6. Maintenance

Proper care will extend the life and appearance of your bistro table.

- **Cleaning:** For routine cleaning, wipe the tabletop and frame with a damp cloth. For tougher stains, use a mild soap solution and water. Rinse thoroughly with clean water and dry completely to prevent water spots.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, bleach, or strong chemical solutions, as these can damage the finish of the cast aluminum.
- **Rust Prevention:** The cast aluminum construction is designed for weather resistance and rust prevention. However, regular cleaning and ensuring the table is dry after rain can further enhance its longevity.
- **Storage:** During prolonged periods of non-use or harsh weather conditions, consider covering the table or storing it indoors to protect it from elements.

7. Troubleshooting

Refer to these common issues and solutions:

- **Table Wobbles:** Ensure the table is placed on a level surface. Check all bolts and connections to ensure they are securely tightened. Adjust foot pads if applicable.
- **Difficulty Assembling:** Review the assembly instructions carefully. Ensure all parts are correctly oriented before tightening bolts. Do not force components together.
- **Scratches on Surface:** Minor scratches can sometimes be touched up with outdoor-grade black paint. Prevent scratches by using coasters and avoiding dragging sharp objects across the tabletop.
