Key Features:

- **LED Indicator Lights:** Four small LED lights indicate the remaining battery capacity. Each light represents approximately 25% of the battery.
- **USB-A Output Ports (x2):** For charging external devices.
- **USB-C Port:** Functions as an input for charging the power bank and an output for charging devices.
- **Micro USB Port:** Functions as an input for charging the power bank.

5. SETUP

Charging the Power Bank:

Before first use, fully charge your VANYUST S22/S2122 Portable Charger.

1. Connect the provided USB charging cable (or your own USB-C cable) to either the **USB-C Input** port or the **Micro USB Input** port on the power bank.
2. Connect the other end of the cable to a USB wall adapter (not included) or a computer's USB port.
3. The LED indicator lights will illuminate to show the charging progress. When all four LEDs are solid, the

power bank is fully charged.

4. Charging typically takes approximately 5 hours for a full charge.

6. OPERATING INSTRUCTIONS

Charging External Devices:

The VANYUST S22/S2122 can charge up to three devices simultaneously.

1. Connect your device's charging cable to one of the **USB-A Output** ports or the **USB-C Output** port on the power bank.
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device. The LED indicators will show the remaining power.
4. Disconnect your device once it is fully charged or when you no longer need to charge.

7. MAINTENANCE

Proper care ensures longevity and optimal performance of your power bank.

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use.
- If storing for an extended period, charge the power bank to about 50-75% capacity every 3 months to maintain battery health.

8. TROUBLESHOOTING

If you encounter issues with your power bank, refer to the following common solutions:

Problem	Possible Cause	Solution
Power bank not charging	Cable or adapter faulty; power bank fully charged; port issue.	Try a different cable/adaptor. Ensure connection is secure. Check LED indicators.
Device not charging from power bank	Power bank low on charge; cable faulty; device incompatible; port issue.	Recharge power bank. Try a different cable. Ensure device is compatible. Try a different output port.
Slow charging	Cable quality; device input limit; multiple devices charging.	Use a high-quality cable. Ensure your device supports faster charging. Charging multiple devices may reduce individual charging speed.
LED indicators not working	Device malfunction.	Contact customer support if the power bank is otherwise functional.

If the problem persists after trying these solutions, please contact VANYUST customer support.
