TROUBLESHOOTING

- **Device not turning on:** Ensure the battery is charged. Connect to a power source and try again. If unresponsive, perform a hard reset by pressing and holding the power button for 10-15 seconds.
- **Cannot connect to Bluetooth:** Ensure Bluetooth is enabled on both the MP3 player and the target device. Make sure both devices are within range and not paired with other devices. Try restarting both devices.
- **Files not appearing on the player:** Verify that the TF card is properly inserted and formatted to FAT32. Ensure the audio files are in a supported format (MP3/OGG/FLAC/AAC/WMA/WAV/APE). Try re-transferring the files.
- **Slow file transfer speed:** Transfer speeds can vary depending on the computer's USB port and the TF card's speed. Ensure you are using the provided USB cable.
- **FM Radio not working:** Ensure wired headphones are securely plugged into the 3.5mm audio jack, as they function as the antenna.
- **Screen unresponsive:** If the screen is unresponsive, try restarting the device. If the issue persists, ensure the screen protector is applied correctly and not interfering with touch sensitivity.
