## THINK 30 84B

# THINK 30 36-inch Black Bathroom Vanity with Sink and Countertop Instruction Manual

MODEL: 84B

## Introduction

---

Thank you for choosing the THINK 30 36-inch Black Bathroom Vanity. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new bathroom vanity. Please read all instructions carefully before assembly and use.

This vanity features a solid wood frame, MDF boards, a ceramic undercounter basin, and soft-closing doors and drawers, designed for durability and functionality in your bathroom space.

## Setup and Installation

---

Before beginning installation, ensure all parts are present and undamaged. It is recommended to have two people for assembly. Always place components on a soft, clean surface to prevent scratches.

### Operating Instructions

---

This bathroom vanity is designed for ease of use and ample storage. It features three drawers for daily necessities and a cabinet for medium to large items, keeping your bathroom products organized and protected from water stains and dust.

The soft-close doors and drawer fronts ensure quiet operation and prevent slamming, extending the lifespan of the vanity components. The drawers are equipped with smooth slide rails for effortless opening and closing.

## Maintenance

---

To maintain the appearance and functionality of your vanity, follow these guidelines:

- **Cleaning:** The ceramic undercounter basin has a smooth, easy-to-care-for surface. Wipe down the vanity's painted finish with a soft, damp cloth. Avoid abrasive cleaners that can damage the waterproof paint.
- **Spills:** Wipe up spills immediately to prevent water damage, especially on the wooden components.
- **Hinges and Rails:** Periodically check the soft-closing hinges and drawer slide rails for smooth operation. If adjustments are needed, refer to the hinge adjustment video below.

### Important Safety Information:

Always unplug and turn off any electrical appliances before cleaning. Be cautious of water and electrical hazards when installing and using the bathroom vanity. Keep the area around the vanity clear to prevent tripping or falling.

## Troubleshooting

---

- **Loose Doors/Drawers:** Check the screws on hinges and drawer slides. Tighten them as necessary. Refer to the Hinge Adjustment Video for detailed instructions on adjusting door alignment.
- **Stiff Drawers:** Ensure the drawer slides are clean and free of debris. A small amount of silicone lubricant can be applied if needed.
- **Water Leaks:** If you notice any leaks around the sink or faucet, immediately turn off the water supply and check all connections for tightness. Consult a professional plumber if the issue persists.
