

## Olayks OLK-D01

# Olayks OLK-D01 6-in-1 Automatic Nut Milk Maker Blender Instruction Manual

Model: OLK-D01

## 1. PRODUCT OVERVIEW

---

The Olayks OLK-D01 is a versatile 6-in-1 automatic nut milk maker and blender designed for preparing various plant-based milks and beverages. It features multiple functions including making soy milk, milkshakes, rice paste, nut milk, oat milk, boiling water, self-cleaning, and an 18-hour delay start timer. Its compact design and one-touch operation make it suitable for daily use.

### Oat Milk

---

3-4 spoons rolled oats

Water  
(Add according to your needs, do not exceed the Max water.)

1-2 tbsp maple syrup

2 chopped, pitted dates

## 2. SAFETY INSTRUCTIONS

---

- Read all instructions before use.
- Ensure the lid is properly aligned with the handle to lock it. Failure to do so may result in an E2 or E4 error and prevent operation.

- Do not immerse the main unit in water or other liquids.
- Keep out of reach of children.
- Always unplug the appliance when not in use and before cleaning.
- This appliance features overheat prevention and automatic shut-off for safe operation.
- Do not operate the appliance with a damaged cord or plug.
- Use only manufacturer-recommended attachments.

## 3. SETUP

---

### 3.1 Unboxing and Components

Carefully remove all components from the packaging. The package includes:

- Automatic Nut Milk Maker Machine
- Micron Filter Bag
- Cleaning Brush
- Measuring Cup
- Sieve
- User Manual (this document)

### 3.2 Initial Cleaning

Before first use, clean all removable parts that will come into contact with food. Use warm, soapy water for the glass container, lid, and sieve. Wipe the main unit with a damp cloth. Ensure all parts are completely dry before assembly.

### 3.3 Assembly

1. Place the glass container onto the main unit, ensuring it is seated correctly.
2. Add your desired ingredients and water to the glass container. Do not exceed the maximum fill line.
3. Place the lid onto the glass container and rotate it until it aligns with the handle and locks securely.
4. Plug the power cable into a suitable electrical outlet.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Control Panel Overview

The control panel features a digital display and touch controls for various functions:

- **Delay Start:** Sets a delayed start time up to 18 hours.
- **Soy Milk:** For making homemade soy milk.
- **Milk Shake:** For blending milkshakes.
- **Boil Water:** For heating water.
- **Rice Paste:** For preparing rice paste.
- **Nut Milk:** For making various nut milks (almond, cashew, etc.).
- **Oat Milk:** For preparing oat milk.
- **Clean:** Activates the self-cleaning function.
- **Menu/Cancel:** Selects functions or cancels current operation.

Image: Close-up of the control panel, illustrating the one-touch operation and various function selections.

### 4.2 Basic Operation

1. Add ingredients and water to the glass container (refer to recipes for ratios).
2. Secure the lid.
3. Press the **Menu/Cancel** button to cycle through the available functions.
4. Once the desired function is selected, the machine will start automatically after a short pause, or you can press the

button again to confirm.

5. A beep will indicate the program end.

### 4.3 Delay Start Function

To use the delay start function:

1. Add ingredients and water to the container.
2. Press the **Delay Start** button.
3. Use the **Menu/Cancel** button to adjust the delay time (up to 18 hours).
4. Confirm the setting, and the machine will begin operation after the set delay.

### 4.4 Recipes

Here are some basic recipes to get started:

#### Soy Milk

Image: Soy milk recipe showing soybeans, water, maple syrup, and vanilla extract, alongside a glass of finished soy milk.

- 3 spoons of soybeans
- 1-2 cups of water (do not exceed Max water line)
- 1-2 tbsp maple syrup (optional)
- 1 tsp vanilla extract (optional)

#### Almond Milk

Image: Almond milk recipe showing almonds, dates, water, and maple syrup, alongside glasses of finished almond milk.

- 3-4 spoons of almonds
- 1-2 chopped, pitted dates (optional)
- Water (add according to your needs, do not exceed Max water line)
- 1 tbsp maple syrup (optional)

## Oat Milk

Image: Oat milk recipe showing rolled oats, water, maple syrup, and dates, alongside a glass of finished oat milk.

- 3-4 spoons rolled oats
- 1-2 tbsp maple syrup (optional)
- 2 chopped, pitted dates (optional)
- Water (add according to your needs, do not exceed Max water line)

## 5. MAINTENANCE

---

### 5.1 Self-Cleaning Function

The appliance features an automatic high-temperature self-cleaning function:

1. After use, empty the container and add clean water up to the 'Clean' mark.
2. Secure the lid.
3. Select the **Clean** function on the control panel.
4. The cleaning cycle takes approximately 8 minutes.
5. Once complete, discard the water and rinse the container.

# 12-BLADES DESIGN

## NON-STICK COATING

**olayks.**

- ✔ **Non-Stick Coating**  
Prevents sticking and rusting.
- ✔ **12-Blades Design**  
Make your plant-based milk more smooth and cream.

**Others**

- ✘ **Stainless Steel Bottom**  
Rusts easily and is difficult to clean.
- ✘ **4-Blades Design**  
Blending is uneven and grainy.

## 5.2 Manual Cleaning

- Always unplug the appliance before manual cleaning.
- Use the provided cleaning brush to remove any residue from the blades and interior of the container.
- Wash the glass container, lid, and sieve with warm, soapy water.
- Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.
- The item is **not** dishwasher safe.

- Ensure all parts are thoroughly dried before storage.

## 6. TROUBLESHOOTING

---

If you encounter issues, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not start / E2 or E4 error displayed	Lid is not properly aligned or secured.	Ensure the protrusion of the cap is aligned with the handle and the lid is fully locked.
Motor stops during operation	Overheat protection activated.	Unplug the appliance and allow it to cool down for at least 15-20 minutes before restarting. Reduce ingredient load if consistently overheating.
Milk is not smooth enough	Insufficient blending time or too many ingredients.	Ensure ingredients are within recommended quantities. Run the cycle again if needed, or use the micron filter bag for extra smoothness.
Appliance beeps continuously	Program has ended.	This is normal operation. Press the Menu/Cancel button to stop the beeping.

## 7. SPECIFICATIONS

---
