Important Safety Information

WARNING: CHOKING HAZARD - Small parts. Not suitable for children under 3 years of age.

- Always supervise children during play.
- Keep away from pets that may attempt to chew or ingest small parts.
- Do not immerse the toys in water.
- Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Batteries should be inserted with the correct polarity.
- Remove exhausted batteries from the product.
- Do not short-circuit the supply terminals.

SETUP

Battery Installation

Each Pets Alive Running Squirrel requires 2 AAA batteries (not included). Follow these steps to install the

batteries:

1. Locate the battery compartment on the underside of the squirrel.
2. Using a small Phillips head screwdriver, unscrew the battery compartment cover.
3. Insert 2 new AAA batteries, ensuring the correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover and secure it with the screw.
5. Repeat for the second squirrel.

OPERATING INSTRUCTIONS

The Pets Alive Running Squirrels are designed for simple, interactive play.

Activation

To activate a squirrel, gently stroke the top of its head. The squirrel will begin to scurry around, mimicking the movements of a real squirrel. It will automatically stop after a short period.

Play Area

For best performance, use the squirrels on smooth, flat surfaces indoors. Avoid carpets or uneven terrain, which may hinder their movement.

MAINTENANCE

Cleaning

To clean your Pets Alive Running Squirrels, gently wipe them with a damp cloth. Do not use harsh chemicals or abrasive cleaners. Do not submerge the toys in water.

Storage

When not in use, store the squirrels in a dry, cool place away from direct sunlight. If storing for an extended period, remove the batteries to prevent leakage.

TROUBLESHOOTING

- **Squirrel does not move:**
 - Check if batteries are installed correctly with the proper polarity.
 - Replace old batteries with new ones.

- Ensure the battery compartment cover is securely closed.
- **Movement is erratic or slow:**
 - Replace batteries with new ones.
 - Ensure the play surface is smooth and free of obstructions.
 - Check for any debris or hair caught in the wheels.
- **Squirrel does not respond to touch:**
 - Ensure batteries are fresh and correctly installed.
 - Try a firmer, but still gentle, stroke on the head sensor.
