4. MAINTENANCE AND CARE

Regular maintenance will help preserve the appearance and structural integrity of your bed frame.

4.1 Cleaning the Velvet Upholstery

Opulent Velvet Material

Figure 4: Opulent Velvet Material Detail

- **Dusting:** Regularly vacuum the velvet upholstery using a soft brush attachment to remove dust and loose particles.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain and damage the velvet pile. For stubborn stains, use a mild, water-free solvent or dry-cleaning product specifically designed for velvet. Always test on an inconspicuous area first.
- **Avoid Moisture:** Do not saturate the fabric with water or liquid cleaners, as this can cause watermarks or damage the material.
- **Sunlight Exposure:** Prolonged exposure to direct sunlight can cause fading. Position your bed frame away from direct sunlight or use curtains/blinds.

4.2 Frame Maintenance

- **Tighten Connections:** Periodically check and tighten all bolts and screws to ensure the frame remains stable and noise-free.
- **Inspect Slats:** Ensure wooden slats are properly seated and undamaged. Replace any broken slats immediately to maintain mattress support.
