1. **Prepare Workspace:** Clear a spacious area and lay out all components and hardware. Keep the assembly guide handy.
2. **Assemble Frame:** Begin by connecting the metal frame components according to the instructions. Ensure all connections are secure but do not overtighten screws until the unit is fully assembled.
3. **Attach Wood Panels:** Secure the wood panels (top, shelves, side panels) to the assembled metal frame. Pay attention to the orientation of each panel as indicated in the guide.
