Britax UpNGo Click

Britax UpNGo Click Backless Booster Car Seat User Manual

Model: UpNGo Click

Introduction

The Britax UpNGo Click Backless Booster Car Seat is designed to provide a safe and comfortable transition for children ready for the final car seat stage. This manual provides essential information for proper installation, use, and maintenance to ensure your child's safety and comfort.

Setup

LATCH Installation

The UpNGo Click features rigid LATCH connectors for secure and easy installation. These connectors click into your vehicle's lower anchors with ease and release in seconds, allowing for hassle-free transfer between vehicles.

Figure 2: Rigid LATCH installation, showing a hand connecting the booster seat to the vehicle's LATCH system.

Adjustable Headrest (if applicable for your model)

While the UpNGo Click is a backless booster, some Britax models feature adjustable headrests. Ensure the booster is positioned correctly for your child's height, allowing the vehicle's headrest to support their head and neck.

Operating Instructions

Child Positioning and Seat Belt Use

The PosturePlus contoured seat helps encourage proper posture and seat belt positioning. Ensure the vehicle's lap belt is low on your child's hips, touching the tops of their thighs, and the shoulder belt rests snugly across the center of their shoulder and chest.

Figure 3: PosturePlus contoured base designed to promote correct posture and seat belt alignment.

Shoulder Belt Guide

Utilize the shoulder belt guide to help keep the vehicle's shoulder belt in the correct position across your child's shoulder, preventing it from riding up on their neck or falling off their shoulder.

Figure 4: Shoulder belt guide ensuring proper seat belt placement for safety.

Cup Holders

The booster includes two dishwasher-safe cup holders to keep drinks and snacks within reach. They are easy to remove for cleaning.

Figure 5: Detachable and dishwasher-safe cup holders for convenience and hygiene.

Maintenance

Removable SafeWash Cover

The booster seat features a removable SafeWash cover that is safe to machine wash and dry. The fabrics are naturally flame-retardant with no added FR chemicals.

Figure 6: Easy-to-remove SafeWash cover for convenient machine washing and drying.

Cleaning Cup Holders

The cup holders are dishwasher-safe. Remove them from the booster seat and place them in the dishwasher for thorough cleaning.

Troubleshooting

Loose Installation

If the booster seat feels loose after LATCH installation, ensure the LATCH connectors are fully engaged and pull the strap to tighten the connection. The seat should not move more than 1 inch side-to-side or front-to-back at the belt path.

Improper Seat Belt Fit

If the vehicle's seat belt does not fit properly across your child (e.g., shoulder belt on neck, lap belt on stomach), re-check your child's height and weight against the booster's requirements. Ensure the shoulder belt guide is used correctly.

Specifications

- **Brand:** Britax
- **Model:** UpNGo Click
- **Type:** Backless Booster Car Seat
- **Minimum Weight Recommendation:** 40 Pounds
- **Maximum Weight Recommendation:** 120 Pounds
- **Minimum Height Recommendation:** 46 Inches
