AFMAT B0FJ25H2SH

AFMAT Electric Pencil Sharpener Instruction Manual

Models: B0FJ25H2SH (Purple + Green)

INTRODUCTION

Thank you for choosing the AFMAT Electric Pencil Sharpener. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new sharpener. Please read these instructions carefully before use and retain them for future reference.

SAFETY INSTRUCTIONS

- Always ensure the sharpener is unplugged before cleaning or when not in use.
- Do not immerse the sharpener in water or any other liquid.
- Keep fingers and foreign objects away from the sharpening blade during operation.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not attempt to sharpen anything other than pencils.
- Use only the provided power adapter.

PRODUCT OVERVIEW

The AFMAT Electric Pencil Sharpener is designed for efficient sharpening of various pencil types and sizes, from 6mm to 12mm in diameter. It features adjustable sharpening points and an automatic stop function.

Image: AFMAT Electric Pencil Sharpener (Purple) showing compatibility with 6mm No.2 pencils, 8mm colored pencils, and 12mm sketch pencils.

Image: AFMAT Electric Pencil Sharpener (Green) demonstrating compatibility with various pencil diameters.

The sharpener accommodates pencils with diameters ranging from 6mm to 12mm, including standard No.2 pencils, colored pencils, and jumbo sketch pencils.

SETUP

1. Unpack the sharpener and its accessories.
2. Place the sharpener on a stable, flat surface.
3. Connect the powerful 12V AC adapter to the sharpener's power input port and then plug it into a standard electrical outlet.

The Fastest Sharpening Speed Ever

OPERATING INSTRUCTIONS

1. Adjusting Pencil Point Sharpness

The sharpener features an adjustable dial to select your desired pencil point sharpness.

- Rotate the dial on the front of the sharpener to choose between a **Blunt** point or a **Sharp** point.

2 Adjustable Pencil Points

Image: Close-up of the AFMAT sharpener's dial for selecting between blunt and sharp pencil points, with visual examples of each.

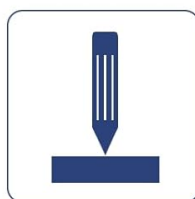

2. Sharpening a Pencil

1. Insert the pencil into the appropriate hole on the top of the sharpener. Ensure the pencil is inserted straight.
2. Apply gentle downward pressure. The sharpener will automatically start.
3. The sharpener will automatically stop when the pencil reaches the selected sharpness. This process typically takes about 3 seconds.
4. Remove the sharpened pencil.

Auto Stop at a Perfect Point

Automatically exclude
the broken lead

Auto stop
when finished

Image: The sharpener's auto-stop feature is shown, indicating it stops when sharpening is complete. It also highlights the automatic exclusion of broken lead.

The sharpener is designed to automatically exclude broken lead, preventing jams and ensuring consistent performance.

MAINTENANCE

1. Emptying the Shavings Receptacle

- Periodically check the transparent shavings receptacle.
- When full, unplug the sharpener.
- Carefully remove the top cover or receptacle to empty the pencil shavings into a waste bin.
- Replace the cover securely before using the sharpener again.

2. Cutter Care

The sharpener features a durable cutter designed for extended use, capable of approximately 8000 sharpenings.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Sharpener does not turn on.	Not plugged in; power outlet issue; adapter issue.	Check power connection; try a different outlet; ensure adapter is functioning.
Pencil not sharpening effectively.	Receptacle full; dull blade; incorrect pencil insertion.	Empty shavings receptacle; ensure pencil is inserted straight; contact support if blade is dull.
Sharpener stops unexpectedly.	Overheating; broken lead jam; auto-stop engaged.	Allow to cool down; check for and remove broken lead; this may be normal operation if pencil is sharp.

SPECIFICATIONS

- **Brand:** AFMAT
- **Model:** B0FJ25H2SH
- **Material Type:** Plastic
- **Compatible Pencil Diameters:** 6mm - 12mm
- **Power Input:** 12V AC Adapter
- **Features:** Auto-stop, Broken lead exclusion, Adjustable sharpness
