Qinline DZJM01

Qinline Advent Calendar 2025 Christmas Tree Building Blocks Instruction Manual

Model: DZJM01 | Brand: Qinline

1. INTRODUCTION

This instruction manual provides guidance for assembling the Qinline Advent Calendar 2025 Christmas Tree Building Blocks. This set offers a unique daily building experience, culminating in a festive Christmas tree model. Follow these instructions to ensure correct assembly and enjoyment of your product.

2. SAFETY INFORMATION

- **WARNING: CHOKING HAZARD** – Small parts. Not suitable for children under 3 years.
- Recommended Age Grading: 6+ years old. Adult supervision is advised for younger children during assembly.
- Keep all packaging materials away from children to prevent suffocation.
- Do not ingest any building block pieces.

3. PACKAGE CONTENTS

Your Qinline Advent Calendar contains 24 individually numbered boxes, each holding a portion of the building blocks required for daily assembly. The complete set comprises approximately 1024 pieces, which will form a detailed Christmas tree model by December 24th.

4. SETUP AND DAILY ASSEMBLY

The Advent Calendar is designed for a daily building experience from December 1st to December 24th.

1. **Locate Instructions:** The detailed instruction booklet is typically found within the main packaging, often underneath the individual numbered boxes. Ensure you have this booklet before beginning.
2. **Day 1:** On December 1st, open the box labeled '1'. Carefully remove the building blocks inside.
3. **Follow Instructions:** Refer to the instruction booklet for the specific steps to assemble the pieces from Day 1's box. Each day's build contributes to the overall Christmas tree model.
4. **Subsequent Days:** Continue this process daily, opening the corresponding numbered box and following the instructions to add to your growing Christmas tree model.
5. **Completion:** By December 24th, after opening and assembling the contents of box '24', your Qinline Christmas Tree Building Blocks model will be complete.

24 DAYS OF COUNTDOWN SURPRISES

You can follow the instruction and enjoy the fun building it as decorations for Christmas.
It will be a big hit!

Detailed Instruction

Dec.1 - Start!

Dec.2 - Go on!

Dec.24 - Finished!

5. BUILDING TIPS

- **Organize Pieces:** Before starting each day's build, empty the contents of the numbered box onto a clean, flat surface. This helps in easily identifying and selecting the correct pieces.
- **Review Instructions:** Always review the steps for the current day's build in the instruction booklet before beginning assembly.
- **Secure Connections:** Ensure all building blocks are firmly pressed together to create stable connections.
- **Patience is Key:** Some steps may require careful alignment. Take your time to ensure pieces fit correctly.
- **Adult Assistance:** For younger builders, adult assistance can enhance the building experience and help overcome challenging steps.

6. MAINTENANCE AND STORAGE

- **Cleaning:** To clean the assembled model or individual blocks, gently wipe them with a dry, soft cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the building blocks and the assembled model in a cool, dry place away from direct sunlight to prevent discoloration or warping. The original packaging can be reused for storing the individual boxes and blocks for future use.
- **Disassembly:** If disassembling the model for storage, keep all pieces organized, perhaps by day number, to facilitate easier reassembly in the future.

7. TROUBLESHOOTING

- **Missing Pieces:** In the event of missing pieces, carefully re-check the contents of the relevant day's box and the surrounding area. If pieces are still missing, contact Qinline customer support for assistance.

- **Difficulty Assembling:** If you encounter difficulty connecting pieces, ensure you are using the correct blocks for the step and applying firm, even pressure. Refer to the instruction manual's illustrations for visual guidance.
- **Model Instability:** If the assembled model feels unstable, review previous steps to ensure all connections are secure and no pieces have been incorrectly placed.
