

HEAPETS P358

HEAPETS P358 Pet Air Purifier Instruction Manual

MODEL: P358 | BRAND: HEAPETS

1. Product Overview

The HEAPETS P358 Pet Air Purifier is designed to significantly improve indoor air quality, especially in homes with pets. It features a unique U-shaped air inlet and a static pre-filter specifically customized to effectively capture pet floating hair, dander, and other airborne particles. This design prevents secondary pollution by firmly adsorbing pet hair.

Equipped with a pet formula activated carbon filter, the P358 effectively reduces various odors including pet odor, litter box smell, dog smell, cat smell, pet urine, vaping smell, and cooking odors. Combined with an H13 HEPA filter, it is ideal for families with pets and individuals sensitive to air quality, targeting allergens and pollutants.

Despite its compact footprint, similar to an A4 paper size, the P358 offers large coverage. Its dual-sided and super-large air intake system cleans air from both sides simultaneously, providing purification twice as fast as traditional single-intake models. With a CADR of 176 CFM (295m³/h), it can refresh the air in areas up to 2500 sq ft every hour, making it suitable for bedrooms, living rooms, offices, nurseries, kitchens, basements, and apartments.

The advanced 6-stage filtration system goes beyond general air purification by specifically addressing pet hair and odors. It rapidly cleans indoor air, filtering out pet dander, airborne fur, stubborn odors, dust, smoke, particles, common allergens, and pollutants.

The P358 also includes smart features such as a PM2.5 display and Air Quality Indicator for real-time monitoring, 5 fan speed modes (Auto P0, P1-P4), Pet Lock, Timer, Filter Replace Reminder, and a Quiet Sleep Mode that automatically adjusts fan speed and turns off indicator lights for undisturbed rest.

2. Setup

Follow these steps to set up your HEAPETS P358 Pet Air Purifier:

1. **Unboxing:** Carefully remove the air purifier from its packaging. Ensure all packing materials, including any protective films or foam, are removed.
2. **Filter Preparation:** The filters come sealed in plastic bags to maintain their effectiveness. Open the front and back covers of the air purifier. Remove both filters from their plastic packaging.
3. **Install Filters:** Insert the filters back into their respective compartments, ensuring they are correctly oriented. Close the front and back covers securely.
4. **Placement:** Place the air purifier on a flat, stable surface. For optimal performance, position it near pet areas, such as litter boxes or pet beds, or in rooms where pet hair and odors are most prevalent. Ensure there is adequate space around the air inlets and outlets for proper airflow.
5. **Power Connection:** Connect the power adapter to the air purifier and then plug it into a standard electrical outlet.

3. Operating Instructions

The HEAPETS P358 features a user-friendly control panel on the top of the unit. Here's how to operate it:

1. **Power On/Off:** Press the power button () to turn the unit on or off.
2. **Fan Speed Modes:** Cycle through 5 fan speed modes (Auto P0, P1, P2, P3, P4) by pressing the fan speed button (). P4 provides strong hair suction.
3. **Auto Mode:** Activate Auto Mode (A) for intelligent operation. The purifier will automatically adjust its fan speed based on real-time air quality detected by the PM2.5 sensor.
4. **Sleep Mode:** Press the sleep mode button (Zz) to enter quiet operation. In this mode, the fan speed is reduced, and all indicator lights are turned off for an undisturbed sleeping environment. Press any key to wake up.
5. **Timer:** Use the timer button (⌚) to set the operating duration. You can set it to run for a specific number of hours before automatically turning off.

6. **PM2.5 Display & Air Quality Indicator:** The digital display shows the PM2.5 concentration and air quality percentage. The surrounding light changes color to indicate air quality: Green (85-100%) for Excellent, Yellow (70-84%) for Good, and Red (0-69%) for Severe.
7. **Pet Lock:** To prevent accidental changes by pets or children, press and hold the lock button  for 3 seconds to enable/disable the child lock.

4. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your air purifier. The P358 is designed for easy and cost-effective maintenance.

1. **Filter Replacement Reminder:** The unit will indicate when it's time to replace the filters. The replaceable electrostatic pre-filtered cotton can extend the life of the main filter cartridge from 3 months to 6 months, saving you 50% on costs.

2. **Cleaning the Pre-filter:** The electrostatic pre-filter is washable and reusable. To clean, gently tear off the pre-filter, remove accumulated hair and dust, wash it with water, or use a vacuum cleaner. Allow it to air dry completely before reinserting.
3. **Replacing the Composite Filter:** When the main composite filter needs replacement, search for B0DT6CWC1K (Composite Filter) or B0DT5RNTPV (Pre-filter).
4. **Reset Filter Timer:** After replacing or cleaning filters, press and hold the reset button (🔄) for 5 seconds to reset the cumulative use time of the filter.
5. **Cleaning the Air Quality Sensor:** Clean the sensor port and surrounding area with a cotton swab. This should be done if the room air is clean but the indicator light is red, or if the air is filled with smoke/dust but the indicator light stays green, or if the indicator light flickers frequently.

5. Troubleshooting

If you encounter any issues with your HEAPETS P358 Air Purifier, please refer to the following common troubleshooting tips:

- **Unit not turning on:** Ensure the power cable is securely plugged into both the unit and a working electrical outlet. Check if the outlet is receiving power.
- **Poor air purification:** Verify that the filters are correctly installed and not obstructed. Check the filter replacement reminder; dirty filters can reduce efficiency. Ensure the plastic packaging has been removed from both filters.
- **Unusual noise:** Check for any foreign objects inside the unit or around the fan. Ensure the unit is placed on a stable, flat surface to prevent vibrations.
- **Indicator light discrepancies:** If the air quality indicator light does not match the perceived air quality, clean the PM2.5 air quality sensor as described in the Maintenance section.
- **Controls unresponsive:** Check if the Pet Lock feature is activated. Deactivate it by pressing and holding the lock button for 3 seconds.

For further assistance, please contact customer service.

6. Specifications

Feature	Detail
Product Dimensions	7.09 x 11.81 x 16.14 inches
Item Weight	7.91 Pounds
Item Model Number	P358
Power Source	AC

Feature	Detail
Control Method	Touch, Digital Buttons
Filter Type	H13 HEPA, Activated Carbon
Floor Area Coverage	Up to 2500 Square Feet (refreshed hourly)
Noise Level	25 Decibels (Sleep Mode)
Particle Retention Size	0.1 Micron
Special Features	U Shape Air Inlet, PM2.5 Air Quality Monitor, 6-Stage Advanced Air Purification System, Pet Lock, Timer, Filter Replace Reminder, Quiet Sleep Mode
Included Components	Air Purifier Body, Filters, Power Cable
Certifications	CE, EPA, ETL, FCC, CARB, CA65 Certified

7. Warranty and Support

Each HEAPETS air purifier comes with a **12-month warranty**. We offer **7/24 hours customer service** and **lifetime technical support**. If you have any concerns or issues with your product, please do not hesitate to contact us for assistance.

The HEAPETS P358 is CE, EPA, ETL, and FCC certified, and complies with the California Air Resources Board (CARB) and California Proposition 65 (CA65) for indoor cleaning equipment, ensuring safety and quality standards.
