KOSPET Braided Strap-Black

KOSPET 22mm Braided Strap User Manual

For Magic P10 R10 Smart Watch

Product Overview

This manual provides instructions for the KOSPET 22mm Braided Strap, designed specifically for KOSPET Magic P10 and R10 Smart Watches. This braided strap offers a comfortable and secure fit for daily wear.

Key Features:

- **Wristband width:** 22mm
- **Length:** 7.48 inches
- **Material:** Braided fabric with metal components
- **Compatibility:** Specifically designed for KOSPET Magic P10 and R10 Smart Watches.
- **Package Contents:** 1 x Braided strap (smartwatch not included).

Setup and Installation

Follow these steps to properly attach or detach the braided strap from your KOSPET Smart Watch.

Attaching the Strap:

1. **Identify Strap Ends:** Each end of the strap has a quick-release pin.
2. **Insert One Side:** Locate the lug on your smartwatch. Insert one end of the quick-release pin into the corresponding hole on the watch lug.
3. **Compress Pin:** Pull the small lever on the quick-release pin to compress it.
4. **Align and Release:** While holding the lever, align the other end of the pin with the opposite hole on the watch lug. Once aligned, release the lever to secure the pin in place.
5. **Verify Connection:** Gently pull on the strap to ensure it is securely attached to the watch. Repeat for the other side of the strap.

Detaching the Strap:

1. **Locate Quick-Release Pin:** Turn the watch over to access the quick-release pin on the underside of the strap.
2. **Compress Pin:** Pull the small lever on the quick-release pin to compress it inwards.
3. **Remove Strap:** While holding the lever, gently pull the strap away from the watch lug. The strap should detach easily.
4. **Repeat:** Repeat the process for the other side of the strap.

Operating and Adjustment

The KOSPET Braided Strap is designed for comfort and ease of use. Once attached, it can be adjusted to fit various wrist sizes.

- **Wearing:** Slide your hand through the loop of the strap and position the watch face on top of your wrist.
- **Adjustment:** The braided design allows for a snug yet flexible fit. The strap typically features a sliding buckle or a hook-and-loop fastener for fine-tuning the fit. Adjust until the watch is comfortable and secure, not too tight or too

loose.

- **Comfort:** Ensure the strap is not overly tight to prevent discomfort or restrict circulation. A proper fit allows for accurate heart rate monitoring if your smartwatch has this feature.

Maintenance and Care

Proper care will extend the life and maintain the appearance of your KOSPET Braided Strap.

- **Cleaning:**
  - For light dirt, wipe the strap with a soft, damp cloth.
  - For deeper cleaning, hand wash the strap with mild soap and cool water. Avoid harsh detergents or abrasive cleaners.
  - Rinse thoroughly to remove all soap residue.
- **Drying:** Allow the strap to air dry completely before reattaching it to your smartwatch or wearing it. Do not use direct heat sources like hair dryers, as this can damage the material.
- **Storage:** When not in use, store the strap in a clean, dry place away from direct sunlight and extreme temperatures.
- **Avoid Chemicals:** Keep the strap away from strong chemicals, solvents, and perfumes, which can degrade the material and color.

Troubleshooting

If you encounter issues with your KOSPET Braided Strap, refer to the following common solutions.

- **Strap Not Attaching Securely:**
  - Ensure the quick-release pin is fully compressed and properly aligned with the lug holes on the watch.
  - Verify that the strap is the correct 22mm width for your KOSPET Magic P10 or R10 Smart Watch.
  - Check for any obstructions in the lug holes or on the pin itself.
- **Discomfort During Wear:**
  - Adjust the strap to a looser setting. It should be snug but not constricting.
  - Ensure the strap is clean and dry, as moisture or debris can cause irritation.
  - If discomfort persists, consider taking breaks from wearing the watch or consulting a healthcare professional.
- **Strap Appears Worn or Damaged:**
  - Review the maintenance section to ensure proper care has been followed.
  - If the strap is significantly damaged, it may need to be replaced.
