6. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your vanity desk.

- **Cleaning the Surface:** Wipe the engineered wood surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Mirror Cleaning:** Use a glass cleaner and a lint-free cloth to clean the mirror surface. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- **Light Bulbs:** If a light bulb needs replacement, ensure the vanity is unplugged. Replace with bulbs of the same type and wattage.

- **Drawer Maintenance:** Periodically check drawer slides for smooth operation. If they become stiff, a small amount of silicone lubricant can be applied.
- **General Inspection:** Regularly check all screws and fasteners to ensure they remain tight. Tighten if necessary.

7. TROUBLESHOOTING

If you encounter issues with your vanity desk, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	Vanity not plugged in; loose bulb; faulty bulb; power outage.	Ensure power cord is securely plugged into a working outlet. Check if bulbs are screwed in tightly. Replace any burnt-out bulbs. Verify power to the outlet.
Charging station not working.	Vanity not plugged in; device cable faulty; device not compatible.	Confirm the vanity is plugged in. Try a different charging cable or device to rule out cable/device issues.
Drawers stick or are difficult to open/close.	Overloaded drawer; misaligned slides; debris in slides.	Reduce weight in the drawer. Check for obstructions in the drawer slides. Ensure slides are properly aligned and lubricated if necessary.
Vanity feels wobbly.	Loose fasteners; uneven floor.	Tighten all assembly screws. Use furniture glides or shims under legs to level the desk on an uneven floor.
