## LOKMAT APPLLP 7 MAX

# LOKMAT APPLLP 7 MAX Android Smart Watch User Manual

Model: APPLLP 7 MAX

---

## 1. INTRODUCTION

---

Welcome to the LOKMAT APPLLP 7 MAX Android Smart Watch user manual. This guide provides comprehensive instructions to help you set up, operate, and maintain your new smartwatch. Please read this manual thoroughly before using the device to ensure optimal performance and safety.

Figure 1: LOKMAT APPLLP 7 MAX Smart Watch displaying different watch faces and health metrics.

The LOKMAT APPLLP 7 MAX is an advanced Android smartwatch featuring a 2.06-inch AMOLED display, a 2-megapixel rotating camera, and 4G/5G network support for enhanced connectivity and functionality.

## 2. SAFETY INFORMATION

To ensure safe and proper use of your LOKMAT APPLLP 7 MAX Smart Watch, please observe the following precautions:

- Do not attempt to disassemble, repair, or modify the device. Unauthorized modifications may void your warranty and pose safety risks.
- Keep the device away from extreme temperatures, direct sunlight, and moisture.
- Avoid exposing the device to strong impacts or vibrations.
- Use only the provided charging cable and adapter. Using incompatible accessories may cause damage or fire.
- If the device becomes unusually hot, discontinue use immediately and contact customer support.
- Keep the device out of reach of children and pets.
- Consult a medical professional before using the device for health monitoring if you have pre-existing

medical conditions.

### 3. GETTING STARTED: SETUP

---

#### 3.1. Charging the Device

Before initial use, fully charge your smartwatch. The device features magnetic charging.

1. Connect the magnetic charging cable to a compatible USB power adapter (not included).
2. Align the magnetic end of the cable with the charging contacts on the back of the watch. The magnets will snap into place.
3. Ensure the charging icon appears on the watch screen.
4. Allow approximately 2 hours for a full charge.

Figure 2: The smartwatch connected to its magnetic charging cable, indicating charging status.

#### 3.2. Powering On/Off

- **To Power On:** Press and hold the power button (usually located on the side) until the LOKMAT logo

appears.

- **To Power Off:** Press and hold the power button, then select "Power Off" from the options on the screen.

### 3.3. SIM Card Installation (Optional)

The APLLP 7 MAX supports 4G/5G cellular connectivity. To use cellular features, install a nano-SIM card.

1. Locate the SIM card slot on the side of the watch.
2. Carefully open the SIM tray using the provided tool (if applicable) or your fingernail.
3. Insert a nano-SIM card into the tray with the gold contacts facing down, ensuring it is correctly oriented.
4. Gently push the SIM tray back into the watch until it clicks into place.

Figure 3: Illustration of inserting a SIM card into the smartwatch for 4G/5G connectivity.

### 3.4. Initial Setup and Pairing

Follow the on-screen instructions to complete the initial setup, including language selection, time zone, and connecting to Wi-Fi. To unlock full functionality, pair your smartwatch with your smartphone via the dedicated companion application.

1. Download the official LOKMAT companion app from your smartphone's app store.

2. Enable Bluetooth on your smartphone.
3. Open the LOKMAT app and follow the instructions to search for and pair with your APPLLP 7 MAX.
4. Confirm the pairing request on both your smartphone and smartwatch.

## 4. OPERATING INSTRUCTIONS

---

### 4.1. Display and Navigation

The APPLLP 7 MAX features a 2.06-inch AMOLED full-touch display for intuitive interaction.

Figure 4: The 2.06-inch AMOLED display provides clear and vibrant visuals.

- **Swipe Up/Down:** Access quick settings or notifications.
- **Swipe Left/Right:** Navigate between different widgets or app screens.
- **Tap:** Select an item or open an application.
- **Press and Hold:** Customize watch faces or access context menus.

### 4.2. Using the Camera

The smartwatch is equipped with a 2-megapixel telescopic camera with 190-degree rotation.

1. Open the Camera application on your watch.
2. Rotate the camera module to adjust the viewing angle as needed.
3. Tap the screen to focus, then tap the shutter icon to capture a photo or start/stop video recording.

Figure 5: The smartwatch's rotating camera module for flexible photo and video capture.

### 4.3. Connectivity and Communication

- **4G/5G Network:** With a SIM card installed, you can make and receive calls, send messages, and use data directly from your watch.
- **Wi-Fi:** Connect to Wi-Fi networks for internet access and faster data transfers.
- **Bluetooth:** Pair with Bluetooth headphones for music or other accessories.
- **Video Calls:** Utilize the camera and network connectivity for high-definition video calls.

### 4.4. Applications and Features

The APPLLP 7 MAX runs on Android, allowing access to various applications.

# Multiple music software and BT headphone connection

APPLLP 7 MAX smartwatch, your wrist music hall free from the constraints of mobile phones, enjoy a new wireless music experience

Figure 7: The smartwatch displaying a music playback interface, ready for Bluetooth headphone connection.

- **Flashlight:** Activate the built-in flashlight feature for illumination.

# Strong flashlight fears no darkness

One click lighting anytime and anywhere, convenient and fast night safety guarantee, large floodlighting, better outdoor exploration

Figure 8: The smartwatch's integrated flashlight providing illumination.

- **NFC Unlocking:** Utilize NFC for quick and secure unlocking of compatible devices or systems.

## One second induction unlocking opens up the smart life experience

Simply lift your arm to quickly open the door without the need for complicated passwords, freeing up your hands

Figure 9: Using the smartwatch's NFC function for quick induction unlocking.

## 5. MAINTENANCE

---

### 5.1. Cleaning Your Smart Watch

Regular cleaning helps maintain the appearance and functionality of your device.

- Wipe the screen and watch body with a soft, lint-free cloth.
- For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

### 5.2. Battery Care

- Avoid fully discharging the battery frequently.
- Charge the watch regularly, even if not in daily use, to maintain battery health.
- Store the watch in a cool, dry place when not in use for extended periods.

## 6. TROUBLESHOOTING

---

---

If you encounter issues with your LOKMAT APPLLP 7 MAX, refer to the following common solutions:

### **6.1. Device Will Not Power On or Charge**

- Ensure the charging cable is securely connected to both the watch and the power source.
- Verify the power adapter is functional.
- Clean the charging contacts on the watch and cable.
- Try a different USB port or power adapter.
- If the battery is completely drained, it may take a few minutes for the charging indicator to appear.
- Perform a forced restart by pressing and holding the power button for approximately 10-15 seconds.

### **6.2. Short Battery Life**

- Reduce screen brightness.
- Disable unnecessary notifications or background app refresh.
- Turn off Wi-Fi, Bluetooth, or cellular data when not in use.
- Limit the use of power-intensive features like GPS or continuous heart rate monitoring.
- Ensure all apps are updated to their latest versions.

### **6.3. App or Sensor Inaccuracy**

- Ensure the watch's software and companion app are updated.
- Restart the watch and your paired smartphone.
- For health sensors (e.g., heart rate, steps), ensure the watch is worn snugly on your wrist.
- Calibrate sensors if an option is available in the watch settings or companion app.
- If an app is not working, try uninstalling and reinstalling it.

### **6.4. Connectivity Issues (Bluetooth, Wi-Fi, Cellular)**

- Ensure Bluetooth/Wi-Fi/Cellular is enabled on the watch.
- For Bluetooth, unpair and re-pair the device.
- For Wi-Fi, forget the network and reconnect.
- For cellular, ensure the SIM card is correctly inserted and activated with your carrier. Check network signal strength.
- Restart both the watch and the connected device (e.g., smartphone).
