2. IMPORTANT SAFETY INFORMATION

To reduce the risk of fire, electric shock, or personal injury, always follow these basic precautions:

- Ensure power is disconnected at the circuit breaker or main fuse box before installation, cleaning, or maintenance.
- All electrical wiring must be performed by a qualified and licensed electrician.
- Mount the fan to a ceiling joist or a securely supported outlet box capable of supporting the fan's weight (minimum 35 lbs).
- Do not use a full-range dimmer switch to control fan speed, as this may damage the fan motor and void the warranty.
- Only control the light on/off via a standard wall switch or the provided remote/app.
- Keep children and pets away from the fan during operation to prevent injury.
- Ensure fan blades are at least 7 feet (2.1 meters) from the floor.
