WARCAT W25-SCLB25-0824-2GY-0626

WARCAT Smart Electric Self-Cleaning Cat Litter Box

Model: W25-SCLB25-0824-2GY-0626 | **Brand:** WARCAT

1. Introduction

This manual provides comprehensive instructions for the safe and efficient use of your WARCAT Smart Electric Self-Cleaning Cat Litter Box. Please read this manual thoroughly before operating the device to ensure proper setup, functionality, and maintenance. Retain this manual for future reference.

The WARCAT Smart Electric Self-Cleaning Cat Litter Box is designed to automate the litter cleaning process, offering convenience and a hygienic environment for your feline companions. It features intelligent sensors, APP control, and an integrated air purification system.

2. Safety Information

Observe the following safety precautions to prevent injury or damage to the product:

- Ensure the litter box is placed on a stable, level surface.
- Do not immerse the main unit in water or other liquids.
- Keep children and pets away from moving parts during operation. The device includes a safety-pause function that halts cleaning cycles when a cat enters, but supervision is recommended.
- Use only the provided power adapter.
- Unplug the device before cleaning or performing maintenance.
- Do not attempt to repair or modify the device yourself. Contact customer support for assistance.
- This product is designed for indoor use only.

3. Package Contents

Verify that all items are present in the package:

- WARCAT Smart Electric Self-Cleaning Cat Litter Box (Main Unit)
- Power Adapter
- Litter Mat

- Garbage Bags (Roll)
- User Manual (This document)

4. Product Overview

Familiarize yourself with the components of your WARCAT Smart Electric Self-Cleaning Cat Litter Box.

Image 4.1: Diagram illustrating the dimensions of the WARCAT Smart Electric Self-Cleaning Cat Litter Box (21.06"L x 18.31"W x 26.42"H) and indicating its suitability for cats of various sizes.

Key Components:

- **Main Unit:** Houses the rotating drum, motor, and control systems.
- **Rotating Drum:** The area where the cat uses the litter box and where cleaning occurs.
- **Waste Drawer:** Located beneath the main unit, collects waste after cleaning cycles.
- **Control Panel:** Buttons and indicator lights on the front of the unit for manual operation.
- **Sensors:** Infrared and gravity sensors detect cat presence and usage.
- **Power Port:** Located at the rear for connecting the power adapter.

5. Setup

5.1 Unpacking and Placement

1. Carefully remove all components from the packaging.
2. Place the main unit on a firm, level surface in a well-ventilated area. Ensure there is enough space around the unit for proper operation and maintenance.
3. Position the included litter mat in front of the litter box entrance to help trap stray litter.

5.2 Installing Waste Bags

1. Pull out the waste drawer located at the bottom of the unit.
2. Line the waste drawer with one of the provided garbage bags, ensuring the edges are securely folded over the drawer's rim.
3. Slide the waste drawer back into the unit until it clicks into place.

5.3 Adding Cat Litter

1. Open the entrance of the rotating drum.
2. Pour clumping cat litter into the drum. Ensure the litter level is between the MIN and MAX fill lines indicated inside the drum. Do not overfill.
3. The WARCAT litter box is compatible with various types of clumping cat litter, including plant-based, bentonite, and mixed litters.

Image 5.3: The WARCAT litter box shown with examples of different clumping cat litter types it is compatible with, including plant-based, bentonite, mixed, and other clumping varieties.

5.4 Power Connection

1. Connect the power adapter to the power port on the back of the unit.
2. Plug the power adapter into a standard electrical outlet.
3. The unit will power on, and indicator lights may illuminate.

6. Operating Instructions

6.1 Automatic Cleaning Cycle

The WARCAT litter box is equipped with intelligent infrared and gravity sensors. After your cat uses the litter box and exits, the sensors will detect their departure. Following a preset delay (adjustable via the app), the automatic cleaning cycle will initiate. The rotating drum will sift the litter, separating clumps and depositing them into the waste drawer.

Safety Feature: If a cat approaches or enters the litter box during a cleaning cycle, the sensors will detect its presence, and the cleaning cycle will automatically pause to ensure the cat's safety. The cycle will resume once the cat has left the vicinity.

Image 6.1: The WARCAT litter box demonstrating its safety system, highlighting infrared sensors that halt operation upon sensing a cat and weight sensors that cease cleaning when weight is detected.

6.2 APP Control

For full control and advanced features, download the WARCAT app on your smartphone.

1. **Download the App:** Search for "WARCAT" in your device's app store (iOS or Android) and install it.
2. **Account Creation:** Open the app and follow the prompts to create a new user account or log in if you already have one.
3. **Device Pairing:** Follow the in-app instructions to pair your WARCAT Smart Electric Self-Cleaning Cat Litter Box with your smartphone. Ensure your phone's Bluetooth and Wi-Fi (2.4GHz) are enabled.
4. **App Features:**

- **Customize Cleaning Modes:** Adjust cleaning schedules and delays based on your cat's routine.
- **Real-time Alerts:** Receive notifications for low litter levels, full waste drawer, or potential clogs.
- **Usage Analytics:** Access detailed data on your cat's usage frequency, weight, and time spent, which can help monitor their health.
- **Manual Cleaning:** Initiate a cleaning cycle remotely.
- **Deodorization Control:** Manage the integrated air purification system.

6.3 Integrated Air Purification System

The litter box features an integrated air purification system to help eliminate odors from the cat litter area. This system can be controlled and scheduled via the WARCAT app.

Image 6.3: A woman holding a cat next to the WARCAT litter box, with graphics indicating an integrated air purification system eliminating odors.

7. Maintenance

7.1 Emptying the Waste Drawer

1. The app will notify you when the waste drawer is full.
2. Pull out the waste drawer from the bottom of the unit.
3. Carefully tie off the full garbage bag and dispose of it according to local regulations.
4. Clean the waste drawer with a mild detergent and water if necessary, then dry thoroughly.
5. Line the drawer with a new garbage bag and slide it back into the unit.

7.2 Cleaning the Litter Box

Regular cleaning ensures optimal performance and hygiene.

1. Unplug the litter box from the power outlet.
2. Remove all litter from the rotating drum.
3. Wipe down the interior and exterior surfaces of the main unit and rotating drum with a damp cloth and a pet-safe cleaning solution. Avoid getting water into electronic components.
4. Allow all parts to dry completely before reassembling and plugging the unit back in.

7.3 Cleaning the Litter Mat

Shake off trapped litter from the mat. For deeper cleaning, rinse the mat with water and mild soap, then allow it to air dry.

8. Troubleshooting

If you encounter issues with your WARCAT Smart Electric Self-Cleaning Cat Litter Box, refer to the following table:

Problem	Possible Cause	Solution
Unit not powering on	Power adapter not connected; Power outlet malfunction	Ensure power adapter is securely plugged in; Try a different outlet.
Cleaning cycle not starting	Cat still in or near the box; Waste drawer full; Litter level too low/high	Wait for cat to leave; Empty waste drawer; Adjust litter level; Check app for error messages.
App not connecting to device	Bluetooth/Wi-Fi off; Incorrect pairing; Device too far from router	Ensure Bluetooth/Wi-Fi is on; Re-attempt pairing process; Move device closer to router.
Unpleasant odors persist	Waste drawer needs emptying; Air purification system off; Litter type not effective	Empty waste drawer more frequently; Activate air purification via app; Consider a different clumping litter.

If the problem persists after trying these solutions, please contact WARCAT customer support.

9. Specifications

Model Name	Self Cleaning Litter Box, Automatic Cat Litter Box Self Cleaning Supporting 2.4GHz Wi-Fi for Multiple Cats
Model Number	W25-SCLB25-0824-2GY-0626
Brand	WARCAT
Dimensions (L x W x H)	21.06" x 18.31" x 26.42"
Item Weight	19.84 pounds
Material	Plastic
Color	White
Litter Box Type	Automated Self-Cleaning Litter Box
Connectivity	2.4GHz Wi-Fi
Intended Use	Indoor

10. Warranty and Support

10.1 Warranty Information

The WARCAT Smart Electric Self-Cleaning Cat Litter Box comes with a**1-Year Limited Warranty** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. It does not cover damage caused by misuse, accidents, unauthorized modifications, or failure to follow the instructions in this manual.

Please retain your proof of purchase for warranty claims.

10.2 Customer Support

For technical assistance, troubleshooting, or warranty inquiries, please contact WARCAT customer support. Refer to the product packaging or the official WARCAT website for the most current contact information.
When contacting support, please have your model number (W25-SCLB25-0824-2GY-0626) and purchase date available.
