- **Cushions:** The Acrylic Fabric covers are designed to resist fading and moisture. For deeper cleaning, the covers are removable and can be hand-washed or machine-washed on a gentle cycle with cold water. Air dry only.
- **Frame:** The rust-resistant aluminum frame is hand-brushed for texture. Inspect the frame periodically for any signs of wear or damage.

- **Storage:** During prolonged periods of non-use or severe weather, it is recommended to cover the furniture or store it indoors to protect it from the elements.

## Troubleshooting

If you encounter any issues with your furniture set, please refer to the following common solutions:

- **Wobbly Chair/Table:** Ensure all screws are securely tightened. For the side table, adjust the height-adjustable feet to stabilize it on uneven surfaces.
- **Stiff Swivel:** Check for any obstructions around the swivel base. Ensure the chair is placed on a level surface.

- **Cushion Discoloration:** While cushions are fade-resistant, prolonged direct sunlight can still affect them over time. Rotate cushions regularly or use covers when not in use.

If the problem persists, please contact SEEHILL customer support for further assistance.
