MAINTENANCE AND CARE

Proper care and maintenance will extend the life and appearance of your VINGLI bar set.

- **Cleaning:** Wipe with a dry cloth to remove dust and debris. For more stubborn dirt, use a slightly damp cloth and dry immediately. Avoid harsh chemicals or abrasive cleaners.

Consider using a protective cover during inclement weather or storing the set indoors during off-seasons.
- **UV Resistance:** The material is UV-resistant to help prevent cracking and fading, but continuous direct sunlight over many years may still cause some wear.
- **Regular Checks:** Periodically inspect all hardware and connections. Tighten any loose screws or bolts to maintain stability.
