# PAPIFEED 3L Automatic Pet Feeder with 1080P HD Camera User Manual

Model: 3L Automatic Pet Feeder with Pet Smart Camera

Introduction	Package Contents	Setup	Operation	Maintenance	Troubleshooting
	Specifications		Warranty & Support		

## 1. INTRODUCTION

This manual provides instructions for the setup, operation, and maintenance of your PAPIFEED 3L Automatic Pet Feeder with 1080P HD Camera. This device allows for automated feeding schedules and remote monitoring of your pet via a dedicated mobile application. Please read this manual thoroughly before use to ensure proper functionality and safety.

## 2. PRODUCT OVERVIEW

The PAPIFEED 3L Automatic Pet Feeder with 1080P HD Camera is designed to simplify pet care by combining automated feeding with real-time monitoring. Key features include:

- **Integrated Feeder & Camera:** Connects both devices to a single 2.4GHz WiFi network for synchronized control via one app.
- **Single App Control:** Manage feeding schedules and camera functions through the Smart Life app.
- **Dual Power Supply:** Operates on AC power with a 4xAA battery backup (batteries not included) for uninterrupted feeding during power outages.
- **Food Freshness & Security:** Features a sealed food tank with a desiccant box and a twist-on lid to keep food fresh and prevent pet access.
- **1080P HD Camera with Night Vision:** Offers 350° horizontal and 110° vertical rotation for comprehensive room coverage, including enhanced IR night vision.
- **Two-Way Audio:** Allows for real-time communication with your pet.
- **Motion Alerts & Storage:** Sends motion-triggered alerts to your phone and supports local (SD card, not included) or encrypted cloud storage for video.

### 3. PACKAGE CONTENTS

---

Verify that all items are present and in good condition:

- Automatic Pet Feeder (1)
- Pet Smart Camera (1)
- Power Adapter (1)
- USB Cable (1)
- User Manual (1)
- Screw Accessories Package (1) - for camera mounting
- Stainless Steel Feeding Bowl (1)
- Desiccant (1)

### 4. SETUP

---

#### 4.1 Power Supply

1. Connect the USB cable to the power adapter and plug it into the feeder's power port.
2. Plug the adapter into a standard wall outlet.
3. For battery backup, open the battery compartment on the bottom of the feeder and insert four (4) AA batteries (not included). This ensures continued operation during power outages.

## 4.2 App Installation and Connection

1. Download the "Smart Life" app from the App Store (iOS) or Google Play Store (Android). You can scan the QR code provided in the manual or on the product packaging.
2. Register or log in to your Smart Life account.
3. Ensure your mobile device is connected to a 2.4GHz Wi-Fi network. The feeder and camera only support 2.4GHz Wi-Fi.
4. **Add Feeder:**
  - In the app, tap "+" to add a new device.
  - Select "Small Home Appliances" > "Pet Feeder (Wi-Fi)".
  - Follow the on-screen instructions to connect the feeder to your Wi-Fi network. This typically involves putting the feeder into pairing mode (long press the reset button until the indicator light flashes).
5. **Add Camera:**
  - In the app, tap "+" again to add another device.
  - Select "Security & Video Surveillance" > "Smart Camera (Wi-Fi)".
  - Follow the on-screen instructions to connect the camera to your Wi-Fi network.

### 4.3 Feeder Assembly and Food Loading

1. Place the stainless steel feeding bowl into the designated slot at the base of the feeder.
2. Open the lid of the food tank by twisting it counter-clockwise.
3. Insert the desiccant packet into the desiccant box located under the lid to maintain food freshness.  
Replace the desiccant every 1-2 months.
4. Fill the food tank with dry pet food. The feeder has a 3L capacity (approximately 12.5 cups).
5. Securely close the lid by twisting it clockwise until it locks. This prevents pets from accessing the food.

## Transparent Window for Easy Monitoring

## Secure Knob Lock to Prevent Pet Access

## Removable Parts for Easy Cleaning

## Support 2.4G WIFI

### 4.4 Camera Placement

The camera can be placed on a flat surface or mounted to a ceiling using the included screw accessories. Ensure the camera has a clear view of the feeding area and a stable Wi-Fi signal.

## 360° PET MONITORING: FREESTANDING OR CEILING-MOUNTED.

Image: The PAPIFEED camera illustrating its 360-degree monitoring capabilities, showing both freestanding and ceiling-mounted options in a living room setting.

## 5. OPERATION

### 5.1 Manual Feeding

A short press of the physical button on the feeder will dispense one portion of food. A long press of the button will initiate a Wi-Fi reset.

## AI-POWERED SMART DETECTION PET CAMERA

### 5.2 App Control (Smart Life App)

The Smart Life app provides comprehensive control over both the feeder and the camera.

- **Scheduling:** Set up to 10 meals per day, with 1 to 12 portions per meal. Customize feeding plans to suit your pet's needs.
- **Remote Feeding:** Dispense food instantly from anywhere using the "Feed" button in the app.
- **Feeding Record:** View a history of dispensed meals.
- **Live View & Monitoring:** Access the camera's live feed in 1080P HD.
- **Two-Way Audio:** Use the microphone and speaker icons in the app to talk to and hear your pet.
- **Night Vision:** The camera automatically switches to IR night vision in low-light conditions.
- **Motion Detection & Alerts:** Receive push notifications on your phone when motion is detected.
- **Video Playback & Storage:** Review recorded footage (requires SD card or cloud subscription).
- **Device Sharing:** Share control of the feeder and camera with up to 5 family members or friends.

## 6. MAINTENANCE

### 6.1 Cleaning

Regular cleaning ensures hygiene and proper operation.

- Unplug the feeder and remove any batteries before cleaning.
- The stainless steel bowl is dishwasher safe.
- The food tank, lid, and other removable parts (except the base unit containing electronics) can be detached and washed with mild soap and water.
- Ensure all parts are completely dry before reassembling and refilling with food.
- Wipe the main body of the feeder and camera with a damp cloth. Do not immerse the electronic base units in water.

## AI-POWERED SMART DETECTION PET CAMERA

✓ 355° Wide Viewing Angle

✓ Video Playback Available

✓ Cloud Storage Supported

Image: The PAPIFEED feeder disassembled, showing the removable parts (lid, food tank, bowl) that can be easily cleaned, with a "NO WASH" label indicating the electronic base should not be submerged.

### 6.2 Food Freshness

- Replace the desiccant packet in the lid every 1-2 months to prevent moisture and keep food fresh.
- Ensure the lid is securely twisted and locked after refilling to maintain the seal.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food tank empty. Food jammed in dispenser. Power issue. Incorrect app settings.	Refill food tank. Check for obstructions and clear them. Ensure kibble size is 0.2-0.47 inches (5-12mm). Verify power adapter is plugged in and batteries are installed/charged. Check feeding schedule and portion settings in the Smart Life app.

Problem	Possible Cause	Solution
Device offline in app.	Wi-Fi signal weak or disconnected. Incorrect Wi-Fi password. Router issues.	Ensure feeder/camera is within Wi-Fi range. Verify your Wi-Fi network is 2.4GHz. Restart your Wi-Fi router. Long press the feeder/camera reset button to re-enter pairing mode and reconnect via the app.
Camera not showing live feed or recording.	Network connectivity issues. SD card full or not inserted correctly. Cloud storage subscription expired.	Check Wi-Fi connection. Reinsert or replace SD card. Format SD card if necessary. Check cloud storage status in the app.
Two-way audio not working.	Microphone/speaker permissions not granted to app. Volume settings too low.	Check app permissions in your phone's settings. Adjust volume settings in the app and on your phone.

## 8. SPECIFICATIONS

Feature	Detail
Model	3L Automatic Pet Feeder with Pet Smart Camera
Capacity	3 Liters (approx. 12.5 cups)
Material	Polyester (likely referring to internal components or general construction, as the main body appears plastic)
Connectivity	2.4GHz Wi-Fi only
