AVKENOEDY LP-145

AVKENOEDY Double Sliding Shower Door

Model: LP-145 User Manual

Brand: AVKENOEDY

1. Introduction

Thank you for choosing the AVKENOEDY Double Sliding Shower Door. This manual provides essential information for the safe installation, operation, and maintenance of your new shower door. Please read these instructions carefully before beginning installation and keep them for future reference. Proper installation and care will ensure the longevity and optimal performance of your product.

2. Product Features

- **High-Quality Material:** Constructed with a premium stainless steel frame, resistant to corrosion, rust, and daily stains, ensuring a modern and elegant appearance over time.
- **Versatile Double Sliding Design:** Features a dual-sliding structure allowing easy entry from either the left or right side. Supports reversible installation to adapt to your bathroom layout.
- **Enhanced Safety Glass:** Equipped with ANSI certified 3/8 inch (10mm) clear tempered glass, offering high tensile strength and impact resistance. An attached explosion-proof film prevents shattering into dangerous shards.
- **Water Resistance:** Advanced structure and premium materials create a tight seal to prevent leaks, keeping your bathroom dry. The nano-coated glass surface resists stains and hard water buildup for easy cleaning.
- **Stainless Steel Handles:** Sleek and durable handles provide a comfortable grip and can also function as a towel rack.

3. Package Contents

The AVKENOEDY Double Sliding Shower Door package includes:

- Glass Panels
- All necessary Hardware for assembly
- Seals
- Step-by-step Installation Instructions

4. Safety Information

- Always handle glass panels with extreme care. Tempered glass, while strong, can shatter if struck at the edges or corners.
- Wear appropriate safety gear, including safety glasses and gloves, during installation.
- Ensure the installation area is clear of obstructions and adequately lit.
- Do not attempt to install the shower door alone. A minimum of two people is recommended for safe handling and installation of glass panels.
- Verify that all mounting surfaces are structurally sound and capable of supporting the weight of the shower door.
- For optimal safety and results, professional installation is highly recommended.

5. Setup and Installation

The AVKENOEDY Double Sliding Shower Door is designed for straightforward installation with the included step-by-step instructions and complete mounting accessories. The door features an adjustable width from 56 to 60 inches and a fixed height of 76 inches, allowing flexibility for various bathroom spaces.

1. **Preparation:** Unpack all components and verify against the parts list in your instruction manual. Ensure all tools required for installation are available.
2. **Measure and Mark:** Carefully measure your shower opening to confirm it falls within the 56-60 inch adjustable width. Mark the drilling locations for the wall profiles according to the provided template.
3. **Install Wall Profiles:** Drill holes and secure the wall profiles to the bathroom wall using appropriate fasteners. Ensure they are plumb and level.
4. **Assemble Top Rail and Rollers:** Attach the top rail to the wall profiles. Install the sliding rollers onto the glass panels.
5. **Mount Glass Panels:** Carefully lift and hang the glass panels onto the top rail rollers. Adjust for smooth sliding.
6. **Install Bottom Guide and Seals:** Secure the bottom guide rail and install all seals to ensure water tightness.
7. **Attach Handles:** Mount the stainless steel handles to the glass panels. Ensure the handle is mounted in the correct direction as shown in the diagrams.

Note: For best results and to ensure safety, professional installation is strongly recommended.

6. Operating Instructions

The AVKENOEDY Double Sliding Shower Door is designed for ease of use and smooth operation.

- **Sliding Mechanism:** Gently push or pull either glass panel to open or close the shower door. The double sliding design allows entry from either the left or right side of the enclosure. The solid stainless steel rollers ensure noiseless and smooth movement.
- **Handle Functionality:** The stainless steel handles are ergonomically designed for a comfortable grip. They can also serve as a convenient towel rack.

Figure 6.2: Detail of the stainless steel handles, highlighting their dual function as a door opener/closer and a towel rack.

7. Maintenance

Regular cleaning and maintenance will preserve the appearance and functionality of your AVKENOEDY shower door.

- **Glass Cleaning:** The nano-coated glass surface is designed to resist water spots and soap scum. Clean regularly with a soft cloth and mild, non-abrasive glass cleaner. Avoid harsh chemicals or abrasive pads that could damage the coating.
- **Frame Cleaning:** Wipe the stainless steel frame with a soft, damp cloth. For stubborn spots, use a stainless steel cleaner according to its instructions. Avoid cleaners containing bleach or acids.
- **Seals and Rollers:** Periodically inspect seals for wear and tear and clean any buildup to maintain water tightness. Keep the sliding rollers free of debris to ensure smooth operation.
- **Water Leakage Performance:** The shower door is designed with an anti-splash threshold and full-cover water seal. Regularly check these components to ensure they are intact and functioning correctly to prevent water from spilling.

Figure 7.1: Visual representation of the shower door's water leakage performance, showing how the coating repels water.

8. Troubleshooting

If you encounter issues with your shower door, refer to the following common problems and solutions:

- **Doors do not slide smoothly:**
  - Check the rollers for any debris or obstructions. Clean them thoroughly.
  - Inspect the top rail and bottom guide for alignment issues or damage.
  - Ensure all roller components, especially the nylon door guides in the floor guide, are securely in place. Re-seat any loose guides.
- **Water leakage from the enclosure:**
  - Verify that all seals (vertical and horizontal) are properly installed and not damaged. Replace if necessary.
  - Check the anti-splash threshold for proper seating and integrity.
  - Ensure the shower head spray is not directly aimed at door seams for extended periods.

- **Handles feel loose:**
  - Tighten the screws securing the handles to the glass panels. Do not overtighten.

If these steps do not resolve the issue, please contact customer support.

9. Specifications

Brand	AVKENOEDY
Model Number	LP-145
Material	Stainless Steel, Tempered Glass
Glass Thickness	3/8 inch (10mm)
Adjustable Width	56 to 60 inches
Height	76 inches
Item Weight	110 Pounds
UPC	780748776602
Assembly Required	Yes

10. Warranty and Support

AVKENOEDY is dedicated to 100% customer satisfaction. For any questions, concerns, or assistance with your product, please refer to the contact information provided in your product packaging or visit the official AVKENOEDY website for support details.

Please retain your proof of purchase for any warranty claims.
