Converting the Lower Bed to Desk and Seats:

1. Ensure the lower bed is clear of bedding and other items.
2. Follow the specific instructions in your assembly manual for the mechanism to fold the bed frame into the desk and seat configuration. This typically involves releasing latches and folding sections of the bed.
3. Once converted, ensure all locking mechanisms are engaged to secure the desk and seats in place.

Converting the Desk and Seats to Lower Bed:

1. Clear the desk surface and seats of any items.
2. Release the locking mechanisms for the desk and seat configuration.
3. Carefully unfold the components to form the lower bed frame, ensuring it lies flat and all bed supports are correctly positioned.
4. Engage all bed frame locking mechanisms to ensure stability before placing bedding.
