2. Safety Information

WARNING: Failure to follow these safety instructions could result in fire, electric shock, or other injury or damage.

- Ensure all parts are securely fastened before use. Regularly check and tighten all screws and bolts.
- Do not overload the bookcase headboard shelves or storage compartments.
- Use the charging station only with compatible devices and within specified voltage limits. Avoid using damaged cables or adapters.
- Keep liquids away from the charging station and LED light components to prevent electrical hazards.
- The LED lights are for ambient lighting; do not stare directly into the light source for extended periods.

- The under-bed drawers are equipped with child-proof safety locks. Ensure these are engaged when not in use to prevent accidental access or injury.
- This bed frame is designed to support up to 1,000 lbs. Do not exceed this weight limit.
- Keep small parts and packaging materials away from children during assembly to prevent choking hazards.

3. Package Contents

Verify that all components and hardware are present before beginning assembly. Refer to the included parts list in your package. If any parts are missing or damaged, please contact customer support.

4.2 Key Assembly Steps

1. **Prepare Components:** Unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list.
2. **Assemble Headboard Frame:** Attach the side panels to the main headboard sections. Ensure the charging station is correctly inserted into the designated slot on the headboard shelf.
3. **Install Bookcase Shelves:** Secure the internal shelves and back panel of the bookcase headboard. Pay attention to the orientation of pre-drilled holes for proper alignment.
4. **Attach Upholstered Backrest:** Secure the upholstered backrest to the headboard frame. Ensure the hinges are correctly aligned for the flip-top storage compartment.
5. **Construct Bed Frame Base:** Assemble the metal frame components, including the side rails and support beams. Ensure all connections are tight and stable.
6. **Integrate LED Lighting:** Route the LED light strips along the designated channels on the headboard and footboard. Connect them to the power source as instructed.
7. **Install Slats:** Place the wooden slats across the bed frame base. The optimized slat design enhances mattress airflow.
8. **Assemble Storage Drawers:** Construct the four under-bed drawers and attach the smooth-glide wheels. Insert them into the bed frame.
9. **Final Checks:** Verify all connections are secure and the bed frame is stable. Plug in the charging station and LED lights to test functionality.

5. Operating Instructions

5.1 Bookcase Headboard and Storage

The headboard features multiple compartments for convenient storage. The top shelf is ideal for books, glasses, or decorative items. A discreet flip-top compartment provides hidden storage for personal items. Two integrated side pockets are available for remotes, phones, or tablets.

6. Maintenance

6.1 General Care

- Regularly dust the bed frame and headboard surfaces with a soft, dry cloth.
- For upholstered sections, use a damp cloth with mild soap for spot cleaning. Avoid harsh chemicals.
- Periodically check all bolts and screws and tighten them as needed to maintain stability.

6.2 Electrical Components

- Ensure the charging station and LED light connections are secure and free from damage.
- Unplug the bed frame from the wall outlet before cleaning or performing any maintenance on electrical components.

7. Troubleshooting

Problem	Possible Cause	Solution
Bed frame is wobbly or squeaks.	Loose connections; uneven floor.	Tighten all bolts and screws. Ensure the bed is on a level surface.
LED lights not working.	Power cable disconnected; remote battery low; faulty LED strip.	Check if the bed frame is plugged in. Ensure LED cables are securely connected. Replace remote battery. Contact support if issue persists.
Charging station not providing power.	Bed frame unplugged; device cable faulty; power surge.	Verify the bed frame is plugged into a live outlet. Test with a different device cable. Check for tripped circuit breakers.
Drawers are difficult to open/close.	Obstruction; wheels dirty; safety lock engaged.	Clear any obstructions. Clean wheels. Ensure child-proof safety lock is disengaged.
