VINGLI G57000733-3

VINGLI Pro Auto Pool Cleaner

INSTRUCTION MANUAL

Model: G57000733-3

[Contents](#) [Setup](#) [Introduction](#) [Safety Information](#) [Package](#)
[Operating](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. Introduction

This manual provides essential instructions for the safe and efficient operation, installation, and maintenance of your VINGLI Pro Auto Pool Cleaner, model G57000733-3. This automatic suction-side pool cleaner is designed to remove debris from both inground and above-ground pools, contributing to a cleaner and healthier swimming environment. Please read this manual thoroughly before using the product and retain it for future reference.

2. Safety Information

Always observe the following safety precautions to reduce the risk of injury or damage to the product.

- **Read all instructions:** Before operating the pool cleaner, ensure you have read and understood all instructions in this manual.
- **Supervision:** Do not allow children or individuals unfamiliar with these instructions to operate the pool cleaner.
- **Electrical Safety:** Ensure your pool pump system is properly grounded and meets all local electrical codes. Never operate the cleaner if the pump or electrical connections are damaged.
- **Chemicals:** Ensure pool water chemistry is balanced before operating the cleaner. High chemical levels can damage the cleaner's components.
- **Remove from Pool:** Always remove the pool cleaner from the pool before swimming or performing any maintenance on the pool or cleaner.
- **Hose Safety:** Keep the hose clear of sharp objects and avoid kinking. Ensure the hose does not pose a tripping hazard around the pool area.
- **Proper Use:** Use this product only for its intended purpose as described in this manual.

3. Package Contents

Verify that all components are present and undamaged upon opening the package. If any parts are missing or damaged, contact customer support.

- Hose Segments (12 segments, 3.3 ft each, totaling 40 ft)
- Hose Weight
- Flow Regulator Valve
- Various Hose Adapters and Connectors
- Instruction Manual (this document)

4. Setup

The VINGLI Pro Auto Pool Cleaner is designed for quick and easy setup, typically taking around 2 minutes. Follow these

steps for proper installation.

4.1 Assembling the Cleaner

1. Unpack all components from the box.
2. Ensure the cleaner's wheels are securely attached and can rotate freely.

4.2 Connecting the Hoses

1. Connect the individual hose segments together. The total hose length should be sufficient to reach all areas of your pool, plus an additional segment to allow the cleaner to reach the furthest point from the skimmer or dedicated suction line. The included 12 segments provide a total length of 40 feet.
2. Attach one end of the assembled hose to the cleaner unit's inlet.
3. Attach the other end of the hose to the provided flow regulator valve.
4. Connect the flow regulator valve to your pool's skimmer or a dedicated suction line. Ensure a tight seal to prevent air leaks.
5. Submerge the hose and cleaner in the pool to remove any trapped air before connecting to the skimmer/suction line. This helps prime the system.

x12
3.3FT each

Image: Close-up of the VINGLI Pro Auto Pool Cleaner's adjustable suction power valve. The image highlights the white valve with a blue cap, showing '+' and '-' indicators for increasing or decreasing suction.

5. Operating Instructions

Once the cleaner is assembled and connected, follow these steps to begin cleaning your pool.

5.1 Starting the Cleaner

1. Ensure the cleaner and hose are fully submerged in the pool water.
2. Turn on your pool pump. The cleaner will begin to move and collect debris.

5.2 Adjusting Suction Power

The cleaner features an adjustable suction power valve to optimize performance for different pool pumps and debris types.

- Rotate the valve on the hose connection to increase or decrease suction.
- **Increase suction:** If the cleaner moves too slowly or struggles to pick up heavier debris.

- **Decrease suction:** If the cleaner moves too quickly, gets stuck, or climbs too high on walls.

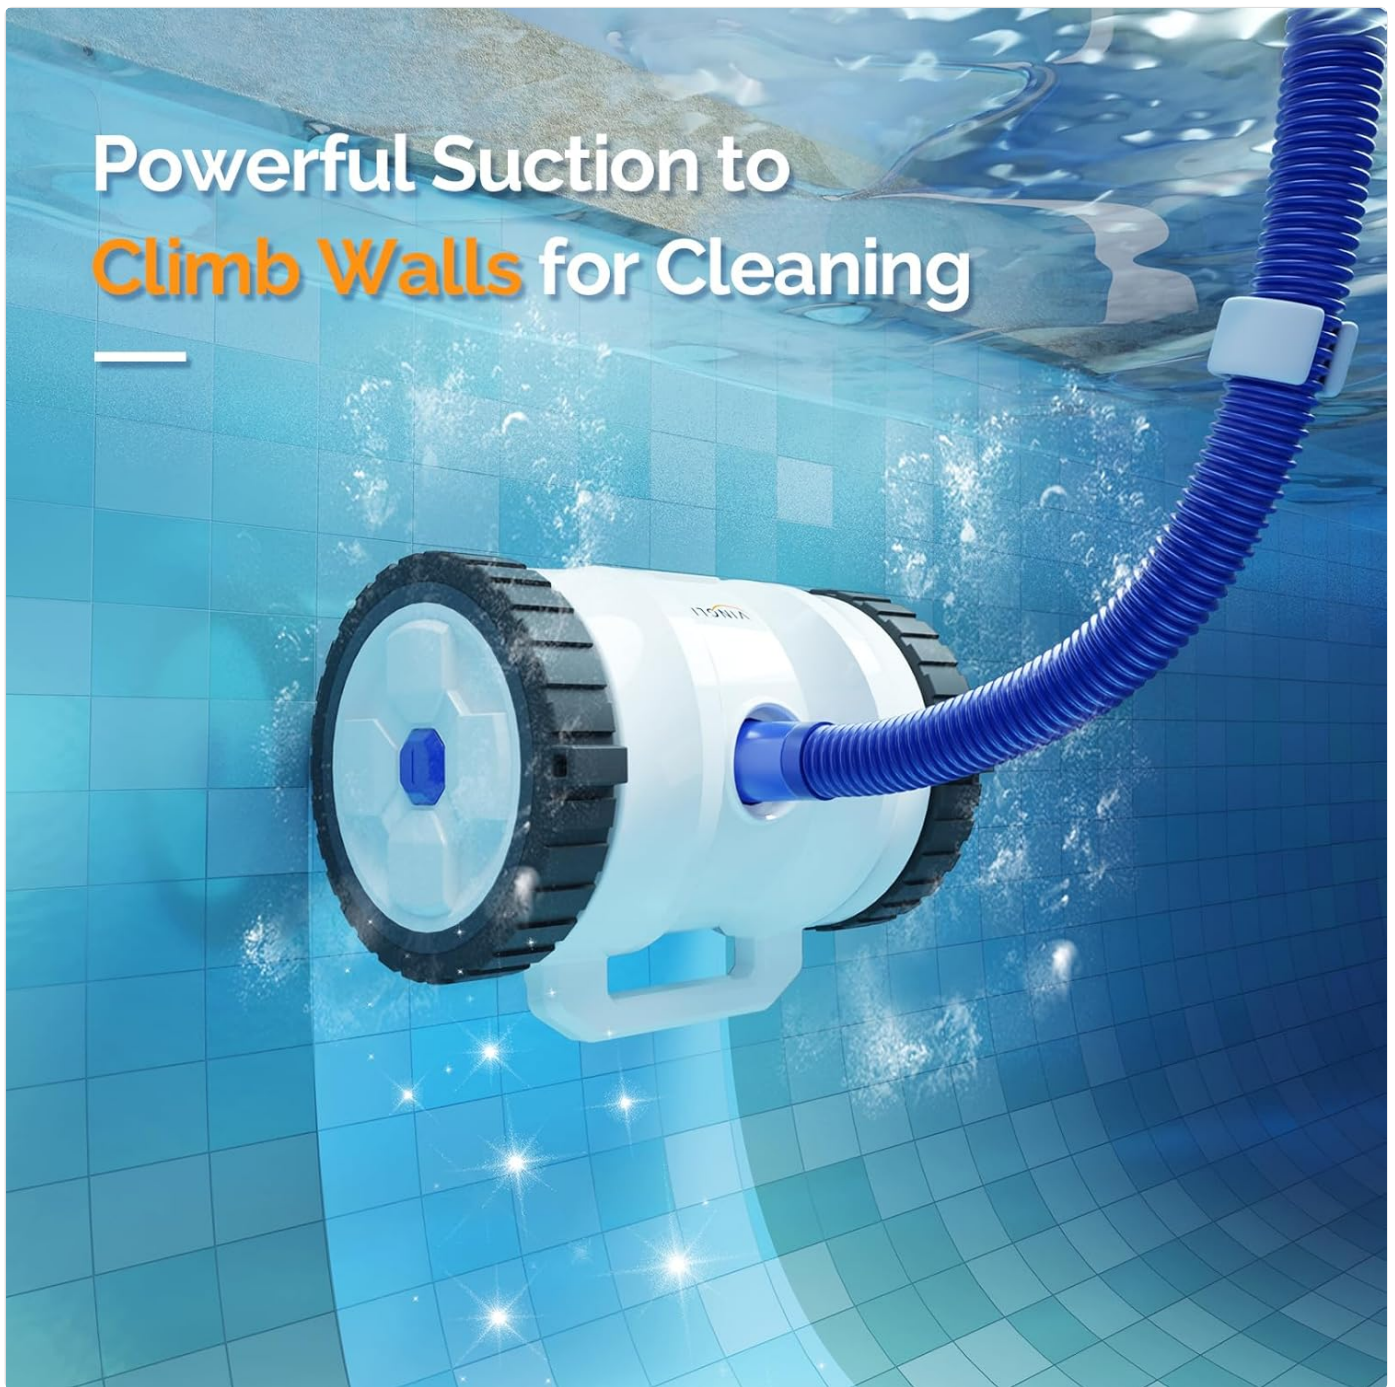

Image: The VINGLI Pro Auto Pool Cleaner actively cleaning a pool wall, demonstrating its powerful suction capability to climb and clean vertical surfaces. The blue hose is connected to the cleaner, which is positioned against the light blue tiled wall of the pool.

Powerful Suction

Clean all types of debris with easy

Image: The VINGLI Pro Auto Pool Cleaner positioned on the pool floor, illustrating its ability to clean various types of debris including twigs, bugs, sand, and algae. The cleaner is white and blue, with black wheels, and is shown in a clean pool environment.

5.3 Optimal Performance

- Ensure your pool filter is clean and your pump is operating at optimal pressure for best cleaning results.
- The cleaner is designed to navigate around obstacles and scale walls for comprehensive cleaning.
- For best results, run the cleaner for 2-4 hours or until the pool is clean.

6. Maintenance

Regular maintenance ensures the longevity and efficient operation of your VINGLI Pro Auto Pool Cleaner.

6.1 Cleaning the Cleaner

- After each use, remove the cleaner from the pool.
- Rinse the cleaner thoroughly with fresh water to remove any chlorine, chemicals, or debris.
- Inspect the wheels and internal components for any trapped debris and remove them.

6.2 Hose Care

- Inspect the hose segments regularly for cracks, punctures, or wear. Replace damaged segments as needed.
- Store the hose coiled in a shaded area when not in use to prevent UV damage and kinking.

6.3 Storage

- When storing the cleaner for extended periods, ensure it is clean and dry.
- Store the cleaner and hose in a cool, dry, and shaded location, away from direct sunlight and extreme temperatures.

7. Troubleshooting

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Cleaner is not moving or moving slowly.	<ul style="list-style-type: none">◦ Insufficient pump suction.◦ Air leak in the hose or connections.◦ Debris trapped in the cleaner.◦ Hose too long or too short.	<ul style="list-style-type: none">◦ Increase pump speed or adjust suction regulator.◦ Check all hose connections for tightness. Ensure hose is fully submerged.◦ Inspect cleaner for obstructions and remove.◦ Adjust hose length to match pool dimensions.
Cleaner gets stuck in one area.	<ul style="list-style-type: none">◦ Hose tangles or kinks.◦ Obstacles in the pool.◦ Improper suction adjustment.	<ul style="list-style-type: none">◦ Ensure hose is free of tangles.◦ Remove large toys or obstacles from the pool.◦ Adjust suction to allow for smoother movement.
Poor debris pickup.	<ul style="list-style-type: none">◦ Low suction power.◦ Clogged pool filter or skimmer basket.◦ Worn cleaner components.	<ul style="list-style-type: none">◦ Increase suction using the regulator.◦ Clean pool filter and skimmer basket.◦ Inspect cleaner for worn parts and replace if necessary.

8. Specifications

Technical specifications for the VINGLI Pro Auto Pool Cleaner, model G57000733-3.

Brand	VINGLI
Model Number	G57000733-3
Material	Plastic
Product Dimensions (L x W x H)	11.4"L x 7.7"W x 7.7"H
Item Weight	18.7 Pounds
Hose Length	12 Meters (approx. 40 feet, 12 segments)
Power Source	Pool Pump (Suction-side)
Control Method	Manual (via suction adjustment)
Installation Type	Suction Side
Assembly Time	2 Minutes
