2.3 Software Features (OxygenOS 15)

The tablet runs on OxygenOS 15, powered by the MTK Helio G100 octa-core chip, designed for smooth performance.

Notes and Disclaimers:

1. 500 nits brightness is the peak brightness level obtained during testing in the OnePlus Test Laboratory.
2. The refresh rate is adaptive between either 60Hz or 90Hz for a more versatile and smoother scrolling experience.
3. The screen features a rounded corner design. When measured as a standard rectangle, the screen's diagonal length is 27.813cm (10.95 inches). "Triple your phone's real estate" refers to the screen area in comparison to the OnePlus Nord 5.
4. OnePlus Pad Lite's battery has an equivalent capacity of 9340 mAh (typical) / 9098 mAh (rated). Music playtime, video playtime and standby time data come from tests conducted at the OnePlus Test Laboratory. Actual results may vary depending on the usage conditions.
5. Connecting and syncing with an iPhone requires installation of the O+ Connect app on the iPhone. For Android phones, Quick Share support is required.
6. The 36-month smooth performance data is based on OnePlus Test Laboratory data. Actual experience may vary depending on usage scenarios and personal habits.
7. OnePlus Pad Lite supports sync features including Screen Mirroring, Content Sync, and Auto Connect, etc. with OnePlus phones running OxygenOS 13.1 or above.
8. "Content Sync" is the feature name in Settings, which refers to syncing clipboards and media. To activate this feature, both devices (OnePlus Pad Lite and OnePlus phone) must be signed in to the same OnePlus account and have Auto Connect turned on.

Product specifications and claims are subject to change without notice, which may include (but is not limited to) variances caused by different software versions. For up to date product information, please visit oneplus.com/oneplus-pad-lite.

3. MAINTENANCE

3.1 Battery Care

- Use only the provided charger and cable or certified accessories to charge your device.
- Avoid exposing the tablet to extreme temperatures, as this can affect battery life.
- For optimal battery longevity, avoid frequently discharging the battery completely or keeping it at 100% charge for extended periods.

3.2 Software Updates

OnePlus provides software updates for OxygenOS 15 to ensure continued smooth performance. It is recommended to install updates when available to benefit from the latest features and security enhancements.

1. Go to **Settings**.
2. Tap **About device**.
3. Tap **OxygenOS** to check for updates.

3.3 Cleaning Your Device

- Use a soft, lint-free cloth to clean the screen and body of the tablet.
- Avoid using harsh chemicals, abrasive materials, or aerosol sprays.
- For stubborn smudges, slightly dampen the cloth with water or a screen cleaner specifically designed for electronics.

4. TROUBLESHOOTING

This section addresses common issues you might encounter with your OnePlus Pad Lite.

4.1 Device Not Powering On or Freezing

- **Check Battery:** Ensure the device has sufficient charge. Connect it to the charger for at least 15-30 minutes before attempting to power on again.
- **Force Restart:** If the device is unresponsive, press and hold the power button for approximately 10-15 seconds until the device restarts.
- **Software Issue:** If the issue persists after a force restart, consider performing a factory reset (data will be lost, back up important information first) or contact customer support.

4.2 Wi-Fi Connectivity Issues

- **Restart Router:** Power cycle your Wi-Fi router and modem.
- **Forget Network:** In Wi-Fi settings, "forget" the problematic network and then reconnect.
- **Check Signal:** Ensure you are within range of the Wi-Fi signal.
- **Update Software:** Ensure your tablet's software is up to date.

4.3 Performance Lag

- **Close Background Apps:** Close unnecessary applications running in the background.
- **Clear Cache:** Regularly clear app caches from **Settings > Apps > [App Name] > Storage & cache > Clear cache**.
- **Free Up Storage:** Delete unused files or apps to free up internal storage.
- **Software Update:** Ensure the operating system is updated to the latest version.
