esp Pro Numbered Stepped Dial

Tightens and refines the thread pitch, achieving 0.015 mm per click, our finest yet, with 36 clicks in a single rotation for ultimate control.

Note: A minor deviation (+2 clicks) when returning to zero is normal.

SETUP

- Unpack:** Carefully remove all components from the packaging.
- Inspect:** Check for any damage or missing parts.
- Initial Cleaning:** Before first use, it is recommended to clean the burrs and catch cup with the provided brush to remove any manufacturing residue.
- Assemble Handle:** Attach the foldable handle to the top shaft of the grinder. Ensure it is securely in place.

SLIM, TEXTURED BODY

A refined, grooved engraving and compact 53 mm body offer a confident, effortless grip.

OPERATING INSTRUCTIONS

1. Adjusting Grind Size:

The C5 ESP Pro offers precise grind adjustment with 0.015mm per click. The adjustment dial is located at the top of the grinder, beneath the handle.

- To adjust, remove the handle.
- Rotate the numbered dial clockwise for finer grinds and counter-clockwise for coarser grinds.
- Each click represents a precise adjustment.

Recommended Grind Settings (C5 ESP Pro):

Brew Method	Recommended Clicks (Circles)
Espresso / Moka	0.50-1.20 Circles
Pour-over	1.50-2.00 Circles
French Press	2.00-2.40 Circles

Note: These are starting recommendations. Fine-tune based on your preference and specific coffee beans. A minor deviation (+2 clicks) when returning to zero is normal.

2. Loading Coffee Beans:

1. Ensure the handle is removed.
2. Pour your desired amount of whole coffee beans into the hopper at the top. The grinder has a maximum capacity of 25g.
3. Replace the handle.

XL FUNNEL DESIGN

A flared opening and slightly taller body make it easier than ever to dose coffee.

MAINTENANCE

Regular cleaning ensures optimal performance and longevity of your grinder.

Cleaning:

1. **Disassembly:** The grinder features a drop-out burr design for easy cleaning. Unscrew the catch cup and remove the handle. The internal burr assembly can be carefully detached.
2. **Brush Cleaning:** Use a dry brush (a cleaning brush is typically included) to remove any residual coffee grounds from the burrs, shaft, and catch cup.
3. **Reassembly:** Reassemble the burr components, attach the catch cup, and then the handle.

DO NOT wash the grinder with water. Clean only with a dry brush after use.

TROUBLESHOOTING

- **Grinder feels stiff or difficult to turn:** Check for large foreign objects among the beans. Ensure the grind setting is not too fine for the beans being used. Clean any accumulated coffee residue from the burrs.
- **Inconsistent grind:** Ensure the burr assembly is properly seated and tightened. Clean the burrs thoroughly.
- **Static buildup:** A common issue with grinders. Lightly misting the beans with water before grinding can help reduce static.
