PAPIFEED MAOER-BUTTON

PAPIFEED Automatic Cat Feeder MAOER-BUTTON Instruction Manual

Model: MAOER-BUTTON

1. INTRODUCTION

The PAPIFEED Automatic Cat Feeder is designed to provide scheduled and controlled feeding for your cats and small dogs. Featuring 2.4G WiFi connectivity and app control, it allows you to manage your pet's meals remotely. The feeder includes a dual power supply system for reliability and a detachable design for easy cleaning, ensuring your pet receives fresh food consistently.

2. PACKAGE CONTENTS

Please verify that all items are present in the package:

- 1 x PAPIFEED Automatic Cat Feeder Unit
- 1 x Food Bowl
- 1 x Power Adapter
- 1 x USB Charging Cable

Note: 4 AA batteries for backup power are not included and must be purchased separately.

3. PRODUCT OVERVIEW

Familiarize yourself with the main components of your PAPIFEED Automatic Cat Feeder:

- **Food Hopper:** Stores dry pet food (3L capacity).
- **Lid with Knob Lock:** Secures the food hopper and prevents pet access.
- **Transparent Window:** Allows visual monitoring of food levels.
- **Dispensing Outlet:** Where food is released into the bowl.
- **Food Bowl:** Detachable bowl for pet consumption.
- **Control Panel/Indicator:** Located on the front, indicates status and WiFi connection.
- **Power Port:** For connecting the power adapter.
- **Battery Compartment:** For backup AA batteries (located at the bottom).

4. SETUP

4.1 Power Supply

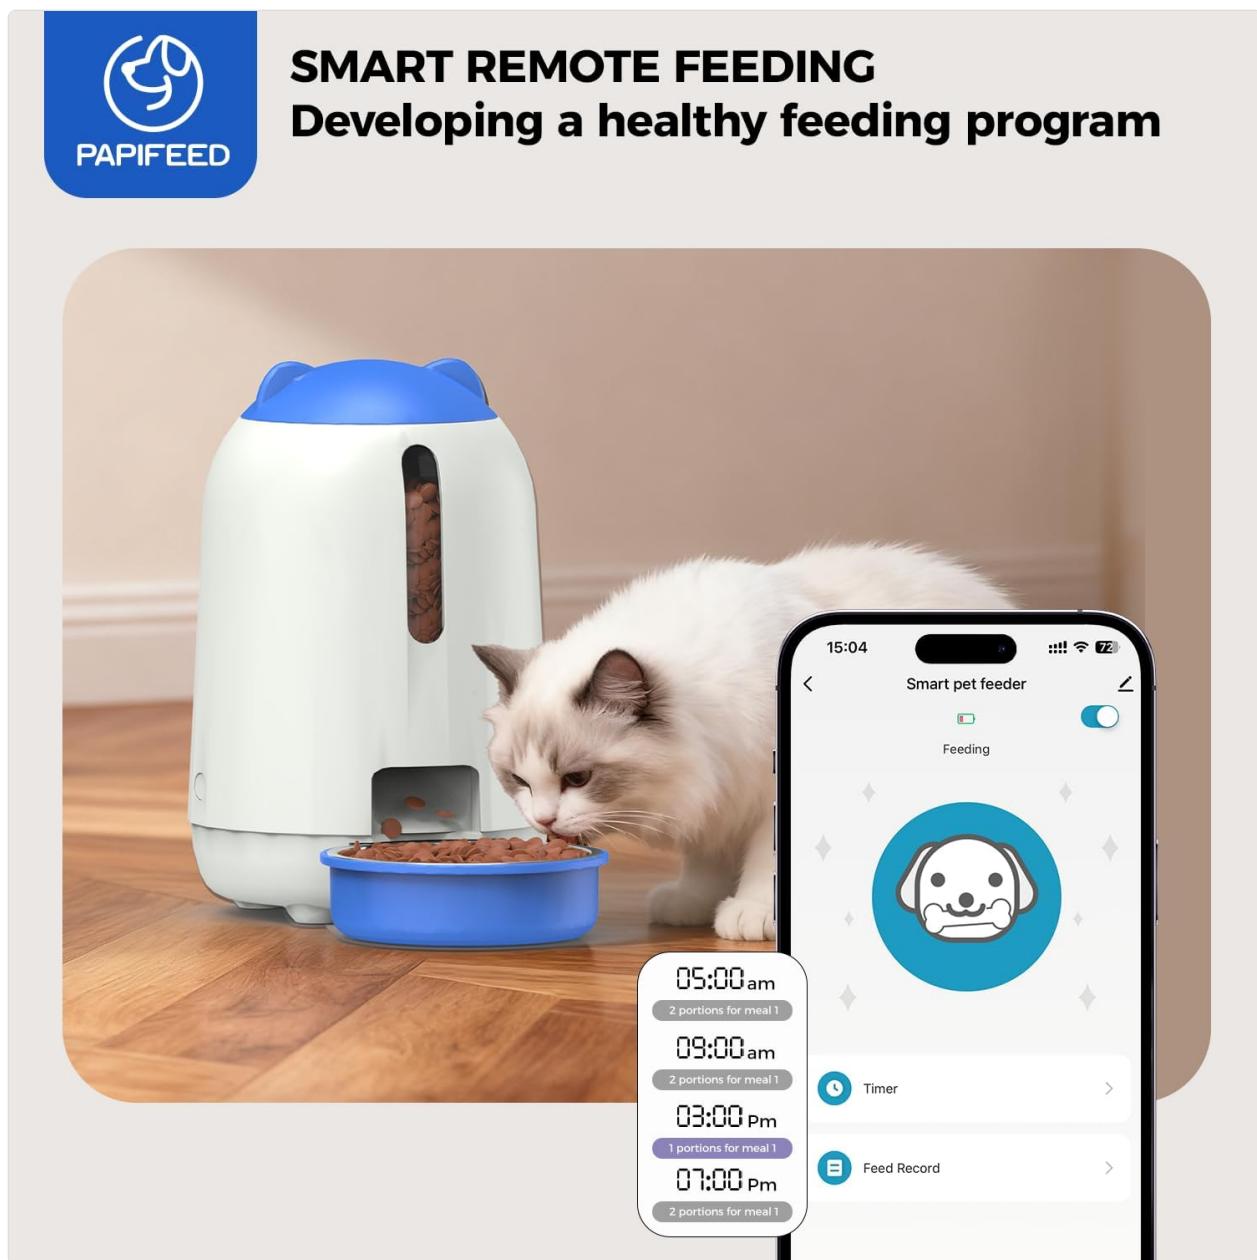

- Primary Power:** Connect the provided power adapter to the feeder's power port and plug it into a wall outlet.
- Backup Power:** For uninterrupted operation during power outages, install 4 new AA batteries (not included) into the battery compartment at the bottom of the feeder. The feeder will automatically switch to battery power if the main power is lost.

It is recommended to maintain dual power supply mode for daily use to ensure the backup battery is ready for sudden power outages.

4.2 Food Loading

1. Rotate the lid counter-clockwise to unlock and remove it.
2. Pour dry pet food into the hopper. The feeder has a 3L capacity, suitable for 1-2 weeks of feeding depending on pet size.
3. Ensure kibble size is between 0.2-0.47 inches (5-12mm) to prevent clogging.

4. Place the lid back on and rotate clockwise to secure the knob lock.

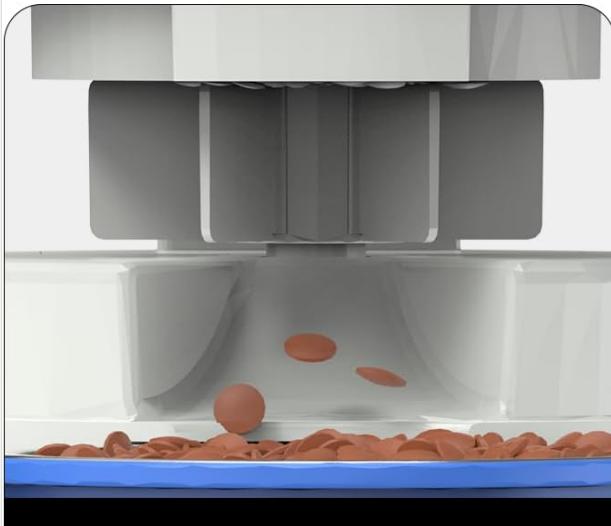

The advertisement features the PAPIFEED logo in the top left corner, which includes a stylized hand icon and the text "PAPIFEED". The main title "SMART REMOTE FEEDING" is in bold capital letters, followed by "Developing a healthy feeding program". Below the title is a photograph of a white cat eating from a blue bowl placed in front of a white and blue smart pet feeder. The feeder has a window showing dry kibble inside. To the right of the photograph is a smartphone displaying the "Smart pet feeder" app interface. The app shows a schedule of feedings: 05:00 am (2 portions for meal 1), 09:00 am (2 portions for meal 1), 03:00 Pm (1 portions for meal 1), and 07:00 Pm (2 portions for meal 1). The app also features a "Feeding" toggle switch, a dog icon, and links to "Timer" and "Feed Record".

Recommended Kibble Size

≈0.2-0.47" / ≈5-12mm

Recommended Food Types

Recommended kibble sizes ranging from 5x5mm to 12x12mm to ensure proper dispensing.

4.3 App Download and Connection

1. Download the "Smart Life" app from the App Store (iOS) or Google Play Store (Android). You can scan the QR code below for direct access.
2. Register or log in to your Smart Life account.
3. Ensure your mobile device is connected to a 2.4G WiFi network. The feeder only supports 2.4G WiFi.
4. Follow the in-app instructions to add the PAPIFEED Automatic Cat Feeder. This typically involves putting the feeder into pairing mode (refer to the app for specific button presses or indicators) and confirming the WiFi network.

5. OPERATING INSTRUCTIONS

5.1 App Control

Once connected to the Smart Life app, you can control the feeder remotely:

- **Customize Feeding Schedule:** Set specific times and portion sizes for up to 10 meals per day, with 1-12 portions per meal.
- **Manual Dispense:** Dispense food instantly with a tap in the app.
- **Feeding Records:** View a history of dispensed meals.
- **Device Sharing:** Share control of the feeder with other family members through the app.

The Smart Life app interface for customizing feeding plans and remote control.

Important Note: When the feeder is operating on backup battery power, it will remain offline (unable to connect to the APP). However, it will continue to execute the preset feeding schedule to ensure your pet eats on time.

6. MAINTENANCE

6.1 Cleaning

Regular cleaning ensures hygiene and proper functioning of the feeder.

- Disassembly:** The food bin, grain outlet channel, and food bowl are designed to be fully detachable for cleaning.
- Washing:** Rinse the detachable parts (food bin, grain outlet channel, food bowl) directly with clean water. Ensure they are completely dry before reassembling.
- Main Unit:** The main feeder unit, which contains electronic components, should **NOT** be washed or submerged in water. Wipe it clean with a soft, damp cloth.
- Reassembly:** Once all parts are dry, reassemble the feeder, ensuring all components are securely in place.

EASY TO CLEAN & REMOVABLE PARTS

Illustration of removable parts for easy cleaning, with a clear indication that the main electronic unit should not be washed.

7. TROUBLESHOOTING

- **Feeder is offline in the app:** If the feeder is running on backup AA batteries, it will not connect to the app. It will still dispense food according to the last programmed schedule. Reconnect to main power for app functionality.
- **Food not dispensing:**
 - Check food level in the hopper.
 - Ensure kibble size is within the recommended range (0.2-0.47 inches / 5-12mm) to prevent clogs.
 - Verify the dispensing mechanism is clear of obstructions.
- **WiFi connection issues:**
 - Confirm your router is broadcasting a 2.4G WiFi signal. The feeder does not support 5G WiFi.
 - Ensure the feeder is within range of your WiFi router.
 - Restart your router and the feeder, then attempt to reconnect via the app.
- **Pet knocks over the feeder:** Place the feeder in a stable location or consider securing it to prevent accidental tipping by active pets.
