

GHB ABM720

GHB ABM720 Baby Monitor Camera Instruction Manual

Model: ABM720

1. INTRODUCTION

Thank you for choosing the GHB ABM720 Baby Monitor Camera. This camera is designed to expand your existing GHB ABM720 Baby Monitor system. Please note that this product is an add-on camera and requires the GHB ABM720 monitor unit (not included) to function. It is not compatible with other baby monitor models.

For optimal performance and to avoid compatibility issues, please ensure your existing GHB ABM720 monitor unit's serial number (S/N) ends with the letter 'E'. If your S/N ends with 'ABCD' (e.g., S/N: 240702C), this camera is not compatible, and you should contact customer service for assistance.

2. PACKAGE CONTENTS

Before proceeding with the setup, please verify that all items are present in the package:

- GHB ABM720 Baby Monitor Camera
- Power Adapter
- Mounting Screws and Wall Plugs (for optional wall mounting)
- Instruction Manual (this document)

Image: Contents of the GHB ABM720 Baby Monitor Camera package, including the camera unit, power adapter, and mounting hardware.

3. SETUP

3.1 Compatibility Check

It is crucial to confirm the compatibility of your existing GHB ABM720 monitor unit before using this camera. Locate the serial number (S/N) on the back of your monitor unit. This camera is only compatible if the S/N ends with the

letter 'E'. If it ends with 'ABCD' (e.g., S/N: 240702C), this camera will not work with your monitor.

Uniquement disponible pour le modèle **GHB ABM720**

Non compatible avec d'autres modèles

GHB ABM720

Not compatible

Image: Visual representation of compatibility, highlighting that the camera is exclusively for the GHB ABM720 monitor unit.

3.2 Powering the Camera

1. Connect the small end of the power adapter cable to the power input port on the back of the camera.
2. Plug the other end of the power adapter into a standard electrical outlet.
3. The camera must always be connected to a power source to function. It does not contain an internal battery.

3.3 Placement and Mounting

Place the camera on a flat, stable surface such as a table or shelf, ensuring it has a clear view of the desired area. Alternatively, you can mount the camera to a wall using the provided screws and wall plugs. Ensure the camera is placed out of reach of children.

4. OPERATING INSTRUCTIONS

Once the camera is powered on and successfully paired with your GHB ABM720 monitor unit, you can utilize its features:

4.1 Pan and Tilt Functionality (PTZ)

The camera supports remote pan and tilt control via your GHB ABM720 monitor. You can rotate the camera:

- **Horizontally:** Up to 350 degrees
- **Vertically:** Up to 90 degrees

Refer to your GHB ABM720 monitor's manual for specific instructions on how to control the pan and tilt functions.

4.2 Two-Way Audio

The camera features a built-in microphone and speaker, enabling two-way audio communication. This allows you to hear sounds from the camera's location and speak back through the monitor unit.

4.3 Night Vision

The camera is equipped with automatic infrared night vision. In low-light conditions, the camera will automatically switch to night vision mode, providing a clear black and white image of the monitored area.

4.4 HD Resolution

The camera transmits video in 720p HD resolution, providing clear and detailed images on your compatible GHB ABM720 monitor.

5. MAINTENANCE

5.1 Cleaning

To clean the camera, gently wipe the surface with a soft, dry cloth. Do not use abrasive cleaners, solvents, or chemical agents, as these may damage the camera's finish or internal components.

5.2 Power Connection

Ensure the camera remains continuously connected to its power adapter for uninterrupted operation. Disconnecting the power will turn off the camera.

6. TROUBLESHOOTING

- **Camera not powering on:** Ensure the power adapter is securely connected to both the camera and a working electrical outlet.
- **No video/audio on monitor:**
 - Verify the camera is powered on.
 - Confirm the camera is correctly paired with your GHB ABM720 monitor unit. Refer to your monitor's manual for pairing instructions.

- Check for any obstructions between the camera and the monitor that might interfere with the wireless signal.
- **Incompatibility message:** If your monitor displays an incompatibility message, re-check the serial number (S/N) on your monitor. This camera is only compatible if the S/N ends with 'E'. If it ends with 'ABCD', it is not compatible.
- **PTZ control not working:** Ensure the camera is powered on and properly connected to the monitor. Refer to your monitor's manual for specific PTZ control operations.

If you encounter issues not covered here, or if troubleshooting steps do not resolve the problem, please contact GHB customer service for further assistance.

7. SPECIFICATIONS

Feature	Detail
Model Name	ABM720
