

## Asyko 8511-Brown-6Blade

# Asyko 46-inch Low Profile Ceiling Fan with Light and Remote Control Instruction Manual

Model: 8511-Brown-6Blade

## 1. PRODUCT OVERVIEW

---

The Asyko 46-inch Low Profile Ceiling Fan with Light is designed for optimal air circulation and illumination in various indoor spaces such as bedrooms, living rooms, and dining areas. This fan features a quiet DC motor, reversible blades for year-round use, dimmable LED lighting with adjustable color temperature, and convenient remote control operation.

- **Size:** 46 inches
- **Blade Count:** 6 blades
- **Motor:** Reversible DC motor for summer cooling and winter air circulation.
- **Lighting:** Dimmable LED light (10%-100%) with 3 color temperatures (3000K Warm White, 4000K Natural White, 6000K Cold White).
- **Control:** Remote control with 6 fan speeds, light control, and 1/2 hour timer function.
- **Memory Function:** Retains preferred brightness and color temperature settings.
- **Noise Level:** Designed for a noiseless experience.

## 2. SAFETY INSTRUCTIONS

---

Please read and understand all instructions before beginning installation. Failure to follow these instructions could result in electric shock, fire, or personal injury.

- **Electrical Safety:** Disconnect power at the main circuit breaker or fuse box before installation or servicing. Ensure all electrical connections comply with local codes and ordinances.
- **Mounting:** The ceiling fan must be mounted to a structurally sound ceiling joist or an outlet box marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less."
- **Blade Clearance:** Ensure there is adequate clearance from the fan blades to any walls or obstructions.
- **Wiring:** If you are unfamiliar with electrical wiring, consult a qualified electrician.
- **Dimmer Switches:** Do not use this fan with any dimmer switch other than the provided remote

control.

- **Cleaning:** Clean the fan with a soft, damp cloth. Do not use abrasive cleaners.

### 3. SETUP AND INSTALLATION

---

This section guides you through the assembly and installation of your Asyko ceiling fan. For visual assistance, please refer to the installation video provided below.

#### 3.1 Unboxing and Component Identification

Carefully unpack all components and ensure all parts are present before beginning. The package includes the fan motor assembly, fan blades, remote control, mounting bracket, downrods (short and long), LED light kit, and hardware.

Image: All components of the Asyko 46-inch Low Profile Ceiling Fan laid out for assembly.

#### 3.2 Mounting Bracket Installation

Attach the mounting bracket to your ceiling's electrical box. Ensure the electrical box is rated for fan support. If your ceiling does not have a suitable electrical box, consult a qualified electrician for proper installation.

#### 3.3 Downrod Assembly

Select the appropriate downrod length for your ceiling height. The fan comes with both a short and a long downrod. Feed the electrical wires from the fan motor through the chosen downrod. Secure the downrod to the fan motor assembly using the provided pin and cotter pin.

### 3.4 Fan Blade Attachment

The fan blades are reversible, offering two color options (e.g., brown wood grain and black). Choose your preferred side. Slide each fan blade into the designated slots on the fan motor assembly and secure them with the provided screws and washers. Ensure all screws are tightened securely.

Image: Illustration of the reversible fan blades for summer (forward rotation) and winter (reverse rotation) air circulation.

### 3.5 Electrical Connections

Connect the fan's electrical wires to the household wiring according to the wiring diagram in the owner's manual. Ensure the ground wire is properly connected. The remote control receiver will be integrated into the wiring. Once connections are made, carefully tuck the wires into the ceiling electrical box.

### 3.6 LED Light Kit and Light Cover Installation

Connect the LED light kit wires to the corresponding wires from the fan motor. The LED light kit is magnetic for easy attachment to the fan body. Once the LED is in place, attach the plastic light cover by aligning it with the fan body and rotating it until it is securely fixed.

6 Blades

22W LED Light

Quiet DC Motor

## Ceiling Fan with Lights

Reduces electricity costs by **80%** compared to conventional AC motors.

## 4. OPERATING INSTRUCTIONS

Your Asyko ceiling fan is operated using the included remote control. Ensure batteries are installed correctly in the remote.

### 4.1 Remote Control Functions

The remote control allows you to manage all fan and light functions:

# Noiseless Experience

Super quiet-only wind, no sound

Image: Overview of the remote control with labeled functions for fan speed, light color, timing, power, and color temperature adjustment.

- **Power On/Off:** Press the 'ON/OFF' button to turn the fan and light on or off.
- **Fan Speed:** Select from 6 adjustable fan speeds (1-6) to control airflow.
- **Light Control:** Turn the light on/off independently from the fan.
- **Color Temperature:** Adjust the light color temperature between 3000K (warm white), 4000K (natural white), and 6000K (cold white).
- **Brightness Adjustment:** Dim the light from 10% to 100% brightness.
- **Timer Function:** Set the fan to turn off automatically after 1 or 2 hours.
- **Reversible Motor:** Use the F/R button to switch between summer (forward rotation for cooling) and winter (reverse rotation for air circulation) modes.

## 4.2 Memory Function

The fan features a memory function. If the lights are turned off for at least 10 seconds, they will retain the last brightness and color temperature settings when turned back on. The fan will also resume its last operating speed.

## Customizable Light

Select different light settings for different scenarios

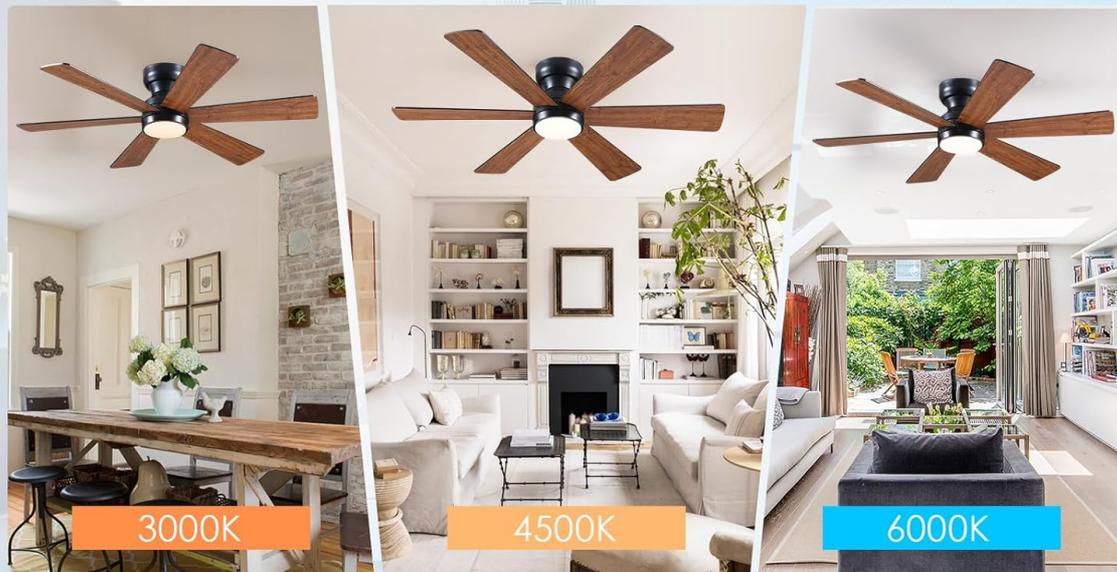

Image: Visual representation of the customizable light feature, allowing selection of color temperature and brightness levels.

## 5. MAINTENANCE

---

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, lint-free cloth to prevent dust buildup. Do not use water directly on the fan.
- **Tightening Screws:** Check all screws and fasteners annually to ensure they are secure. Loose connections can cause noise or wobbling.
- **Lubrication:** The fan's DC motor is permanently lubricated and does not require additional oiling.

## 6. TROUBLESHOOTING

---

If you experience issues with your fan, refer to the following common problems and solutions:

- **Fan Does Not Start:**

- Check that the power is supplied to the fan.
- Ensure all wire connections are secure.
- Verify remote control batteries are functional and correctly inserted.

- **Fan is Noisy:**

- Check that all motor housing screws are tight.
- Ensure fan blade screws are securely fastened.
- Verify the mounting bracket is properly installed and tightened to the ceiling electrical box.

- **Light Does Not Work:**

- Check the electrical connections to the LED light kit.
- Ensure the remote control batteries are working.

- **Remote Control Not Responding:**

- Replace the remote control batteries.
- Ensure there are no obstructions between the remote and the fan receiver.

## 7. SPECIFICATIONS

Feature	Detail
Brand	Asyko
Model Name	Ceiling Fans with Lights
Item Model Number	8511-Brown-6Blade
Color	Brown-46in-6Blade
Electric Fan Design	Ceiling Fan
Power Source	DC
Style	Modern
Product Dimensions	6"D x 46"W x 6"H
Room Type	Bedroom, Living Room
Special Feature	Remote Controlled
Recommended Uses	Cooling
Wattage	65 watts
Finish Type	Walnut
Number of Blades	6
Item Weight	8 Pounds

Included Components	Light Kit
Indoor/Outdoor Usage	Indoor
Control Method	Remote
Number of Power Levels	6
Motor Type	Brushed
Installation Type	Simple Installation

## 8. WARRANTY AND SUPPORT
