

## BoxWave ClearTouch Anti-Glare ToughShield 9H

# BoxWave ClearTouch Anti-Glare ToughShield 9H Screen Protector

For Blaupunkt BP260PLAY

## 1. INTRODUCTION

This manual provides instructions for the installation, use, and maintenance of your BoxWave ClearTouch Anti-Glare ToughShield 9H Screen Protector. This product is designed to protect the screen of your Blaupunkt BP260PLAY device from scratches, impacts, and glare, while maintaining touch sensitivity and display clarity.

The ClearTouch Anti-Glare ToughShield 9H offers a high level of protection with its 9H hardness rating, similar to tempered glass but with enhanced flexibility to prevent chipping and cracking. Its anti-glare properties reduce reflections, improving screen visibility in various lighting conditions.

## 2. PACKAGE CONTENTS

Your BoxWave ClearTouch Anti-Glare ToughShield 9H package includes:

- Two (2) ClearTouch Anti-Glare ToughShield 9H Screen Protectors
- Installation accessories (e.g., cleaning cloth, dust removal sticker, squeegee card)

Image 2.1: Packaging for the ClearTouch Anti-Glare ToughShield 9H, highlighting key features such as clarity, fingerprint-free surface, precision, and reusability.

### 3. INSTALLATION GUIDE

Follow these steps carefully for optimal installation of your screen protector:

1. **Prepare Your Workspace:** Ensure you are in a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dirt to the screen.
2. **Clean the Device Screen:** Use the provided cleaning cloth to wipe the screen of your Blaupunkt BP260PLAY. Ensure all smudges, fingerprints, and dust particles are removed. For stubborn dirt, a screen cleaning solution (not included) can be used sparingly.

3. **Remove Dust:** Use the dust removal sticker to gently dab the screen surface, picking up any remaining dust particles. Inspect the screen under light to confirm it is completely clean.
4. **Align the Screen Protector:** Carefully peel back a small portion of the protective film from the adhesive side of the screen protector (usually marked '1' or 'Back'). Align the screen protector with the edges and cutouts of your device screen. Do not touch the adhesive side.
5. **Apply the Protector:** Once aligned, slowly lower the screen protector onto the device screen. As you apply, use the provided squeegee card to gently push out air bubbles from the center outwards. Continue peeling the remaining protective film (usually marked '2' or 'Front') as you apply.
6. **Remove Air Bubbles:** If any small bubbles remain, use the squeegee card to push them towards the nearest edge. For persistent bubbles, you may gently lift the nearest edge of the protector and reapply, pushing the bubble out.
7. **Final Inspection:** Once applied, ensure the screen protector is securely adhered and free of major bubbles or dust.

*Note: The ClearTouch screen protector is designed for reusability, allowing for minor adjustments during installation if needed.*

## 4. OPERATING AND FEATURES

---

The BoxWave ClearTouch Anti-Glare ToughShield 9H enhances your device experience through several key features:

- **Anti-Glare Surface:** The matte finish disperses light, significantly reducing glare from direct sunlight or indoor lighting. This improves screen readability and reduces eye strain.
- **9H Hardness Protection:** Provides robust defense against scratches, scuffs, and minor impacts, protecting your device's original screen.
- **Flexible Material:** Unlike traditional glass protectors, the ToughShield's flexible material resists chipping and cracking, offering durable protection.
- **Fingerprint and Smudge Resistance:** The smooth, matte surface helps repel fingerprints and smudges, keeping your screen cleaner.
- **Precision Cut:** Each protector is precisely cut to match the exact dimensions and contours of the Blaupunkt BP260PLAY screen, ensuring full functionality of all features and sensors.
- **Smooth Touch Experience:** The ultra-smooth surface maintains the original touch sensitivity of your device, providing a seamless user experience.

# Designed to Fit Your Device

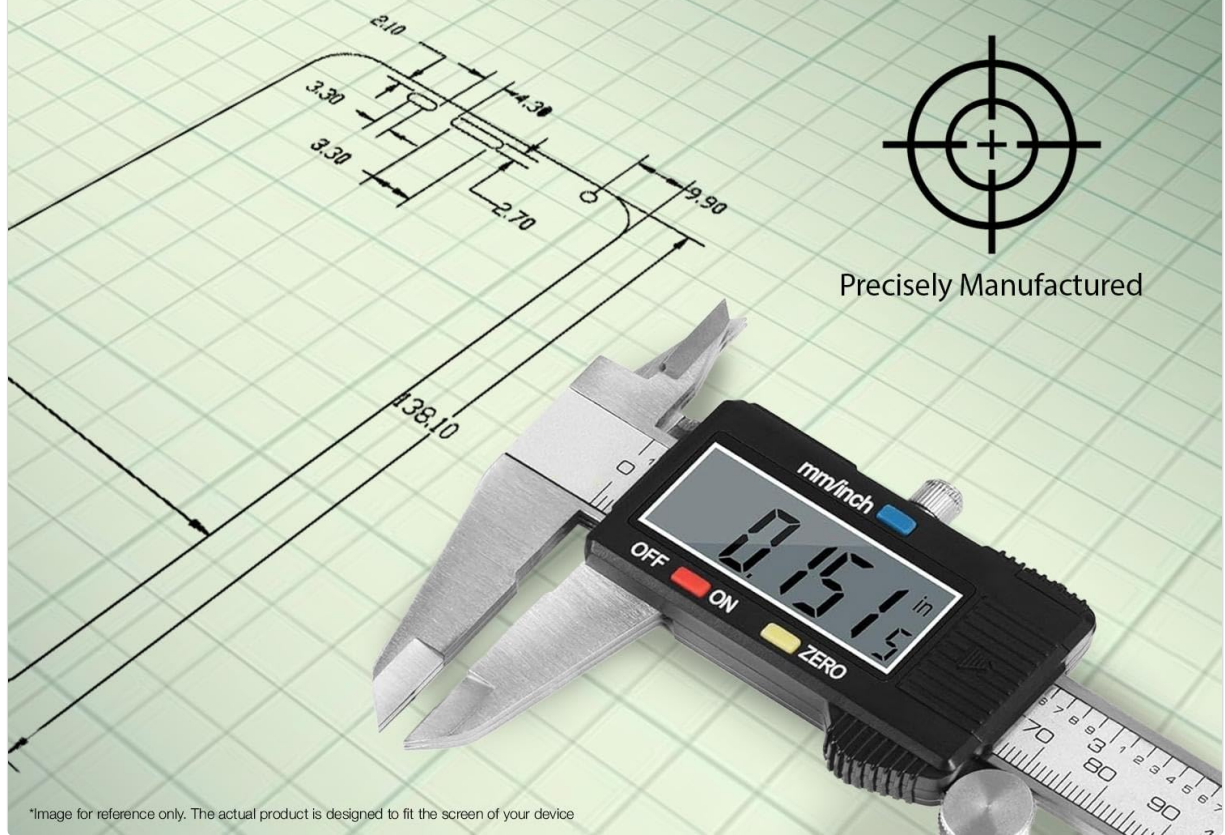

Image 4.1: The anti-glare surface minimizes reflections, enhancing screen visibility in various lighting conditions.

Image 4.2: Illustrates the 9H ultimate protection against common hazards like keys, liquid spills, and accidental drops.

Image 4.3: Demonstrates the anti-smudge surface, showing how it resists fingerprints compared to an unprotected screen.

## 5. MAINTENANCE

---

To maintain the clarity and effectiveness of your BoxWave ClearTouch Anti-Glare ToughShield 9H Screen Protector:

- **Cleaning:** Gently wipe the screen protector with a soft, lint-free cloth. For smudges or fingerprints, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Avoid Sharp Objects:** While the protector offers 9H hardness, extreme pressure or very sharp objects can still cause damage.
- **Storage:** If removing the protector for storage, ensure the adhesive side is kept clean and free of dust. Store it flat to prevent creasing.

## 6. TROUBLESHOOTING

---

Common issues and their solutions:

- **Air Bubbles:** Small bubbles often disappear within 24-48 hours. For larger or persistent bubbles,

gently lift the nearest edge of the screen protector and reapply, using the squeegee card to push the air out.

- **Dust Under Protector:** If dust particles are trapped, carefully lift the screen protector from the nearest corner using a piece of tape. Use another piece of tape to dab and remove the dust from both the device screen and the adhesive side of the protector. Reapply slowly.
- **Misalignment:** If the protector is misaligned, gently peel it off completely, clean the screen again, and reapply, paying close attention to alignment.
- **Reduced Touch Sensitivity:** Ensure the screen protector is fully adhered without any gaps or large air pockets. If the issue persists, verify that your device's touch sensitivity settings are appropriate.

## 7. SPECIFICATIONS

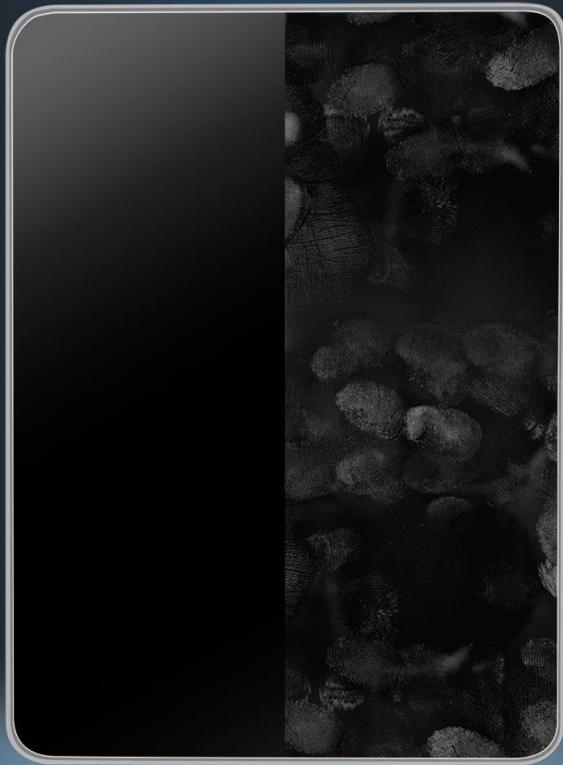

Feature	Detail
Product Name	ClearTouch Anti-Glare ToughShield 9H
Brand	BoxWave
Compatibility	Blaupunkt BP260PLAY
Material	Polyethylene Terephthalate (PET)
