

IKT B0FJ2D9CCQ

IKT Self Cleaning Water Cooler Dispenser and Ice Maker User Manual

Model: B0FJ2D9CCQ

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation, installation, and maintenance of your IKT Self Cleaning Water Cooler Dispenser and Ice Maker. Please read all instructions carefully before use and retain this manual for future reference.

Your IKT dispenser offers convenient access to hot, cold, and room temperature water, along with an integrated ice maker. This bottom-loading unit is designed for ease of use and features a self-cleaning function and energy-saving mode.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Ensure the dispenser is placed on a level, stable surface.
- Do not operate the dispenser with a damaged cord or plug.
- Keep the dispenser away from direct sunlight and heat sources.
- Do not immerse the dispenser, cord, or plug in water or other liquids.
- Supervise children when they are near the dispenser, especially when dispensing hot water.
- Unplug the dispenser before cleaning or performing any maintenance.

SETUP AND INSTALLATION

1. **Unpacking:** Carefully remove the dispenser from its packaging. Inspect for any damage.
2. **Placement:** Place the dispenser on a flat, stable surface, ensuring adequate ventilation around the unit. Keep it away from walls to allow for proper airflow.
3. **Water Bottle Installation:**
This dispenser uses a bottom-loading system, eliminating the need for heavy lifting. It is compatible with standard 3-

5 gallon water bottles.

Image: The IKT water cooler dispenser illustrating its compatibility with standard 3-5 gallon water bottles and its overall dimensions (40.75 inches height, 12.2 inches width, 16.54 inches depth).

- Open the lower cabinet door.
 - Remove the cap from a new 3 or 5-gallon water bottle.
 - Insert the probe into the bottle opening.
 - Slide the bottle into the cabinet and close the door securely.
4. **Initial Priming:** Before plugging in the unit, ensure water has filled all internal tanks. Dispense water from all spouts (hot, cold, and room temperature) until water flows steadily. This removes air from the system.
5. **Power Connection:** Plug the dispenser into a grounded electrical outlet.

OPERATING INSTRUCTIONS

The control panel provides easy access to all functions.

Image: Close-up of the IKT water cooler dispenser's control panel, highlighting icons for child lock, hot water, fresh water (room temperature), cold water, ice making, low water volume alert, and energy saving mode.

Water Dispensing

- **Three Temperature Settings:** This dispenser offers crisp cold, cool (room temperature), and piping hot water. Press the corresponding button or lever for your desired temperature.
- **Child Safety Lock:** The hot water spout is equipped with a child safety lock. To dispense hot water, simultaneously press the safety lock and the hot water lever.
- **Empty Bottle Alert:** An indicator light on the control panel will illuminate when the water bottle is empty, signaling that it needs replacement.

Ice Making Function

The built-in ice maker produces bullet-shaped ice cubes.

9 Pcs
Ice Per Cycle

Image: A close-up of the IKT ice maker's internal components, illustrating the bullet-shaped ice cubes it produces, with text indicating a daily capacity of 22 lbs, fast ice making in 7 minutes, and 9 pieces of ice per cycle. Note: The unit does not keep ice frozen.

- To activate ice making, press the "Ice Making" button on the control panel.
- The dispenser can produce up to 22 lbs of ice daily and stores up to 0.88 lbs.
- **Important:** The unit does not keep ice frozen. Ice will melt if not used promptly.

Special Features

- **Energy Saving Mode (ECO):** Press the ECO button to activate energy-saving mode. In this mode, the machine will stop heating water at night to conserve energy.
- **Night Light:** A built-in nightlight illuminates the water spouts, making them visible in low-light conditions. The nightlight activates when dispensing water or ice.

MAINTENANCE AND CLEANING

Self-Cleaning Function

The dispenser features a self-cleaning function to maintain hygiene.

Image: The IKT water cooler dispenser with an overlay describing the self-cleaning process: "Press and hold the ice making button for 3 seconds to activate the self-cleaning function. It will shut off automatically after 10 mins."

- To activate, press and hold the ice-making button for 3 seconds.
- The indicator light will blink, and the power light will remain on.
- The machine will automatically shut off after 10 minutes, completing the self-cleaning cycle.

UV-Infused Cleaning Technology

The dispenser incorporates UV technology to enhance water purity.

UV-Infused Cleaning

 Echnology

Reduce sharmful con-
taminants in water and
tanks.

Improves taste of water.

Minimizes maintenance.

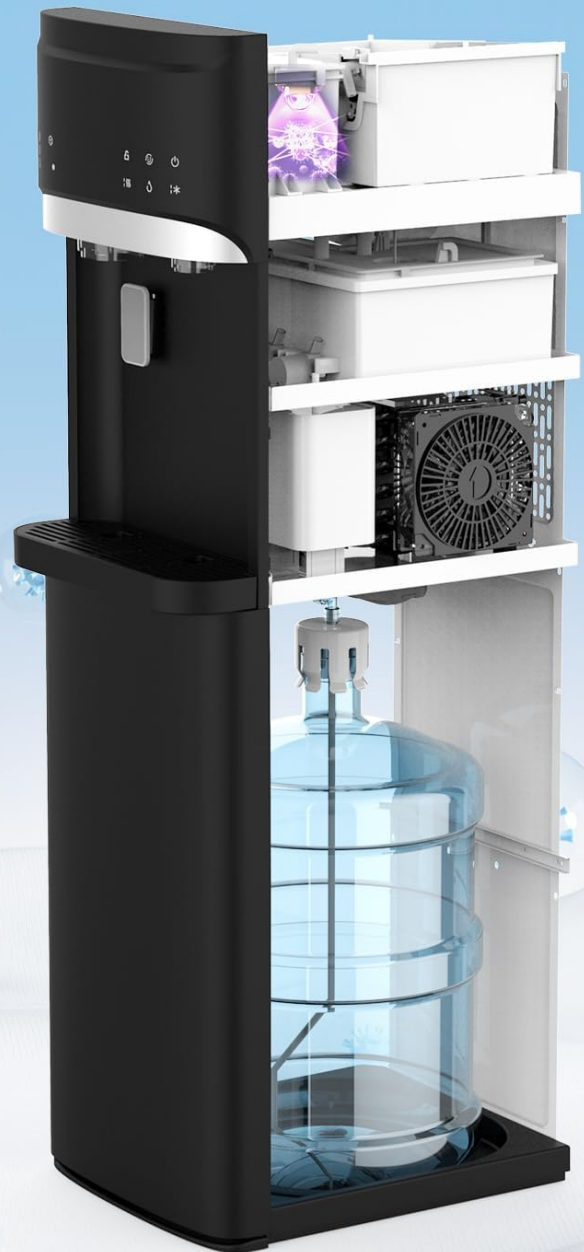

Image: Diagram illustrating the UV-infused cleaning technology within the IKT water cooler dispenser, showing a UV light purifying water.
Text highlights benefits: "Reduce harmful contaminants in water and tanks," "Improves taste of water," and "Minimizes maintenance."

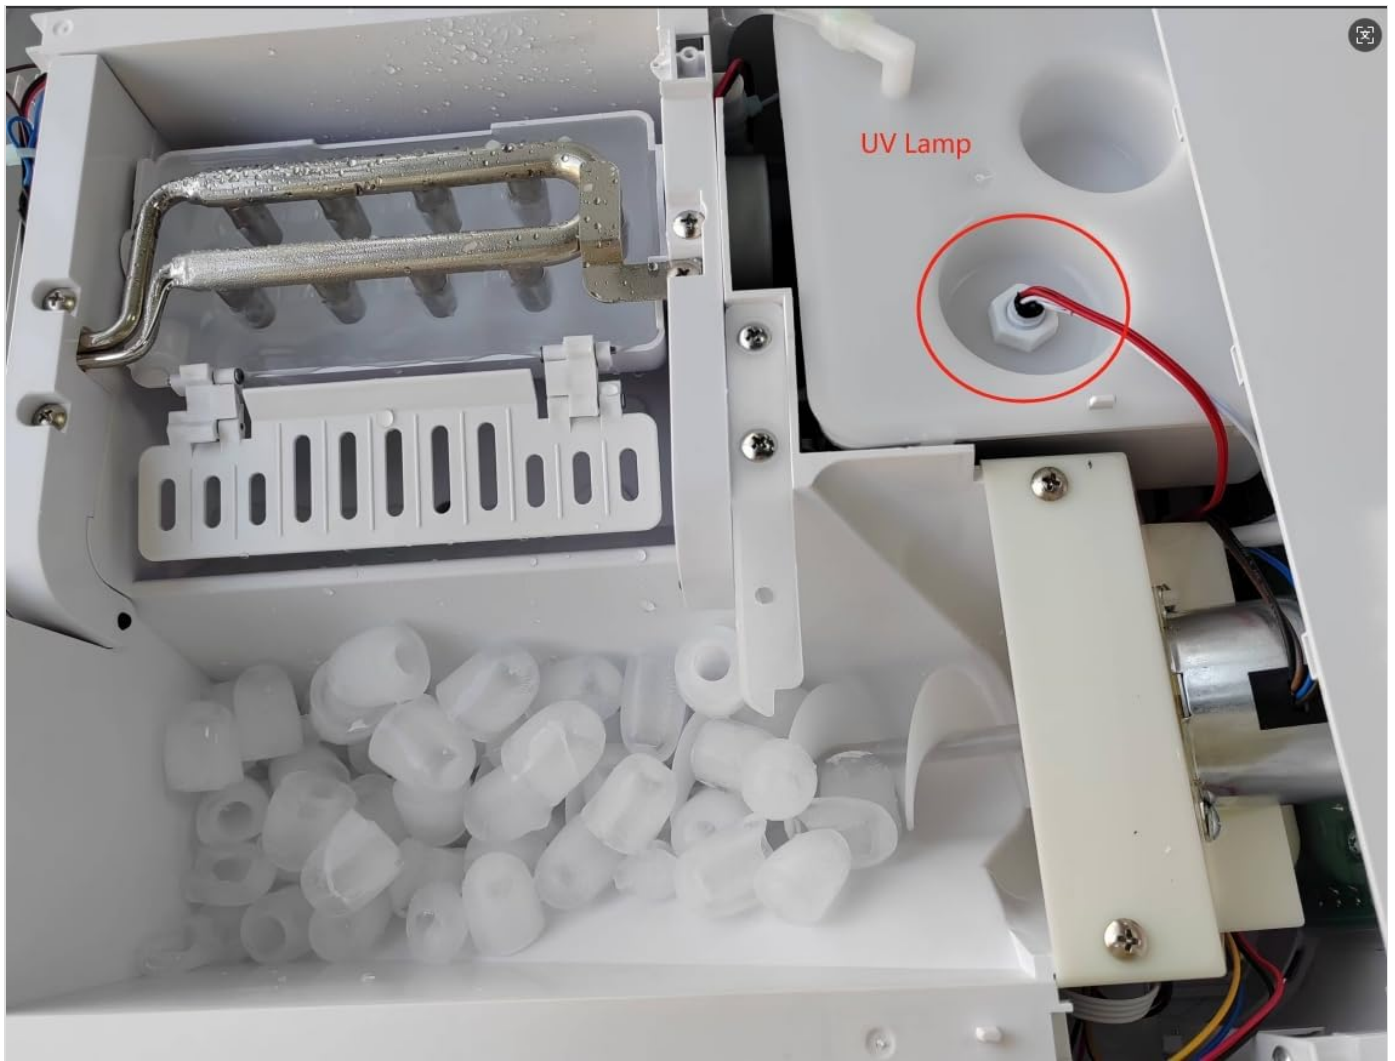

Image: An internal view of the IKT water cooler dispenser, clearly showing the location of the UV lamp, which is part of the purification system.

- UV technology helps reduce harmful contaminants in water and tanks.
- This process improves water taste and minimizes maintenance requirements.

General Cleaning

- **Exterior:** Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Drip Tray:** Regularly remove and empty the drip tray. Wash it with mild soap and water, then rinse and dry thoroughly before replacing.
- **Condenser Coils:** Periodically clean the condenser coils at the back of the unit with a brush or vacuum cleaner to ensure efficient operation.

TROUBLESHOOTING

Before contacting customer support, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution
No water dispensed	Empty water bottle; Air lock in system; Dispenser unplugged.	Replace water bottle; Prime the system by dispensing from all spouts; Ensure dispenser is plugged in and powered on.

Problem	Possible Cause	Solution
No cold water	Cold water switch off; Not enough time to cool; Compressor issue.	Ensure cold water switch is on; Allow 1-2 hours for initial cooling; Contact customer support if issue persists.
No hot water	Hot water switch off; Not enough time to heat; Heating element issue.	Ensure hot water switch is on; Allow 10-15 minutes for initial heating; Contact customer support if issue persists.
Ice maker not producing ice	Ice making function off; Low water level; Ambient temperature too high.	Activate ice making function; Ensure water bottle is full; Ensure dispenser is in a cool environment.
Water leakage	Improperly seated water bottle; Damaged water bottle; Internal leak.	Re-seat water bottle; Try a new water bottle; Unplug and contact customer support.
