Hikity 4+128GB Android 15 Car Radio Instruction Manual

Model: A7878A4294H6MI2-63EU

1. PRODUCT OVERVIEW

This manual provides detailed instructions for the installation, operation, and maintenance of your Hikity 4+128GB Android 15 Car Radio. Designed for Citroen Berlingo B9 (2008-2017) and Peugeot Partner (2008-2019) vehicles, this car radio features a 9-inch In-Cell touchscreen, wireless CarPlay and Android Auto, Bluetooth 5.0, integrated GPS, Wi-Fi, FM/RDS tuner, and steering wheel control compatibility.

The unit offers 4GB RAM and 128GB internal storage for smooth performance and ample space for applications. It is equipped with a high-definition display for clear visuals and an intuitive user interface.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1 x Radio Housing
- 1 x Original USB Cable
- 1 x Radio Antenna
- 1 x Canbus Decoder
- 1 x Installation Tool
- 1 x Car Radio Unit
- 2 x Power Cables
- 1 x GPS Antenna
- 1 x Rear Camera
- 1 x Rear Camera Input Cable
- 1 x RCA Cable
- 2 x USB Cables
- 2 x Mounting Brackets
- 1 x Microphone
- 1 x User Manual

Product Size & Package List

The diagram shows the product dimensions and a list of included accessories. The front view of the device is 232mm (9.1 inch) wide and 222mm (8.7 inch) high, with a 9-inch diagonal screen. The back view shows a depth of 134mm (5.2 inch) and five numbered callouts (1-5) pointing to specific components on the rear panel.

Dimensions:
 Top: 232mm/9.1inch
 Right: 134mm/5.2inch
 Bottom: 222mm/8.7inch

Accessories:

- 1 Power Cable
- 2 RCA Cable
- 3 USB Cable
- 4 Camera Input
- 5 GPS Antenna

3. INSTALLATION GUIDE

3.1 Vehicle Compatibility

This car radio is specifically designed for Citroen Berlingo B9 (2008-2017) and Peugeot Partner (2008-2019) models. Please confirm that your vehicle's center console matches the compatible models shown in the image below before proceeding with installation. If your console differs, contact customer service for guidance.

Car Models Attention

Please confirm the model of your original vehicle's center console before purchasing. Our products are only compatible with model A. If your vehicle's center console does not match these models, please contact the customer service for recommendations.

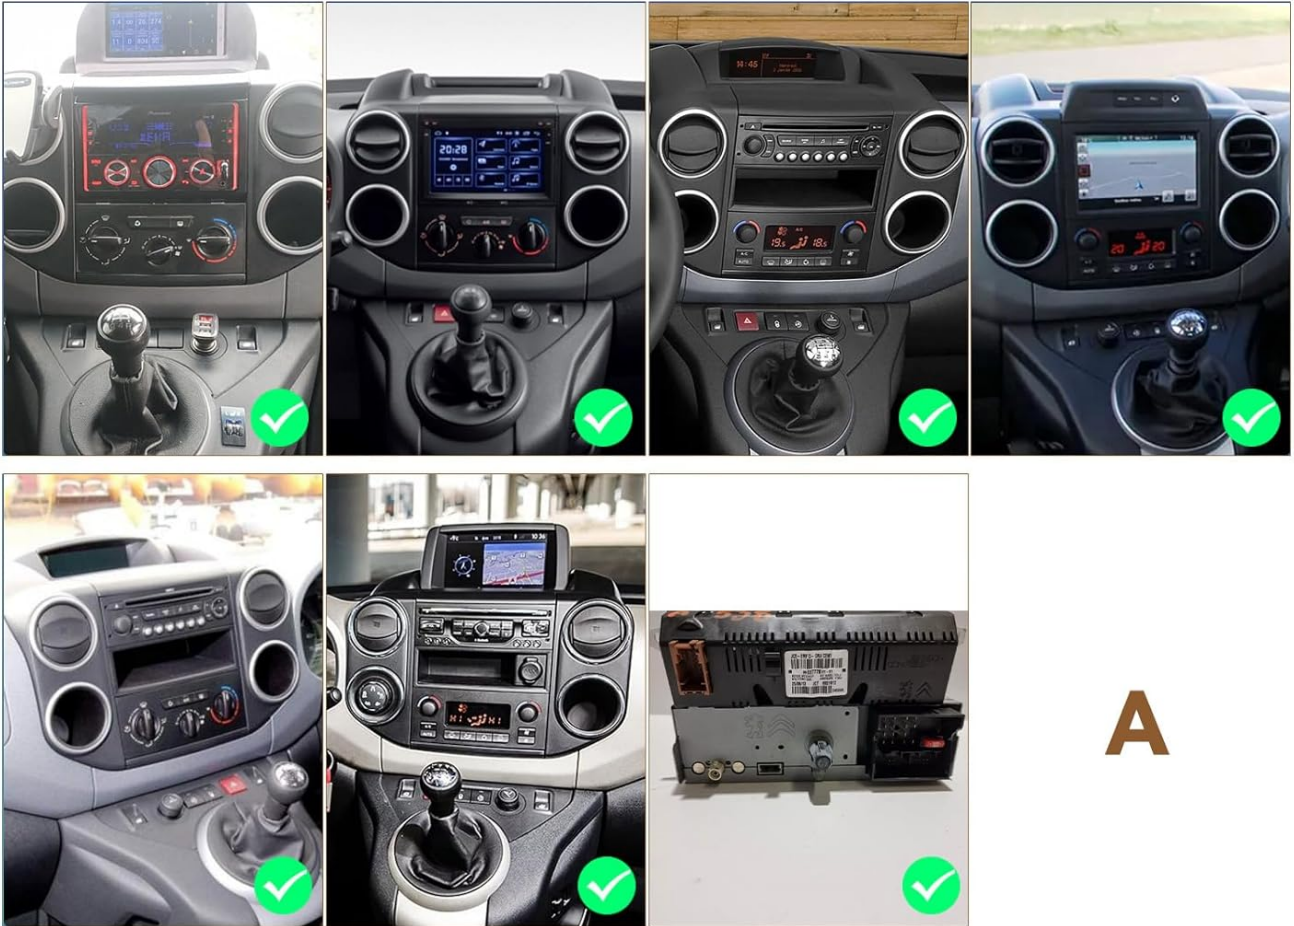

Figure 3.1: Compatible vehicle center console types.

3.2 Pre-Installation Steps

1. Disconnect the vehicle's battery to prevent electrical shorts.
2. Carefully remove the original car radio and trim panels using the provided installation tool.
3. Identify the wiring harnesses from your vehicle.

3.3 Wiring Connections

Connect the provided cables to the corresponding ports on the Hikity car radio and your vehicle's wiring harness. Refer to the wiring diagram in the included user manual for specific connections. Key connections include:

- **Power Cables:** Connect to the vehicle's power supply.
- **RCA Cable:** For audio/video input/output.
- **USB Cables:** For external USB devices and data transfer.
- **Camera Input Cable:** For connecting the rear camera.

- **GPS Antenna:** Mount in a location with a clear view of the sky.
- **Radio Antenna:** Connect for FM/RDS reception.
- **Canbus Decoder:** Connect for steering wheel control and vehicle data integration.
- **Microphone:** Connect the external microphone for hands-free calling.

For Citroen Berlingo B9 2008-2017 Peugeot Partner 2008-2019

Figure 3.2: Visual comparison of the dashboard before and after installing the Hikity car radio.

3.4 Mounting the Unit

1. Secure the car radio into the dashboard opening using the provided mounting brackets.
2. Reinstall the trim panels.
3. Reconnect the vehicle's battery.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off and Basic Navigation

- **Power On:** Turn the vehicle ignition to ACC or ON. The unit will power on automatically.
- **Power Off:** Turn the vehicle ignition to OFF. The unit will power off.
- **Touchscreen:** Navigate the interface by tapping, swiping, and pinching on the 9-inch In-Cell touchscreen.

1280P INCELL FULL SCREEN

Adopting a touch display integrated screen makes the screen thinner and the display brighter.

4.2 Wireless CarPlay and Android Auto

The unit supports wireless CarPlay for iOS devices and wireless Android Auto for Android devices, allowing seamless integration of your smartphone's features onto the car radio display.

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
2. On the car radio, open the "CarPlay" or "Android Auto" application.
3. Follow the on-screen prompts to pair your phone via Bluetooth. Once paired, the system will automatically establish a Wi-Fi connection for wireless CarPlay/Android Auto.
4. You can now access navigation, music, calls, and messages directly from the car radio screen.

Wireless Carplay & Android Auto & Mirror Link

4.3 Bluetooth Hands-Free Calling and Music

Connect your smartphone via Bluetooth 5.0 for hands-free calls and audio streaming.

1. Go to the Bluetooth settings on the car radio.
2. Enable Bluetooth on your smartphone and search for available devices.
3. Select "Hikity Car Radio" (or similar name) from your phone's list and pair.
4. Once connected, you can make/receive calls and play music through the car's speakers.

Bluetooth 5.0

Figure 4.3: Bluetooth, Wi-Fi, GPS, and Equalizer features.

4.4 GPS Navigation

The integrated GPS module provides reliable navigation. You can use pre-installed maps or download online maps via Wi-Fi.

- Open the Navigation application from the main menu.
- Enter your destination. The system will calculate the route and provide turn-by-turn directions.
- Online maps support real-time traffic updates when connected to Wi-Fi.

4.5 FM/RDS Radio

Access FM radio stations with RDS (Radio Data System) for station information.

- Select the "Radio" application.
- Use the scan function to find available stations or manually tune to a frequency.
- RDS provides information such as station name and program type.

4.6 Steering Wheel Control (SWC)

The unit supports your vehicle's original steering wheel controls for convenient operation.

1. Access the "Steering Wheel Control" settings in the system menu.
2. Follow the on-screen instructions to program each button on your steering wheel to its corresponding function (e.g., volume up/down, next/previous track, answer/end call).
3. Save the settings once configuration is complete.

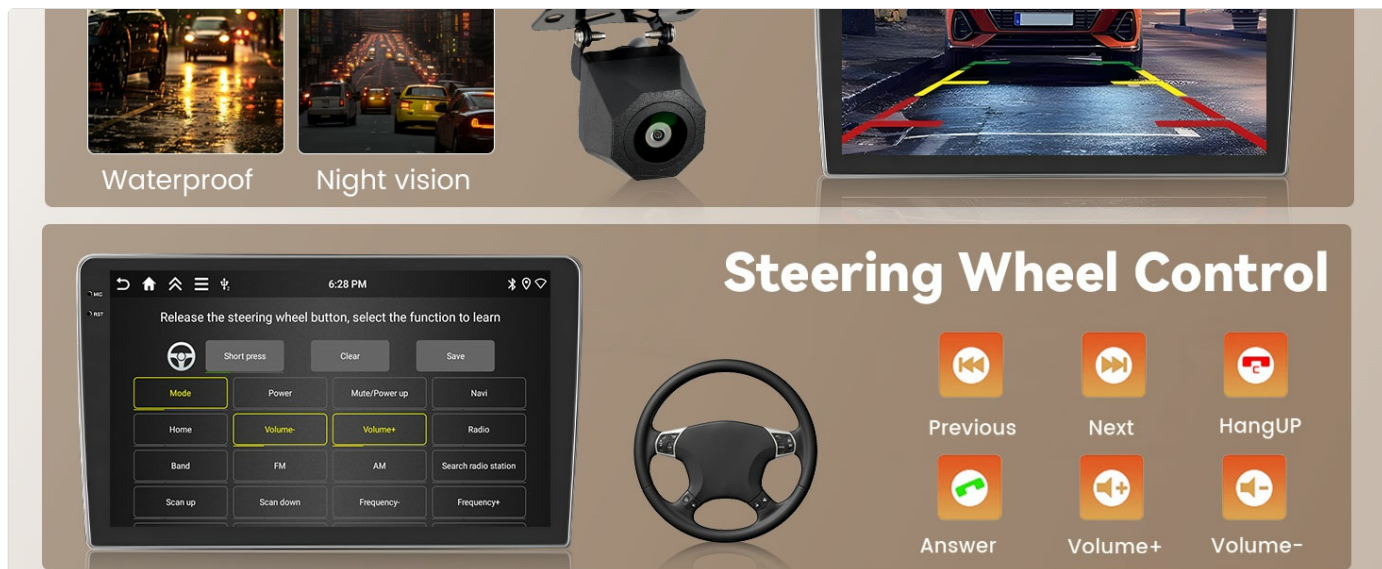

Figure 4.4: Steering Wheel Control configuration interface.

4.7 Backup Camera

When the vehicle is shifted into reverse gear, the display will automatically switch to the rear camera view, assisting with parking and maneuvering.

Figure 4.5: Backup camera, radio, and other advanced features.

4.8 Split-Screen Functionality

The split-screen feature allows you to run two applications simultaneously on the display, such as navigation and music playback.

- While an application is open, long-press the recent apps button or drag from the side (depending on the Android version) to activate split-screen mode.
- Select a second application to display alongside the first.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Hikity car radio, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or solvents that could damage the display.

- **Software Updates:** Periodically check for available software updates through the system settings to ensure you have the latest features and performance improvements.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

6. TROUBLESHOOTING

If you encounter issues with your car radio, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Unit does not power on.	Loose power connection, blown fuse, vehicle battery issue.	Check power cable connections. Inspect vehicle fuses. Ensure vehicle battery is charged.
No sound.	Volume too low, incorrect audio source, speaker wiring issue.	Increase volume. Select correct audio source. Check speaker connections.
Wireless CarPlay/Android Auto not connecting.	Bluetooth/Wi-Fi off on phone, incorrect pairing, software glitch.	Ensure phone's Bluetooth and Wi-Fi are on. Re-pair the device. Restart both phone and car radio.
Backup camera not displaying.	Loose camera connection, faulty camera, incorrect wiring.	Check the camera input cable connection. Verify camera functionality. Ensure reverse trigger wire is correctly connected.
Steering wheel controls not working.	Canbus not connected, incorrect programming.	Ensure Canbus decoder is correctly installed. Re-program the steering wheel controls in settings.

If the problem persists after attempting these solutions, please contact Hikity customer support for further assistance.
