

Paladone 14475

Paladone Lilo & Stitch Galaxy Projection Light

INSTRUCTION MANUAL (MODEL 14475)

Introduction

This manual provides essential information for the safe and effective use of your Paladone Lilo & Stitch Galaxy Projection Light. Please read these instructions carefully before operating the device and retain them for future reference.

What's in the Box:

- Paladone Lilo & Stitch Galaxy Projection Light
- Remote Control
- USB Charging Cable
- User Manual

Setup

Follow these steps to set up your Galaxy Projection Light:

1. **Charging the Device:** Before first use, fully charge the projection light using the provided USB charging cable. Connect the USB-C end of the cable to the port on the back of the light and the standard USB-A end to a compatible USB power adapter (not included). The charging indicator will illuminate during charging and turn off when fully charged.
2. **Placement:** Place the projection light on a stable, flat surface. For optimal projection, position it in a dark room, facing a wall or ceiling.
3. **Remote Control:** Ensure the remote control has working batteries. If not, insert 2x AAA batteries (not included) into the remote control's battery compartment, observing correct polarity.

Operating Instructions

Your Galaxy Projection Light offers various lighting modes and controls:

1. **Power On/Off:** Press the power button on the back of the unit or the power button on the remote control to turn the light on or off.
2. **Brightness Adjustment:** Use the brightness buttons on the remote control to adjust the intensity of the projection.
3. **Color Phasing Mode:** Press the 'Color Phasing' button on the remote to cycle through a sequence of colors, creating a dynamic galaxy effect.
4. **Color Select Mode:** Use the 'Color Select' button or specific color buttons on the remote to choose a static color for your projection.
5. **Night Mode:** Activate the 'Night Mode' for a softer, more subdued projection, ideal for use as a night light.
6. **Auto-Off Timer:** Set the auto-off timer using the remote control. Options typically include 15, 30, or 60 minutes, after which the light will automatically turn off.

Maintenance

To ensure the longevity and optimal performance of your projection light:

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents, as these may damage the surface.
- **Battery Care:** Recharge the device regularly to maintain battery health. Avoid fully depleting the battery frequently. If storing for an extended period, charge the device every few months.
- **Storage:** Store the light in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter issues with your Galaxy Projection Light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Light does not turn on.	Battery is depleted.	Charge the device using the provided USB cable.
Remote control is not working.	Remote batteries are dead or incorrectly inserted.	Replace remote batteries (2x AAA) and ensure correct polarity. Ensure line of sight to the light.
Projection is dim or unclear.	Room is too bright; device is too far from projection surface.	Use in a darker environment. Adjust the light's position closer to the wall or ceiling. Ensure the lens is clean.
Light turns off unexpectedly.	Auto-off timer is activated; battery is low.	Check timer settings on the remote. Recharge the device.

Specifications

Feature	Detail
Model Number	14475
Brand	Paladone
Product Dimensions	7.09"D x 7.09"W x 3.94"H
Item Weight	300 Grams
Power Source	Battery Powered (USB Rechargeable)
Light Source Type	LED
Material Type	Plastic
Indoor/Outdoor Usage	Indoor
GTIN (UPC)	05056577754445

Warranty

The manufacturer warranty description for this product is listed as 'None'. Please refer to your retailer's return policy for information regarding returns or exchanges.
