PeriPage HDD-P92

PeriPage P92 Tattoo Stencil Printer User Manual

Model: HDD-P92

1. PRODUCT OVERVIEW

The PeriPage P92 is a compact and lightweight thermal tattoo stencil printer designed for both professional tattoo artists and enthusiasts. It utilizes inkless thermal technology to produce clear and precise tattoo lines, streamlining the stencil creation process. This printer offers versatile connectivity options, including Bluetooth and USB, making it compatible with a wide range of devices such as smartphones, tablets, and PCs.

Key Features:

- **Portable Design:** Compact and lightweight (approximately 15.2 ounces) for easy transport.
- **Inkless Thermal Technology:** Eliminates the need for ink cartridges, reducing operational costs.
- **High Compatibility:** Supports Android, iOS, Windows, and macOS devices.
- **Versatile Connectivity:** Connects via Bluetooth for wireless printing or USB for wired connections.
- **Powerful Mobile App:** The "PeriPage APP" provides abundant resources, including built-in tattoo templates and design editing tools.
- **Efficient Printing:** Capable of printing clear and precise tattoo lines in seconds.
- **Long Battery Life:** Built-in 2600mAh rechargeable battery, capable of printing up to 200 pages per charge.

2. SETUP GUIDE

2.1 Unboxing and Initial Charge

Carefully remove all components from the packaging. Before first use, ensure the printer is fully charged using the

provided USB cable and a compatible power adapter. The power indicator light will typically change to indicate a full charge.

2.2 Software Installation

To operate the PeriPage P92, you will need to install the appropriate software:

- **For Smartphones/Tablets (Android/iOS):** Download the "PeriPage APP" from your device's respective app store (Google Play Store for Android, Apple App Store for iOS).
- **For PCs (Windows/macOS):** Download the printer driver from the official PeriPage website: <https://www.ileadtek.com/en/download.html>.

HOW TO USE

Please download the "PeriPage" app, which can be downloaded from the app store, if you are using a computer, you can download our client at <https://www.ileadtek.com/en/download.html>

01

Long press the power button for about two seconds to turn on the P92, insert the tattoo paper into the P92 and it will automatically suck in the

2.3 Loading Stencil Paper

1. Ensure the printer is powered off or in standby mode.
2. Gently insert the tattoo stencil paper (thermal paper, 8.5x11 inches) into the paper feed slot at the front of the printer.
3. The printer will automatically detect and feed the paper into position. Ensure the transfer film side is facing up.

3. OPERATING INSTRUCTIONS

3.1 Powering On/Off

To power on the printer, press and hold the power button (usually located on the top or side) for approximately 2 seconds until the indicator light illuminates. To power off, press and hold the power button again until the light turns off.

3.2 Connecting to Your Device

- **Bluetooth Connection:**

1. Ensure Bluetooth is enabled on your smartphone or tablet.
2. Open the "PeriPage APP".
3. Within the app, search for and select the PeriPage P92 printer to establish a connection.

- **USB Connection:**

1. Connect the printer to your PC using the provided USB cable.
2. Ensure the printer driver is installed on your PC.
3. The printer should be recognized as a printing device.

3.3 Using the PeriPage App for Printing

The "PeriPage APP" is your primary interface for creating and printing tattoo stencils.

1. Open the "PeriPage APP" on your connected device.
2. You can choose to use built-in tattoo templates or import your personal designs. The app offers tools for editing, resizing, and adjusting your designs.
3. Once your design is ready, select the print option within the app.
4. Confirm print settings (e.g., density, size) if prompted.
5. The printer will then feed the stencil paper and print your design.

4. MAINTENANCE

4.1 Cleaning the Printer

Regular cleaning helps maintain print quality and extends the life of your printer.

- **Exterior:** Wipe the exterior of the printer with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- **Thermal Print Head:** If print quality degrades, gently clean the thermal print head with an alcohol wipe or a specialized thermal printer cleaning pen. Ensure the printer is off and cooled down before cleaning.
- **Paper Path:** Periodically check the paper path for any dust or debris and remove it carefully.

4.2 Storage

Store the printer in a cool, dry place away from direct sunlight and extreme temperatures. When not in use for extended periods, ensure the printer is fully charged and then powered off.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your PeriPage P92 printer.

5.1 Poor Print Quality

- **Faint Prints:**

- Check if the thermal paper is loaded correctly with the transfer film side facing up.
- Ensure the printer's battery is sufficiently charged.
- Clean the thermal print head (refer to Section 4.1).
- Adjust print density settings within the PeriPage APP.

- **Streaks or Gaps:**

- Clean the thermal print head.
- Ensure the paper is free from wrinkles or damage.

- **Incomplete Designs (Large Shadows/Complex Images):** The printer is optimized for clear line drawings. Complex images with large shaded areas may not transfer optimally.

Image: A comparison showing effective line drawings and less shadowy prints versus bad effects with large shadows and complex images, illustrating optimal design types for the printer.

5.2 Connectivity Issues

- **Bluetooth Not Connecting:**

- Ensure the printer is powered on and within range of your device.
- Verify Bluetooth is enabled on your device.
- Restart both the printer and your device.
- Forget the device in your Bluetooth settings and try pairing again.

- **USB Not Recognized:**

- Ensure the USB cable is securely connected to both the printer and your PC.

- Verify that the correct printer drivers are installed on your PC.
- Try a different USB port or cable.

5.3 Paper Jam

If paper gets jammed, gently pull the paper out in the direction of the paper path. Avoid forcing it, as this can damage the printer mechanisms. Ensure paper is loaded straight and not wrinkled.

6. SPECIFICATIONS

Feature	Detail
Brand	PeriPage
Model Name	HDD-P92
Connectivity Technology	Bluetooth, USB
Printing Technology	Thermal (Inkless)
Special Feature	Portable
Color	Black
Printer Output	Monochrome
Max Print Speed (B&W)	6 pages per minute
