4. SETUP

4.1 Initial Power-On and Android TV Box Connection

1. Connect the power adapter to the projector and a power outlet.
2. Locate the dedicated compartment for the Android TV box on the side of the projector.
3. Plug the micro HDMI and micro USB cables from the projector into the Android TV box.
4. Close the compartment cover securely.
5. Press the power button on the projector or remote control to turn on the device.

4.2 Network and Language Configuration

1. Follow the on-screen prompts to select your preferred OSD language.
2. Connect the projector to your Wi-Fi network by selecting your network and entering the password.
3. The system will then proceed to set up Google TV.

4.3 Automatic Focus and Keystone Correction

The projector features automatic focus and keystone correction. Upon startup or movement, the projector will automatically adjust the image for clarity and correct any trapezoidal distortion. You can also manually fine-tune the focus using the remote control.

5. OPERATING INSTRUCTIONS

5.1 Navigating Google TV

The projector comes with official Google TV built-in, providing access to a vast library of streaming applications. Use the remote control's directional pad and OK button to navigate the interface.

- **Home Screen:** Displays recommended content and your favorite apps.
- **Apps:** Access all installed applications.
- **Discover:** Explore new content based on your preferences.
- **Search:** Use the search function to find movies, shows, or apps.

5.2 Using the Smart Voice Assistant

The built-in Google Voice Assistant allows for hands-free control:

1. Press the dedicated voice assistant button on the remote control.
2. Speak your command, such as "Open Netflix," "Play movie Joker 2," or "Turn down the volume."

Supports 80,000+ Apps 800+ Free Channels

Offers a vast selection of entertainment options, including movies, TV shows, music, and games.

Figure 5.2: The Google TV interface supports over 80,000 apps and 800+ free channels, offering a wide range of entertainment options.

6. IMAGE & SOUND SETTINGS

6.1 Adjusting Display Settings

You can customize the display settings to suit your viewing environment:

- **Screen Resolution:** The projector supports native 1920x1080 resolution at 60Hz. You can adjust this in the display settings.
- **HDR 10+:** Enjoy enhanced contrast and color with HDR 10+ technology.
- **Zoom Function:** Adjust the screen size from 50% to 100% to fit your space.
- **Keystone Correction:** The projector offers automatic keystone correction up to ± 15 degrees.

6.2 Audio Configuration

The projector includes built-in HiFi speakers for an immersive audio experience. You can also connect external audio devices:

- **Volume Control:** Adjust the volume using the remote control.
- **External Speakers:** Connect external speakers via the 3.5mm audio jack or Bluetooth 5.2 for enhanced sound.

Figure 6.1: Flexible image adjustment features, including 50%-100% zoom and $\pm 15^\circ$ keystone correction.

7. CONNECTIVITY

The CiBest Google TV Projector offers multiple connectivity options for diverse entertainment scenarios:

- **Wi-Fi 6:** Ensures swift and stable wireless internet connection for streaming.
- **Bluetooth 5.2:** Supports 2-way Bluetooth for connecting external speakers or other Bluetooth devices.
- **HDMI ARC:** Connect gaming consoles (PS5, Switch), laptops, or other HDMI-enabled devices.
- **USB:** Play media directly from USB drives.
- **AV:** Connect older devices using the included 3-in-1 AV cable.
- **3.5mm Audio:** For wired headphone or speaker connections.
- **Screen Mirroring:** Supports Google Cast and AirPlay for seamless interaction with Google phones and other smart devices.

9. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector.

- **Dust-Proof Design:** The full-sealed optical engine minimizes dust entry, reducing the need for frequent internal cleaning.
- **Lamp Life:** The projector lamp has a long lifespan of up to 100,000 hours.
- **Cleaning:** Use the provided cleaning cloth and swabs to gently clean the lens and exterior surfaces. Avoid abrasive

cleaners.

- **Cooling System:** The projector features an efficient cooling system with low-noise operation. Ensure proper ventilation around the unit to prevent overheating.

Figure 9.1: The projector boasts a long lamp life of up to 100,000 hours, ensuring extended usage.

10. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Lagging or Freezing:** Ensure a stable Wi-Fi connection. Clear the app cache or restore Google TV to factory settings if the issue persists.
- **Remote Control Pairing:** Simultaneously press the "OK" button and the "Volume Down" button on the remote for 2-3 seconds to pair.
- **Image Out of Focus:** Place the projector in line with the center of the screen. Use the remote's left/right buttons for fine-tune focus or rely on the automatic focus feature.
- **Unresponsive/Defective Remote:** Download the Google Home app and use the virtual remote. Re-pair the remote or contact support for a replacement.
