Operating Instructions

Height Adjustment

The desk features a dual motor system for smooth and quiet height transitions. Use the control panel located on the front edge of the desk to adjust its height.

Image: Close-up of the control panel with a digital display. It features 'Up/Down' buttons for manual adjustment, a 'Height Memory' button (1), and a 'Settings' button (2).

- **Manual Adjustment:** Press and hold the 'Up' or 'Down' button to raise or lower the desk to your desired height. Release the button to stop.
- **Memory Presets:** The control panel allows you to save preferred sitting and standing heights. To set a memory position: Adjust the desk to the desired height, then press the 'Height Memory' button (1) followed by a number button (e.g., 1, 2, 3, 4) to save the position. To recall a saved position, simply press the

corresponding number button.

- **Sit-Stand Reminder:** Activate the sit-stand reminder feature through the 'Settings' button (2) to receive prompts for changing your posture throughout the day.
- **Anti-Collision Feature:** The desk is equipped with an anti-collision system that automatically stops movement if it encounters an obstruction during adjustment.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your COLAMY Electric Standing Desk.

- **Cleaning:** Clean the desktop surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Hardware Check:** Periodically check all screws and connections for tightness. Retighten if necessary to maintain stability.
- **Motor Care:** Keep the motor and electrical components free from dust and moisture. Avoid spilling liquids directly onto these areas.
- **Cable Management:** Ensure cables are neatly managed and not pinched or tangled, which could affect desk movement or damage wires.

Troubleshooting

If you encounter issues with your desk, refer to the following common solutions:

Problem	Possible Cause	Solution
Desk does not move	Power cord disconnected; Motor cable loose; Overload	Check power connection; Reconnect motor cables; Reduce weight on desk.
Unusual noise during operation	Loose hardware; Obstruction in lifting mechanism	Check and tighten all screws; Remove any obstructions. If noise persists, contact support.
Height adjustment is uneven	Uneven weight distribution; Sensor issue	Distribute weight evenly; Perform a reset procedure (refer to manufacturer's website for specific steps).
Control panel not responding	Power issue; Control panel cable loose	Check power and cable connections.

For more complex issues or error codes displayed on the control panel, please refer to the official COLAMY website or contact customer support.
