PARPAT K9

PARPAT Wireless CarPlay Adapter K9 User Manual

Model: K9

1. INTRODUCTION

The PARPAT Wireless CarPlay Adapter K9 is designed to convert your vehicle's existing wired CarPlay system into a wireless one. This device offers a seamless and convenient way to access CarPlay features without the need for a physical cable connection to your iPhone.

Image Description: The PARPAT Wireless CarPlay Adapter K9, a compact device designed to convert wired CarPlay to wireless. It includes a USB-C adapter for versatile connectivity and is shown alongside a smartphone displaying the CarPlay interface.

Key Features:

- **Wireless CarPlay Conversion:** Transforms wired CarPlay into wireless, enabling navigation, music, calls, and voice commands without physical connections.
- **Compact and Durable:** Features a lightweight (40g) and robust design for enhanced durability.
- **Stable and Fast Connection:** Utilizes a latest-generation chip, Bluetooth 5.2, and 5.8GHz WiFi for smooth, uninterrupted transmission.

- **Simple Plug & Play Installation:** Easy three-step setup for automatic reconnection upon vehicle startup.
- **High Compatibility:** Supports iPhone iOS 10 or higher and includes a USB to Type-C adapter for broad port compatibility.

MEJORE EL BLUETOOTH CON UN CHIP AVANZADO
Optimiza la estabilidad de la transmisión y mejora la integridad de la señal

Image Description: An illustration highlighting the advanced Bluetooth 5.2 chip within the adapter, emphasizing its role in improving connection range by 50%, stability by 75%, and transmission speed by 100%.

Important Safety Information: This device may cause interference with other wireless devices when used nearby.

2. SETUP INSTRUCTIONS

Follow these steps to set up your PARPAT Wireless CarPlay Adapter K9:

1. **Connect the Adapter:** Plug the PARPAT Wireless CarPlay Adapter into your vehicle's USB port (or Type-C port using the included adapter) that supports wired CarPlay.

PUERTO DE ALIMENTACIÓN DEL VEHÍCULO (USB A + TIPO C)

Image Description: This image displays a car's console with both USB-A and USB-C power ports, illustrating how the adapter can be connected using either port, with or without the included Type-C adapter.

2. **Enable Bluetooth on your iPhone:** Ensure Bluetooth is enabled on your iPhone.
3. **Pair with the Adapter:** On your iPhone, search for Bluetooth devices and select the PARPAT adapter (e.g., "smartbox-XXXX"). Follow any on-screen prompts to complete the pairing process.
4. **Confirm CarPlay Connection:** Once paired, your iPhone will prompt you to use CarPlay. Confirm the connection. The adapter will automatically connect to your iPhone each time you start your vehicle after the initial setup.

CONEXIÓN AUTOMÁTICA EN UN RADIO DE 10 M

Después de la primera conexión, se reconecta automáticamente cada vez que se arranca el vehículo

Image Description: This image illustrates the automatic connection feature of the adapter, showing a car and a smartphone connecting wirelessly within a 10-meter range after the initial pairing, ensuring seamless use every time the vehicle starts.

3. OPERATING INSTRUCTIONS

Once the adapter is successfully connected, your vehicle's display will show the CarPlay interface. You can interact with CarPlay using the following methods:

- **Touchscreen Control:** Directly interact with the CarPlay interface on your vehicle's touchscreen.
- **Vehicle's OEM Controls:** Use your car's original control knobs and buttons to navigate CarPlay.
- **Steering Wheel Controls:** Utilize your steering wheel buttons for audio control, calls, and voice commands.
- **Voice Commands (Siri):** Activate Siri by pressing the voice command button on your steering wheel or by saying "Hey Siri" to use voice commands for navigation, music, calls, and more.

**Sprachassistenten,
die das Leben bequemer machen**

"Hey, Siri, ruf Yasmeen an".

"Okay"

Behalten Sie die ursprüngliche Kontrolle

OEM-Steuerung

Touchscreen steuert

Lenkrad Steuerung

The image shows a driver's perspective from the driver's seat. The driver is holding the steering wheel. The car's dashboard and infotainment screen are visible. The infotainment screen displays the CarPlay interface with various app icons. A blue speech bubble with a Siri icon and the text "Hey, Siri, ruf Yasmeen an" is positioned in front of the driver. Another blue speech bubble with a Siri icon and the text "Okay" is positioned in front of the infotainment screen. At the bottom of the image, there are three inset images: the first shows a hand turning a silver knob (OEM control), the second shows a hand touching the infotainment screen (touchscreen control), and the third shows a hand pressing a button on the steering wheel (steering wheel control). Below each inset image is a blue box with white text: "OEM-Steuerung", "Touchscreen steuert", and "Lenkrad Steuerung". To the left of these insets is a dark grey box with white text: "Behalten Sie die ursprüngliche Kontrolle".

Image Description: A driver is shown using voice commands to control CarPlay, emphasizing the hands-free operation. Inset images demonstrate compatibility with original equipment manufacturer (OEM) controls, touchscreen input, and steering wheel buttons.

CarPlay Functions:

The wireless adapter supports all standard CarPlay functions, including:

- **Navigation:** Use Apple Maps, Google Maps, Waze, etc.
- **Music & Audio:** Stream music, podcasts, and audiobooks from your favorite apps.
- **Phone Calls:** Make and receive calls hands-free.
- **Messages:** Send and receive messages via Siri.
- **Calendar:** Access your calendar appointments.

Einmal verbunden: Uneingeschränkter Zugriff auf alle App-Funktionen

Musik **Navigation** **Siri** **Freisprechfunktion**

Image Description: This image showcases the various applications and features available through the CarPlay interface, such as music playback, navigation, Siri voice assistant, and hands-free calling.

4. MAINTENANCE

The PARPAT Wireless CarPlay Adapter K9 requires minimal maintenance. Follow these guidelines to ensure optimal performance and longevity:

- **Cleaning:** Use a soft, dry cloth to clean the adapter. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the adapter in a cool, dry place away from direct sunlight and extreme temperatures.
- **Firmware Updates:** Periodically check the official PARPAT website for any available firmware updates. Updates can improve performance and compatibility.
- **Avoid Physical Damage:** Handle the adapter with care. Avoid dropping it or exposing it to excessive force, moisture, or dust.

5. TROUBLESHOOTING

If you encounter issues with your PARPAT Wireless CarPlay Adapter K9, refer to the following troubleshooting tips:

| Problem | Possible Cause | Solution |
|---|---|--|
| Adapter does not connect automatically. | First-time connection or pairing issue. | Ensure Bluetooth is enabled on your iPhone. Re-pair the adapter via Bluetooth settings. Restart your vehicle and iPhone. |
| CarPlay is slow or unresponsive. | Interference, outdated firmware, or temporary glitch. | Check for firmware updates on the PARPAT website. Ensure no other wireless devices are causing interference. Disconnect and reconnect the adapter. Restart your iPhone and vehicle's infotainment system. |
| No audio or distorted audio. | Bluetooth audio routing issue. | Verify your iPhone's audio output is set to CarPlay. Check volume levels on both your iPhone and car stereo. Restart the adapter and your iPhone. |
| Adapter gets warm during use. | Normal operation. | A slight increase in temperature is normal during operation. If it becomes excessively hot, disconnect it and contact support. |
| Not compatible with my car. | Vehicle does not have factory-wired CarPlay. | This adapter is only compatible with vehicles that originally came with wired CarPlay functionality. It does not add CarPlay to vehicles that do not have it. |
