## Molatink MDV-EBTWIN

# Molatink Electric Blanket Twin 62"X84" Heated Blanket

Model: MDV-EBTWIN

## INTRODUCTION

---

Thank you for choosing the Molatink Electric Blanket. This manual provides essential information for the safe and efficient operation, care, and maintenance of your new heated blanket. Please read all instructions carefully before use and retain this manual for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

---

To reduce the risk of burns, electric shock, fire, or injury, this product must be used in accordance with the following instructions:

- Read all instructions before using this blanket.
- Do not use with an infant, child, incapacitated person, or anyone insensitive to heat.
- Do not use on areas of insensitive skin.
- Do not use in conjunction with another heating pad or blanket.
- Do not use if wet.
- Do not fold, bunch, or wad the blanket while in use. This can cause overheating.
- Keep the control unit away from drafts or open windows to prevent it from getting wet.
- Always unplug the blanket when not in use.
- This blanket is equipped with ETL certification and overheat protection for enhanced safety.
- Do not use pins or other metallic objects with this blanket.
- Do not dry clean. Dry cleaning solvents may damage the insulation of the heating element.

## PACKAGE CONTENTS

---

Verify that all components are present:

- 1 x Molatink Electric Blanket (Twin 62" x 84")
- 1 x Detachable Controller with Power Cord

## SETUP

1. **Unpack:** Carefully remove the electric blanket and controller from its packaging.
2. **Inspect:** Check the blanket and power cord for any signs of damage. Do not use if damaged.
3. **Connect Controller:** Locate the connector on the blanket and firmly plug the controller cord into it. Ensure a secure connection.
4. **Position Blanket:** Lay the blanket flat on your bed or desired surface. Ensure there are no folds, creases, or bunched areas. The long cord allows for flexible placement.
5. **Plug In:** Plug the power cord from the controller into a standard 120V AC electrical outlet.

## OPERATING INSTRUCTIONS

Your Molatink Electric Blanket features a user-friendly controller for adjusting heat and setting a timer.

The user-friendly controller allows for easy adjustment of the blanket's 5 heat settings and features a convenient 10-hour automatic shut-off timer for safety and energy saving.

1. **Power On/Off:** Press the power button on the controller to turn the blanket on or off. The indicator light will illuminate when the blanket is active.
2. **Adjust Heat Settings:** Press the heat level button to cycle through the 5 available heat settings. The

corresponding indicator light will show the selected level.

3. **Automatic Shut-off Timer:** The blanket features a 10-hour automatic shut-off timer for safety. After 10 hours of continuous operation, the blanket will automatically turn off. To restart, simply turn the blanket off and then on again.

## CARE AND MAINTENANCE

---

Proper care ensures the longevity and performance of your electric blanket.

For convenient cleaning, the Molatink electric blanket is machine washable. Always remove the controller before washing.

### Washing Instructions:

1. **Disconnect:** Always unplug the power cord from the wall outlet and detach the controller from the blanket before washing.
2. **Pre-soak (Optional):** For heavily soiled blankets, pre-soak for 15 minutes in cool water with a small amount of mild detergent.
3. **Machine Wash:** Machine wash on a gentle or delicate cycle in cool water (maximum 30°C / 86°F). Do not bleach.
4. **Rinse:** Rinse on a normal cycle.
5. **Gentle Dry:** Tumble dry on low heat or air dry. Ensure the blanket is completely dry before reconnecting the

controller or storing. Do not iron.

## Storage:

When not in use, store the blanket in a cool, dry place. Avoid folding it tightly or placing heavy objects on top, which could damage the internal wiring.

## TROUBLESHOOTING

---

If you experience issues with your electric blanket, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blanket not heating	Power cord not plugged in; Controller not securely connected; Power outage; Blanket folded/bunched.	Ensure power cord is fully plugged into outlet; Reconnect controller firmly to blanket; Check household circuit breaker; Unfold and flatten blanket.
Controller lights not working	No power to the unit; Faulty controller.	Verify power connection; If problem persists, contact customer support.
Blanket too hot/cold	Incorrect heat setting selected.	Adjust heat setting using the controller to your desired comfort level.

If troubleshooting steps do not resolve the issue, please contact Molatink customer support.
